

**NORTHAMPTON BOROUGH COUNCIL**

**AUDIT COMMITTEE**

Your attendance is requested at a meeting to be held at The Holding Room, The Guildhall, St. Giles Square, Northampton, NN1 1DE on Wednesday, 27 September 2017 at 6:00 pm.

**S Bovey**  
**Interim Chief Executive**

**AGENDA**

1. APOLOGIES

Please contact Democratic Services on 01604 837722 or [democratic\\_services@northampton.gov.uk](mailto:democratic_services@northampton.gov.uk) when submitting apologies for absence.

2. MINUTES

(Copy herewith)

3. DEPUTATIONS / PUBLIC ADDRESSES

4. DECLARATIONS OF INTEREST

5. MATTERS OF URGENCY WHICH BY REASON OF SPECIAL CIRCUMSTANCES THE CHAIR IS OF THE OPINION SHOULD BE CONSIDERED

6. KPMG ISA260 REPORT

(Copy herewith)

7. FINAL STATEMENT OF ACCOUNTS

(Copy herewith)

8. EXCLUSION OF PUBLIC AND PRESS

THE CHAIR TO MOVE:

“THAT THE PUBLIC AND PRESS BE EXCLUDED FROM THE REMAINDER OF THE MEETING ON THE GROUNDS THAT THERE IS LIKELY TO BE DISCLOSURE TO THEM OF SUCH CATEGORIES OF EXEMPT INFORMATION AS DEFINED BY SECTION 100(1) OF THE LOCAL GOVERNMENT ACT 1972 AS LISTED AGAINST SUCH ITEMS OF BUSINESS BY REFERENCE TO THE APPROPRIATE PARAGRAPH OF SCHEDULE 12A TO SUCH ACT.”

Agenda Item 2

**NORTHAMPTON BOROUGH COUNCIL**

**AUDIT COMMITTEE**

**Monday, 11 September 2017**

**PRESENT:** Councillor M Markham (Chair); Councillor Oldham (Deputy Chair);  
Councillors Golby, J Hill, Marriott and Stone

**1. APOLOGIES**

Apologies were received from Councillor Chunga.

**2. MINUTES**

The Minutes of the meeting held on 3<sup>rd</sup> July 2017 were confirmed and signed by the Chair.

**3. DEPUTATIONS / PUBLIC ADDRESSES**

There were none.

**4. DECLARATIONS OF INTEREST**

There were none.

**5. MATTERS OF URGENCY WHICH BY REASON OF SPECIAL CIRCUMSTANCES  
THE CHAIR IS OF THE OPINION SHOULD BE CONSIDERED**

There were none.

**6. GOVERNANCE ACTION PLAN**

The Governance and Risk Manager elaborated on the report and outlined the progress that had been made to date on implementing the Council's Governance Action Plan (GAP). It was noted that there had been a reduction in the number of actions from 67 to 48, noting that some of the reduction could be attributed by some action points being merged, due to duplication. It was reported that the number of actions that remained open was 26 and 22 had been closed. It was explained that there were a number of key areas of improvement in the GAP; Risk Management had been completed and was currently being reviewed by the Internal Auditors. Due Diligence was identified as being another key area and progress was noted with quotes received for License to Practice training which it was anticipated would be undertaken by the end of October 2017. The Governance and Risk Manager also referred to the Whistleblowing Policy which was expected to go live imminently.

In response to questions asked, it was explained that Whistleblowing cases would be reported to Audit Committee. The Borough Secretary also explained that whilst a number of the items had been merged on the GAP this had contributed to a slowing down of some decision making which was due to the implementation and bedding-in of the Plan. The Governance and Risk Manager explained that some of the timescales had been pushed back and recognised the need for honest and deliverable reporting. It was further noted that any recommendations received from external auditors could be incorporated and absorbed into the GAP.

**RESOLVED:**

- 2.1 That the Committee reviewed the Governance Action Plan to inform further work on its content, development and implementation.

- 2.2 That it be agreed that the Committee receive update reports on the implementation of the Governance Action Plan from the Borough Secretary and Chief Finance Officer at every future meeting until it determines otherwise.

## **7. ISA260 ACTION PLAN**

The Interim Strategic Finance Business Partner submitted a report and noted that the report informed the committee of the progress and closing off of the recommendations raised as part of the External Auditor's 2015/16 ISA260 report. He reported that the ISA260 action plan had included 41 separate actions to deals with 3 still outstanding which had progressed but had not been fully completed. It was further explained that one significant change from the previous Committee was the completion of the Loans Checklist and the inclusion of a further two actions to deal with a further recommendation raised in the 2016/17 Interim Audit Report. It was noted that the loans checklist had not been used to assess any new loans but that it had been used to check against older loans and therefore its full effectiveness had not been measured.

### **RESOLVED:**

That the progress achieved to date against the action plan developed by the statutory S151 Chief Finance Officer (CFO) to make improvements in line with the 2015/16 ISA260 and 2016/17 Interim Report Recommendations be noted.

## **8. APPOINTMENT OF EXTERNAL AUDITORS FOR 2018/19**

The Senior Finance Business Partner submitted a report on behalf of Management Board and explained that in November 2016, the Audit Committee agreed to recommend to Council that Northampton opt to join the national scheme for external auditor appointments for a 5 year period from the 1<sup>st</sup> April 2018 offered by the Public Sector Audit Appointments (PSAA) which and Council accepted the recommendation. It was noted that the national procurement had resulted in a proposal to select Ernst & Young LLP (EY) as the authorities' external auditors. Currently authorities were being consulted on the outcome, and officers recommend accepting the outcome and that no concerns need to be raised with the PSAA.

In response to questions raised by the Committee, the Chief Finance Officer stated that the procurement and selection process of EY had been note nationally and that a scoring matrix would be shared with members. It was explained further that any outstanding questions relating to the current and/or previous financial year would be dealt with by KPMG and from April 2018 it would be EY. Members were informed that there would be an extensive handover between the two Auditors.

Members discussed the report.

Upon a vote, members voted in favour of accepting the recommendations with one abstention.

### **RESOLVED:**

That the report be noted and the selection of Ernst & Young LLP (EY) as the authorities proposed external auditors to audit the Council's accounts for five years from 2018/19 be accepted.

## **9. FINANCE MONITORING**

The Chief Finance Officer elaborated upon a report which presented the Committee with the Financial Monitoring position to the end of June 2017. It was explained that monitoring reports had been provided to Cabinet on a more frequent basis to ensure that the latest financial positions were being reported and the Audit report would focus on key financial issues on a cyclical basis, specifically included in the report was an update on the position of the Enterprise Zone. It was noted that there were some areas of risk in the budget (partly due to early reporting in the financial year) specifically with regards to homelessness and provisions of related services due to increase in demand; this would be monitored closely and reported back at future meetings.

Members were informed that all Business rates generated by an Enterprise Zone (EZ) was retained by the Local Enterprise Partnership and Local authorities in the area for 25 years and were to be reinvested in local economic growth.

In response to questions asked, the Committee were informed that risk mapping was undertaken and numerous risk testing and scenario planning was being undertaken. It was noted that there were always going to be risks associated with changes to SEMLEP, Government or Policy but that there was statute in place.

The Chair commented that the Business Rate Uplift was originally supposed to go back to SEMLEP but extensive work undertaken by Officers had resulted in the Borough Council retaining a significant portion.

In response to further questions asked, the Chief Finance Officer commented that the Business Rates were subject to appeal and extensive monitoring of this was on going. It was reported that there had been some successful appeals but that an estimate was included in the position statements. He further explained that the remained of the funding for the Disabled Facilities Grant (DFG) was coming from Capital Receipts and borrowing and noted that the level of demand had been well in excess of Government funding but that the Council had to fulfil the grants by statute.

**RESOLVED:**

That the contents of the report be noted.

**10. DEBT MONITORING REPORT**

The Revenues & Benefits Technical Manager elaborated on a report which sought to update the Committee on the position regarding the Council's outstanding debts as at 31<sup>st</sup> July 2017. He explained that the overall outstanding arrears had increased by £4,163k compared to the same point in 2016. It was noted that unmanaged debt had also increased in the last year, the majority of which was within Asset Management.

In reference to Council Tax arrears, improvements in collection on arrears had improved year on year. It was explained that more work would be needed to write off some debt and that the Council were looking to engage with 3<sup>rd</sup> party supplies to assess the value and cost effectiveness in pursuing the debt. It was further explained that there had been 5 companies that had gone into administration which had subsequently impacted on the Business Rate figures.

In response to questions asked, the Revenues & Benefits Technical Manager explained that it was not possible to report on the circumstances of how much arrears people were in prior to qualifying for the Council Tax Reduction Scheme (CTRS).

**RESOLVED:**

That the latest position in relation to the Council's outstanding debts as at 31<sup>st</sup> July 2017 be noted.

## **11. AGENCY AND INTERIM REPORT**

The Interim Strategic Finance Business Partner elaborated on a report which presented the Committee with a position statement on the number of staff vacancies and interim/agency staff engaged covering vacant posts. It was explained that the Committee had been receiving regular update reports and following the meeting of the Committee in June 2017, 3 queries had been raised by Members which were included in the agenda. It was explained that although there had been a decrease of 23 posts across 3 directorates the true picture varied from the report as the Borough Secretary department had transitioned a number of positions from LGSS including Legal and HR services. It was noted that the total costs incurred to date since April 2017 for all interim/agency staff was £476k and it was highlighted that that figure represented the gross costs which would be off -set by savings in permanent staff budgets.

The Committee recognised the need to use interim/agency staff in the short term but had some concerns as to whether it provided value for money or if there were any other options that could be considered which included examining how to retain and develop existing staff. Questions were raised as to whether potential employees were attracted to positions open at the Council or if broader issues were affecting the employment figures and if this was specific to the Council or the whole public sector.

It was noted that Heads of Service and Directors had been invited to the Committee to elaborate on the report and answer any specific questions raised about their Directorates.

It was reported that some directorates had found difficulties in recruiting permanent staff and to fill vacant roles, hence the use of interim and agency staff within their area. It was noted that often Interims would be employed due to their expert and specialist knowledge. It was suggested that there was a reluctance to commute and that other authorities were more easily accessible such as London and Birmingham where wages would be higher and that the current terms and conditions offered by the Borough Council were not as favourable as other authorities. Reference was made to similar problems that were being experienced in the private sector and advised that a combination of both apprenticeships and graduate recruitment could go some way to resolve the staffing positions in the future.

A suggestion was made that further examination should be conducted with regards to the length of time and the costs of the appointment of an interim and whether it was in specialist roles.

It was suggested by a Committee Member that there was a need for them exit interviews to be seen by the Committee so that they could get an understanding of how to improve and retain staff and to look at ways of improving the workplace. The Committee acknowledged that there was no quick-fix solution to the problem as any changes would take time to imbed.

### **RESOLVED:**

That it be agreed that future reports are widened to include details of all interim/agency staff

including those not covering vacant posts.

## **12. DRAFT INTERNAL AUDIT PLAN LGSS - 2017/18 TO 2019/20**

The Audit Committee received a report that informed them about the LGSS draft internal Audit Plan 2017/18 -2019/20 for services provided to Northampton Borough Council. It was explained that the plan would be kept under constant review to ensure it adapted to any emerging risks and developments as and when they were identified.

### **RESOLVED:**

That the Committee noted the LGSS draft internal audit plan (contained at Appendix 1 of the report) for services provided by LGSS to Northampton Borough Council.

## **13. PWC AUDIT REPORT**

The Internal Auditor elaborated on the report submitted to the Committee and noted that significant progress had been made with regards to the continuous auditing approach and following a discussions with the Governance and Risk Manager it was deemed more appropriate to undertake some detailed reviews on specific areas of risks identified that a more 'light touch' approach across the Council. It was noted that they would focus on three areas: Financial Delegations, Contract Management and Fraud Awareness. It was further noted that the terms of reference had been agreed for 5 areas and an update would be provided at a future Audit Committee.

The Chair thanked the work of the officers, PwC and KMPG in progressing the Audit Plan and the Governance Action Plan.

### **RESOLVED:**

That the Committee noted the PwC internal audit progress report for 2017/18 and in particular the significant reduction in outstanding actions from previous years' internal audit reports.

The meeting concluded at 7.34pm

# External audit report 2016/17

**Northampton Borough  
Council**

—

September 2017

**DRAFT FOR DISCUSSION  
PURPOSES**

# Summary for Audit Committee

**Financial statements** This document summarises the key findings in relation to our 2016-17 external audit at Northampton Borough Council ('the Authority'). We previously reported on our interim work in our *External Audit Interim Report 2016/17* in July 2017.

This report focusses on our on-site work which was completed in July 2017 on the Authority's significant risk areas, as well as other areas of your financial statements. Our findings are summarised on pages 4 – 19.

**We have also identified an additional significant risk area in the course of our work. This is the valuation of 'other land and buildings' and investment properties.**

Our report also includes additional findings in respect of our control work which we have identified since we issued our interim report.

**Significant work is still ongoing, primarily in relation to the Authority's fixed assets. This has been caused by delays to the valuation process and issues found in relation to the valuation exercise. Further detail can be found on pages 6 – 12. Subject to all outstanding queries being resolved to our satisfaction we anticipate issuing our audit opinion on the Authority's financial statements.**

Based on our work, we have raised nine recommendations, see Appendix 1. This is in addition to the one recommendation raised in our interim report. Details on our recommendations can be found in Appendix 1. We anticipate issuing further recommendations in our Annual Audit Letter upon the completion of our audit work.

We are not able to issue our completion certificate due to objections received on the Authority's 2015/16 and 2016/17 financial statements. We are in the process of completing work in relation these objections.

**Use of resources** We have completed our risk-based work to consider whether in all significant respects the Authority has proper arrangements to ensure has taken properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. We have concluded that the Authority has not made proper arrangements to secure economy, efficiency and effectiveness in its use of resources.

**We therefore anticipate issuing an adverse value for money opinion.**

See further details on page 26.

**Acknowledgements** We would like to take this opportunity to thank officers and Members for their continuing help and co-operation throughout our audit work.

**We ask the Audit Committee to note this report.**

2	Summary for Audit Committee
4	Section one: financial statements
26	Section two: value for money
	<b>Appendices</b>
37	One: Key issues and recommendations
54	Two: Follow-up of prior year recommendations
65	Three: Audit differences
66	Four: Materiality and reporting of audit differences
67	Five: Declaration of independence and objectivity
68	Six: Audit fees

This report is addressed to Northampton Borough Council (the Authority) and has been prepared for the sole use of the Authority. We take no responsibility to any member of staff acting in their individual capacities, or to third parties. Public Sector Audit Appointments issued a document entitled Statement of Responsibilities of Auditors and Audited Bodies summarising where the responsibilities of auditors begin and end and what is expected from audited bodies. We draw your attention to this document which is available on Public Sector Audit Appointment's website ([www.psa.co.uk](http://www.psa.co.uk)).

External auditors do not act as a substitute for the audited body's own responsibility for putting in place proper arrangements to ensure that public business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively.

We are committed to providing you with a high quality service. If you have any concerns or are dissatisfied with any part of KPMG's work, in the first instance you should contact Andrew Cardoza, the engagement lead to the Authority, who will try to resolve your complaint. If you are dissatisfied with your response please contact the national lead partner for all of KPMG's work under our contract with Public Sector Audit Appointments Limited, Andrew Sayers (on 0207 694 8981, or email to [andrew.sayers@kpmg.co.uk](mailto:andrew.sayers@kpmg.co.uk)). After this, if you are still dissatisfied with how your complaint has been handled you can access PSAA's complaints procedure by emailing [generalenquiries@psaa.co.uk](mailto:generalenquiries@psaa.co.uk), by telephoning 020 7072 7445 or by writing to Public Sector Audit Appointments Limited, 3rd Floor, Local Government House, Smith Square, London, SW1P 3H.

**Section one**

# Financial Statements

We anticipate issuing an audit opinion on the Authority's 2016/17 financial statements. We will also report that your Annual Governance Statement complies with the guidance issued by CIPFA/SOLACE (*'Delivering Good Governance in Local Government'*) published in April 2016.

For the year ending 31 March 2017, the Authority has reported under the provision of services total income of £290 million against expenditure of £261 million. This has resulted in a net surplus on the provision of services of £29 million. Of this, a large balance relates to the change in social housing discount factor. However at the time of writing this report, we have not been able to quantify this from the information provided. The impact has been an increase in the General Fund.

# Significant audit risks

Our *External Audit Plan 2016/17* sets out our assessment of the Authority’s significant audit risks. We have completed our testing in these areas and set out our evaluation following our work:

Significant audit risks	Work performed
-------------------------	----------------

**1. Valuation of Council Dwellings**

**Why is this a risk?**

In 2016/17, the Authority has engaged an external valuer to undertake a comprehensive review of beacon assets used within the valuation of the Authority’s housing stock. This was in response to a higher-than-expected increase in the opening value of Council Dwellings during the course of the Authority’s annual valuation exercise undertaken for the valuation as at 1 April 2016. For the year ended 31 March 2016, the Authority’s housing stock was worth approximately £422 million, thus any change in the valuation is potentially a material change. There is also a risk that the beacon assets may not be representative of the Authority’s housing stock, thus over or under-valuing the value of Council Dwellings on the balance sheet.

The revision of beacon assets is a change in the Authority’s estimate of the value of Council Dwellings.

**Our work to address this risk**

The Authority is required to value Council Dwellings in line with Code requirements and guidance published by the Department for Communities and Local Government (DCLG) within the *Stock Valuation for Resource Accounting* (“the SVRA”). We engaged our own internal KPMG valuation specialists to assist us with the assessment of the work performed by the Authority’s external valuers.

*Timeline of work*

There were in total three teams of valuers involved with the valuation of the Authority’s Council Dwellings in 2016/17. This was due to a lack of capacity within the Estates team. The following summarises key events during the course of the financial year in relation to the valuation of Council Dwellings:

Significant audit risks	Work performed
<b>1. Valuation of Council Dwellings</b> <i>(continued)</i>	<p>As previously reported in our <i>External Audit 2016/17 Interim Report (April 2017)</i>, we had initially scheduled the KPMG specialist review of the valuation report to coincide with our interim work in March 2017 to assist the Authority with early closedown. This was ultimately not feasible due to capacity constraints within the Estates team and other valuation issues.</p> <p>In March 2017, we reviewed a version of the valuation exercise undertaken by Underwoods in February 2017. We queried the results of this as:</p> <ul style="list-style-type: none"> <li>— we were not able to review instructions provided to the valuer nor assess if the review was carried out in line with the instructions provided;</li> <li>— the valuation output did not set out the assumptions used by the valuer in forming its opinion;</li> <li>— there was no confirmation from the valuer that the Beacon review had been carried out in line applicable guidance specific to Council Dwellings, such as the SVRA.</li> </ul> <p>No report was provided per Code requirements. The requirement for a valuation report was specifically highlighted in our <i>ISA 260</i> recommendation in the previous year.</p> <p><i>Instructions sent to the valuer</i></p> <p>The Authority subsequently engaged Bruton Knowles in April 2017 to further review the work on the valuation of Council Dwellings. The valuer was instructed to:</p> <ul style="list-style-type: none"> <li>— perform a valuation of the beacons <i>previously valued at 1 April 2016</i> by Underwoods; and</li> <li>— utilise alternative beacons “where necessary” in order to produce a final report using a method of the valuers’ choice, in compliance with the current RICS Valuation Standards and the SVRA.</li> </ul> <p>The list of assets “<i>previously valued at 1 April 2016</i>” was initially sent to Underwoods for the initial work in February 2017. We reviewed this list to ensure that Bruton Knowles had carried out a review of the beacons as required by the Authority. Bruton Knowles has confirmed that it has selected alternative beacons as part of its valuation process.</p> <p>We understand that verbal instructions were provided to the valuer to undertake a desktop valuation of the beacons. This is not in compliance with Code requirements and is a departure from the Authority’s accounting policies and previous years’ practice. The Authority has since instructed Bruton Knowles to carry out a full valuation exercise on the 20% on 16 September 2017. This is discussed further on page 8.</p> <p><i>Application of the social housing discount factor</i></p> <p>The Authority’s housing stock is valued using Existing Use Value – Social Housing, or EUV–SH. This involves applying a social housing discount factor to the valuation of the properties, as defined within Appendix 4 of the SVRA. The SVRA has been updated in November 2016, which introduces a new social housing discount factor.</p> <p>For the East Midlands, the relevant social housing discount factor is 42% (this was 34% in the previous version of the SVRA). This is summarised overleaf.</p>

## Significant audit risks

## Work performed

## 1. Valuation of Council Dwellings (continued)

	Version published Jan 2011	Version published Nov 2016
East Midlands	34%	42%
South East	32%	33%
<b>Used by the Authority</b>	<b>34%</b>	<b>33%</b>

The Authority's valuer had applied a social housing discount factor of 33% instead, which is the discount factor applicable to the South East. Valuers are not obliged to use the adjustment factors, however the guidance requires that where discount factor varies by  $\pm 5\%$ , an auditable methodology should be established to provide assurance over this alternative adjustment factor. The SVRA further states that "the reasons for departing from the factor provided... must be clearly stated by the valuer together with the methodology and sources of evidence adopted for preparing the alternative". The Authority's valuer was unable to provide this.

Other local authorities with housing stock within Northamptonshire have used a social housing discount factor of 42%, which is consistent with the SVRA. Northampton Borough Council is thus an outlier.

Local authorities within Northamptonshire	With housing stock?	Social housing discount factor	Auditor
East Northants District Council	No	-	KPMG
South Northants District Council	No	-	E&Y
Corby Borough Council	Yes	42%	KPMG
Kettering Borough Council	Yes	42%	KPMG
Daventry District Council	No	-	KPMG
Borough Council of Wellingborough	No	-	KPMG
Northampton Borough Council	Yes	33%	KPMG

The difference between using 33% and 42% is £121.7 million. By adopting a social housing discount factor of 33%, the Authority has understated the value of its Council Dwellings by £121.7 million.

Given the above, the Authority has agreed to amend the social housing discount factor in line with the DCLG guidance.

#### Full valuation intervals

The Code requires the Council Dwellings to be revalued at intervals no more than five years. The Authority's approach is to carry out a full valuation of approximately 20% of beacon assets every year, thus ensuring coverage and compliance with the Code.

Significant audit risks	Work performed
<b>1. Valuation of Council Dwellings</b> <i>(continued)</i>	<p>For 2016/17, there is a departure from the approach in previous years, as only a desktop valuation had been carried out. This change in methodology has not been disclosed within the Authority's financial statements. The new approach this year is not in compliance with Code requirements. Therefore for the 20% of beacons valued, there has been a period of more than five years since the last full valuation.</p> <p>The use of a desktop valuation has been necessitated by time pressures; we understand that Bruton Knowles was engaged on 20 April 2017 with the view to produce a valuation report by the end of May 2017.</p> <p>However on 16 September 2017 Bruton Knowles carried out a full valuation exercise on the same 20% of beacons upon request by the Council. This was in response to our initial feedback on the Authority's compliance with Code requirements.</p> <p>Our assessment of the results of this full valuation is still ongoing and we will report our findings upon the conclusion of our work.</p> <p><i>Assessment of valuation methodology</i></p> <p>Our KPMG valuation specialists engaged with the Authority's valuers in September 2017 to assess the work performed by the Authority's valuers. Work on this is still ongoing. We will report our findings to the Audit Committee upon the conclusion of our work.</p> <p><i>Substantive testing of valuation figures</i></p> <p>Work on this is still ongoing. We will report our findings to the Audit Committee upon the conclusion of our work.</p> <p><i>Componentisation of Council Dwellings</i></p> <p>In second half of 2015/16, the Authority changed the way it has accounted for components of Council Dwellings (for example, bathrooms, kitchens, etc.). This change involved grouping individual components by type into one "global" component type. As a result, additions or disposal of individual components cannot be directly identified on the fixed asset register. The Authority has determined that where a component is replaced, a percentage is disposed (or, "derecognised") according to a ratio determined by historic data for each type of component.</p> <p>The change in accounting for components introduces an element of estimate and judgement. This is a move away from the purpose of componentisation, which was first introduced in IAS 16 (and adopted by the Code) in 2010/11 in order to refine asset values. Various elements of an asset do not have identical useful lives due to different depreciation rates. The use of componentisation allows the Authority to allocate values to individual components with greater accuracy. The move to group component types removes this refinement and introduces significant estimates.</p> <p>In the prior year, we agreed with the Authority that this change should be quantified to allow us to come to an informed view of this change in accounting methodology. Due to the departure of a key member of the Closedown team, this was not provided to the audit team.</p> <p>In the prior year, the amount calculated from this new methodology was not material; however in 2016/17 this balance is much larger, at £1.0 million. We had significant difficulty in assessing this balance and have made further inquiries in relation to disposals in quarter 4 and this has not been accounted for within the Authority's accounts. Our work on this is still ongoing and we will report our findings to the Audit Committee upon the conclusion of our work.</p>

**Significant audit risks**

**Work performed**

**1. Valuation of Council Dwellings** (continued)

Chart 1: Summary of movements in Council Dwellings (net book value)

Significant audit risks	Work performed
<b>2. Valuation of 'other land and buildings' and investment properties</b>	<b>Why is this a risk?</b>

During the course of the audit, we have identified that the valuation of 'other land and buildings' and investment properties is a significant audit risk. The Authority had engaged the following valuers to carry out work on both 'other land and buildings', and investment properties:

- internal valuers on 26 September 2016; and
- subsequently Underwoods. We were informed that Underwoods was engaged on 6 October 2016, but there are no formal records from the Authority to confirm this.

The engagement of Underwoods was the result of capacity constraints due to internal valuers leaving the Authority. As of September 2017, there are no valuation specialists remaining with the Authority which creates a gap in both capacity and capability.

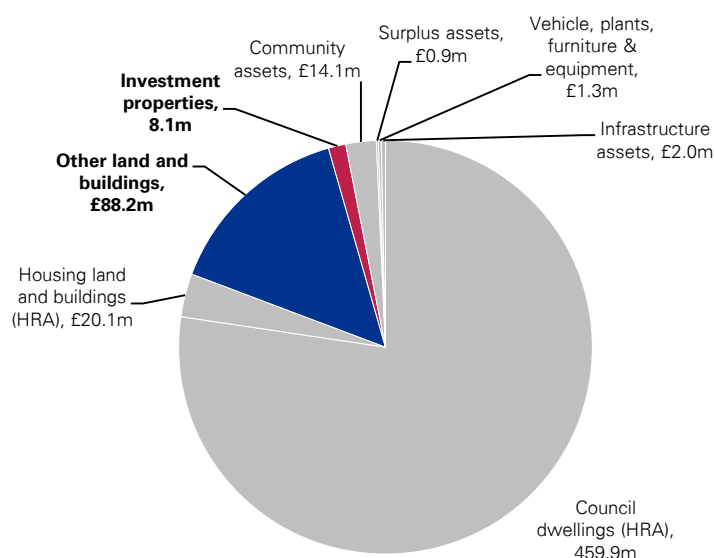

This has been further exacerbated by the departure of a key member of the Closedown Team which gave us concerns over continuity and on the oversight of the valuation process.

There are competing pressures within the Authority, and there is a risk that valuations may not be appropriately undertaken.

#### Our work to address this risk

'Other land and buildings' consists of non-housing property, with a net book value of £88.2 million and is valued on an Existing Use Value (EUV) basis. Investment property are assets used solely to earn rentals and/or for capital appreciation.

Chart 2: Net book values of PPE and investment properties

Note: Although 'Community assets', 'surplus assets', 'Vehicle, plants, furniture & equipment', and 'Infrastructure assets' are included within PPE, these classes of PPE are not revalued, per the Authority's accounting policy.

Significant audit risks	Work performed
<b>2. Valuation of 'other land and buildings' and investment properties</b> <i>(continued)</i>	<p data-bbox="445 364 765 389"><i>Instructions sent to the valuer</i></p> <p data-bbox="445 410 1343 520">No written records of instructions were sent to Underwoods. We were not able to confirm that Underwoods had complied with the valuation request; we had to undertake additional work to reconcile the list of assets reviewed against the valuer's output.</p> <p data-bbox="445 540 1343 650">We are also not able to confirm that the Authority has instructed its external valuer in line with the requirements of the Code and other applicable valuation and accounting standards. We engaged our KPMG specialist to perform additional substantive work to provide us assurance that the valuations were in line with applicable standards.</p> <p data-bbox="445 671 1343 727">Our work on this is still ongoing. We will report our findings to the Audit Committee upon the conclusion of our work.</p> <p data-bbox="445 747 855 772"><i>Assessment of valuation methodology</i></p> <p data-bbox="445 793 1268 870">We received the valuation report on 4 August 2017, which was later than we anticipated as the original audit plan included a review of the report prior to us commencing the final audit in July 2017.</p> <p data-bbox="445 890 1329 1000">Our KPMG valuation specialists engaged with the Authority's valuers in September 2017 to assess the work performed by the Authority's valuers. Work on this is still ongoing. We will report our findings to the Audit Committee upon the conclusion of our work.</p> <p data-bbox="445 1021 859 1046"><i>Substantive testing of valuation figures</i></p> <p data-bbox="445 1067 1343 1116">Work on this is still ongoing. We will report our findings to the Audit Committee upon the conclusion of our work.</p>

---

**Significant audit risks**
**Work performed**
**3. Significant changes in the pension liability due to the LGPS Triennial Valuation**
**Why is this a risk?**

During the year, the Northamptonshire County Council Pension Fund (the Pension Fund) has undergone a triennial valuation with an effective date of 31 March 2016 in line with the Local Government Pension Scheme (Administration) Regulations 2013. The Authority's share of pension assets and liabilities is determined in detail, and a large volume of data is provided to the actuary in order to carry out this triennial valuation.

The pension liability numbers to be included in the financial statements for 2016/17 will be based on the output of the triennial valuation rolled forward to 31 March 2017. For 2017/18 and 2018/19 the actuary will then roll forward the valuation for accounting purposes based on more limited data.

There is a risk that the data provided to the actuary for the valuation exercise is inaccurate and that these inaccuracies affect the actuarial figures in the accounts. Most of the data is provided to the actuary by Northamptonshire County Council, who administer the Pension Fund.

**Our work to address this risk***Controls*

As part of the additional work on pensions due to the triennial valuation, we have reviewed the process used to submit payroll data to the Pension Fund, including year-end controls. As part of the submission process, we expect Management to formally assess and confirm that the actuarial assumptions used by the actuary are appropriate for the organisation and in line with expectations.

We have found that there is no formal review process, nor is Management able to evidence that it has considered the actuarial assumptions used. Management has subsequently confirmed to us that it considers the assumptions used by the actuary to be suitable for the Authority and are in line with the other members of the Northamptonshire Pension Fund. We also subsequently received emails from the Authority which demonstrated review of these actuarial assumptions. We have raised a recommendation that actuarial assumptions should be formally reviewed as part of the yearly closedown process to ensure that they are appropriate for the Authority, see recommendation 9 in Appendix 1.

*Testing carried out at the Pension Fund*

We liaised with your Pension Fund Audit team to gain assurance over:

- the operation of the Fund's controls, including the controls over the transfer of data to the Actuary;
- the figures submitted from the Fund to the Actuary, including the completeness and accuracy of the data;
- investment balances;
- monitoring arrangements; and
- controls in relation to the calculation and authorisation of benefit payments.

The Pension Fund Audit team reported that there is no authorisation or segregation of duty in relation to the posting of journals for the Pension Fund. This has been reported with the Fund's ISA 260 (Communication to Those Charged with Governance). With the exception of journals, no further issues with the Fund were noted.

Significant audit risks	Work performed
<b>3. Significant changes in the pension liability due to the LGPS Triennial Valuation</b> <i>(continued)</i>	<p data-bbox="446 364 622 389"><i>Year end testing</i></p> <p data-bbox="446 410 1339 488">We substantively agreed the total figures submitted to the Fund to the Authority's ledger. We also tested the IAS 19 reports produced by the Fund's Actuary to figures disclosed within the Authority's financial statements. No discrepancies were noted.</p> <p data-bbox="446 509 791 534"><i>Review of actuarial assumptions</i></p> <p data-bbox="446 555 1339 638">We used KPMG's actuary to review the assumptions used by the Fund's Actuary for the triennial valuation. Assumptions used are in line with the other members of the Northamptonshire Pension Fund and within our expectations.</p>
<b>4. Management override of controls</b>	<p data-bbox="446 665 651 689"><b>Why is this a risk?</b></p> <p data-bbox="446 710 1339 845">Professional standards require us to communicate the fraud risk from management override of controls as significant because management is typically in a unique position to perpetrate fraud because of its ability to manipulate accounting records and prepare fraudulent financial statements by overriding controls that otherwise appear to be operating effectively.</p> <p data-bbox="446 866 1339 1000">Although our audit methodology includes the risk of management override as a default significant risk, we have identified that the events surrounding the loss of £10.22m in relation to the NTFC loan and the on-going police investigation are contributory factors in the increased risk, and specifically warrants management override of control as a significant risk to the financial statements.</p> <p data-bbox="446 1021 776 1046"><b>Our work to address this risk</b></p> <p data-bbox="446 1067 1339 1201">We have decreased materiality over the financial statements which resulted in additional testing over the Authority's financial statements. We enhanced our use of data analytics techniques over the Authority's transactional data (for example, journals, payroll, and non-pay expenditure) to allow us to gain additional assurance over the balances.</p> <p data-bbox="446 1222 1339 1280">We carried out additional work on the Authority's related party transactions to ensure disclosures and declarations are robust and complete.</p> <p data-bbox="446 1301 1339 1359">We applied professional judgement throughout our audit of your financial statements and performed robust procedures, including:</p> <ul data-bbox="446 1379 1250 1535" style="list-style-type: none"> <li data-bbox="446 1379 1001 1404">— Examining journal entries and other adjustments;</li> <li data-bbox="446 1425 833 1450">— Reviewing accounting estimates;</li> <li data-bbox="446 1471 1250 1495">— Evaluating the business purpose for significant unusual transactions; and</li> <li data-bbox="446 1516 819 1541">— Other procedures as necessary.</li> </ul> <p data-bbox="446 1556 1339 1609">There were no significant issues or matters arising from our work in this area that we need to bring to Members' attention.</p>

## Considerations required by professional standards

### Fraud risk of revenue recognition

Professional standards require us to make a rebuttable presumption that the fraud risk from revenue recognition is a significant risk.

In our *External Audit Plan 2016/17* we reported that we do not consider this to be a significant risk for Local Authorities as there is unlikely to be an incentive to fraudulently recognise revenue.

This is still the case. Since we have rebutted this presumed risk, there has been no impact on our audit work.

# Other areas of audit focus

We identified two areas of audit focus. These are not considered as significant risks as there are less likely to give rise to a material error. Nonetheless these are areas of importance where we would carry out substantive audit procedures to ensure that there is no risk of material misstatement.

Other areas of audit focus	Our work to address the areas
<b>1. Disclosures associated with retrospective restatement of CIES, EFA and MiRS</b>	<p data-bbox="446 609 582 636"><b>Background</b></p> <p data-bbox="446 654 1352 851">During past years, CIPFA has been working with stakeholders to develop better accountability through the financial statements as part of its 'telling the whole story' project. The key objective of this project was to make Local Government accounts more understandable and transparent to the reader in terms of how the Councils are funded and how they use the funding to serve the local population. Outcome of this project resulted in two main changes in respect of the 2016/17 Local Government Accounting Code (Code) as follows:</p> <ul data-bbox="446 872 1352 1085" style="list-style-type: none"> <li data-bbox="446 872 1352 955">— Allowing local authorities to report on the same basis as they are organised by removing the requirement for the Service Reporting Code of Practice (SeRCOP) to be applied to the Comprehensive Income and Expenditure Statement (CIES); and</li> <li data-bbox="446 975 1352 1085">— Introducing an Expenditure and Funding Analysis (EFA) which provides a direct reconciliation between the way local authorities are funded and prepare their budget and the CIES. This analysis is supported by a streamlined Movement in Reserves Statement (MiRS) and replaces the current segmental reporting note.</li> </ul> <p data-bbox="446 1106 1352 1162">As a result of these changes, retrospective restatement of CIES (cost of services), EFA and MiRS is required from 1 April 2016 in the Statement of Accounts.</p> <p data-bbox="446 1183 1352 1239">New disclosure requirements and restatement of accounts require compliance with relevant guidance and correct application of applicable accounting standards.</p> <p data-bbox="446 1259 1352 1336">Though less likely to give rise to a material error in the financial statements, this is an important material disclosure change in this year's accounts, worthy of audit understanding.</p> <p data-bbox="446 1357 672 1384"><b>What we have done</b></p> <p data-bbox="446 1404 1352 1543">This additional work is driven by Code changes. The Authority has been sighted on this change in advance of the year end and had proactively liaised with KPMG to review the restated 2015/16 CIES during the interim audit in March 2017 however during the interim audit, this work was not available for review and was performed as part of the year end work.</p> <p data-bbox="446 1564 1352 1839">For the restatement, we have obtained an understanding of the methodology used to prepare the revised statements. We reviewed the Authority's methodology for compiling the restated CIES and the new EFA. We agreed the Authority's disclosure and compliance with the Code requirements. The Authority has chosen not to apportion recharges of Investment Properties and Trading Accounts. This is in line with its own internal reporting methodology. This has resulted in the net expenditure in 2015/16 Cost of Services decreasing under the new model by £50,000. The 2015/16 Surplus on Provision of Services remains unchanged. The Authority has applied the internal reporting structure to the new CIES as allowed by the Code. The EFA is also in line with new Code requirements.</p>

Other areas of audit focus	Our work to address the areas
<p><b>1. Disclosures associated with retrospective restatement of CIES, EFA and MiRS</b> (continued)</p>	<p>For the 2016/17 the Authority was consistent in the approach set out above. Initially the Authority did not provide us with the note to accompany the EFA however this was subsequently provided. No issues were identified.</p> <p>In conjunction with the new CIES, the Code requires that the analysis of expenditure include depreciation, amortisation, and employee benefit expense. The Code guidance further provides an example disclosure. We note that this was missing from the Authority's initial draft accounts. This was subsequently provided to us during our audit visit. We did not find issues in relation to this.</p> <p>We have also agreed the 2016/17 figures disclosed in the notes to the Authority's general ledger and found no issues.</p>
<p><b>2. Change in the Non Domestic Rates (NDR) system</b></p>	<p><b>Background</b></p> <p>In April 2016, the Authority returned the business operation of the NDR system to Northampton Borough Council from the previous consortium arrangement with the Borough Council of Wellingborough. This involved the migration of the NDR database to the Authority and included the re-design of system processes and protocols to ensure that the controls within the system are fit for purpose.</p> <p><b>What we have done</b></p> <p>Our IT Specialists have liaised with the Authority and completed testing as necessary to obtain assurance that the NNDR data has been transferred completely and accurately, and to ensure that the new system operates effective and appropriate controls and processes to reduce any material risks. We have gained an understanding of the new system and controls in place at the Authority.</p> <p>The Authority originally transferred from the ICL system (in-house) to Academy (at the Borough Council of Wellingborough, operated by Capita) in 2003/04. The data conversion and cleansing process resulted in a difference of 13 pence between the starting and the finishing balance. This was due to rounding differences. Because this difference was minimal and involved a large quantity of historic data, this was previously agreed by the Authority as being acceptable.</p> <p>However, whilst the transactions balanced and were correct, this had the impact of causing Capita's integrity-checking process to fail. The amounts have been reported as part of the NNDR3 process, thus did not adversely impact on the Authority's reconciliation or funding arrangements.</p> <p>We understand from the Authority's documentation that a significant number of integrity checks have not been done. As at the date of our work in April 2017, there were 998 such cases totalling £5.1 million. The Authority has stated that work is ongoing in relation to this.</p>

# Judgements

We have considered the level of prudence within key judgements in your 2016/17 financial statements and accounting estimates. We have set out our view below across the following range of judgements.

Subjective areas	2016/17	2015/16	Commentary
<b>Provisions (excluding NDR)</b>	3	3	We tested the Authority's provision against IAS 37 with no issues to note. We consider the provision disclosures to be proportionate.
<b>NDR provisions</b>	3	5	In 2013/14, local authority funding arrangements meant that the Authority is now responsible for a proportion of successful rateable value appeals. The Authority has previously provided for a fixed percentage of outstanding appeals in accounting for the potential liability. We challenged this in the prior year and recommended that the Authority should review its Non Domestic Rates (NDR) provisions in line with applicable accounting guidance. The Authority has since reviewed its NDR provisions and incorporated detailed variables to fairly reflect local information. This has resulted in an increase of £800,000.
<b>PPE: components</b>	N/A	N/A	The Authority has changed the way it accounts for components of Council Dwellings. This new methodology is an estimate; this estimate has not been disclosed within the Authority's financial statements. We are unable to quantify the accuracy of this estimate despite requesting an analysis for 2016/17. Further work is being undertaken to gain assurance over this estimate. We have raised a high-priority recommendation, see recommendation 5 in Appendix 1.
<b>Pension liability</b>	3	3	During the year, the Northamptonshire Pension Fund had undergone a triennial valuation, which resulted in an increase in pensions liability of £23.3 million. The actuarial assumptions used drive the actuarial gains or losses as well as pensions liabilities. Management has confirmed that it has reviewed the assumptions used by the actuary are appropriate for the Authority. We have performed work on the assumptions used and have deemed the assumptions to be reasonable and within our expectations. Assumptions used are also in line with other local authorities within the Northamptonshire Pension Fund. We have requested specific representations in relation to this and have raised a low-priority recommendation, see recommendation 9 in Appendix 1.

# Proposed opinion and audit differences

Subject to all outstanding queries being resolved to our satisfaction, we anticipate issuing an unqualified audit opinion on the Authority's 2016/17 financial statements following the completion of our work and approval of the Statement of Accounts by the Audit Committee.

## Audit differences

In accordance with ISA 260 we are required to report uncorrected audit differences to you. We also report any material misstatements which have been corrected and which we believe should be communicated to you to help you meet your governance responsibilities.

The final materiality (see Appendix 4 for more information on materiality) level for this year's audit was set at £1.5 million. Audit differences below £75,000 are not considered significant.

We have not been able to conclude on the number and value significant audit differences as described in Appendix 3 while work on PPE is ongoing. It is our understanding that there will be adjustments made to the PPE balance.

The net impact on the General Fund and HRA as a result of audit adjustments is to yet to be determined.

In addition, we identified a large number of presentational adjustments required to ensure that the accounts are compliant with the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 ('the Code'). We understand that the Authority will be addressing these where significant.

## Annual governance statement

We have reviewed the Authority's 2016/17 Annual Governance Statement and confirmed that:

- It complies with *Delivering Good Governance in Local Government: A Framework* published by CIPFA/SOLACE;

and

- It is not misleading or inconsistent with other information we are aware of from our audit of the financial statements.

## Narrative report

We have reviewed the Authority's 2016/17 Narrative Report and have made comments in relation to compliance with Code requirements. We understand that further work is being undertaken to improve the Authority's Narrative Report; however we have not been provided with the final version ahead of this report. We will provide the Audit Committee with an update upon the completion of our work on the Narrative Report.

# Accounts production and audit process

The Accounts and Audit Regulations 2015 introduces a statutory requirement to produce a draft set of financial statements earlier for the year 2017/18. It also shortens the time available for the audit.

Our audit standards (*ISA 260*) require us to communicate our views on the significant qualitative aspects of the Authority's accounting practices and financial reporting.

We also assessed the Authority's process for preparing the accounts and its support for an efficient audit. The efficient production of the financial statements and good-quality working papers are critical to meeting the tighter deadlines.

## Introduction of KPMG Central

We introduced KPMG Central this year, which is a cloud-based document storage system to facilitate the secure transfer of large amounts of data between the Authority and the audit team. KPMG Central aligns to our Accounts Audit Protocol and allows the Authority's Closedown team to efficiently share requested information. Feedback from the Closedown team has been positive and allows us to keep track of uploaded documents.

## Accounting practices and financial reporting

The Authority has recognised the additional pressures which the earlier closedown in 2017/18 will bring. We have been engaging with the Authority in the period leading up to the year end in order to proactively address issues as they emerge.

However, when we began our on-site audit, in July 2017 we encountered significant delays with regard to the provision of working papers and valuation reports, which meant that the Authority was unable to meet the earlier agreed deadlines. The earlier deadlines for 2016/17 were suggested by the audit team as a trial run in anticipation of the earlier deadlines in 2017/18. As a result, this raises significant concerns over the Authority's ability to meet the early statutory deadlines in 2017/18.

The Authority will need to strengthen its financial reporting by finalising the accounts in a shorter timescale. It should also consider a fundamental review of its approach to the closedown process, including the implementation of monthly or quarterly closedowns and early engagement with its external valuers. This will put the Authority in a better position to meet the 2017/18 deadline.

Officers took a proposal to Audit Committee on 6 March 2017 to make minor amendments to the Authority's accounting policies. We consider the accounting policies to be appropriate. However, we note that the Council has not disclosed a change in the way it has accounted for components of Council Dwellings, which involves a significant estimates. This change affects the full financial year for the first time in 2016/17. This new methodology is discussed further in the following sections.

## Completeness of draft accounts

We received a set of draft accounts on 30 June 2017, which is the statutory deadline. However we noted the following:

- The cash flow statement was incorrect as the figures did not agree to the accounts. According to Officers, the provision of an incorrect cash flow was due to pressures faced by the Closedown team during the closedown process. A revised cash flow statement was subsequently provided three weeks after the audit began.

- For 2016/17, the Code introduced the requirement to analyse expenditure by nature. This analysis was missing from the initial draft accounts. A draft was subsequently provided to the team within three days.

### Supporting working papers

#### *Quality and timeliness of working papers*

Prior to issuing our *Accounts Audit Protocol 2016/17* ("Prepared by Client", or PBC request) we ran workshops in October 2016 to assist the Authority in understanding our PBC requirements. Our PBC document outlines our documentation request. This helps the Authority to provide audit evidence in line with our expectations.

A draft PBC was issued in December 2016 and post-discussion with Officers, was finalised the following month. We followed this up with a meeting with the Closedown Team to discuss specific requirements of the document request list in March 2016. We have also offered further support and opportunities to discuss specific requirements of audit requests.

The quality of audit evidence initially provided did not fully align to our expectations which were set out in our *Accounts Audit Protocol 2016/17*. For example:

- we were not provided with a full fixed assets register or a breakdown of fixed assets additions. More significantly, we were not provided with the valuation reports prior to the start of the final audit, as previously agreed with the Authority;
- the breakdowns for both debtors and creditors were incorrect and did not tie back to the accounts; and
- working papers for payroll did not have robust audit trails, which made it difficult to understand what had been provided.

The quality issues above meant that we undertook additional work to understand the initial working papers. The audit team had to wait for the provision of revised working papers to address the issues we found. The delays have meant that we spent additional time over and above what was originally planned including significant work undertaken after the agreed on-site visit, for example, over additions and disposals of fixed assets. We anticipate that the delays will have an impact on the final audit fee.

We note that due to the departure of a key member of the Closedown Team, a number of previously-agreed approaches to audit evidence have changed, in particular the evidence requested for the componentisation of Council Dwellings. This has caused delays to the work on the derecognition of components. We have discussed additions and derecognitions of components further on page 9.

There is scope for significant improvement through further development of work papers to enhance understanding, clarity, and the audit trail. We have raised a recommendation in respect of this, see recommendation 3.

#### *Data analytics*

This year, we enhanced our testing of the Authority's payroll by utilising Data and Analytics (D&A) techniques. The use of D&A techniques allows us to undertake testing of 100% of the population, thus offering greater assurance to the Authority. Our D&A requirements were also communicated to the Authority within our PBC request.

Our D&A testing during the interim audit in March 2017 found exceptions and we conveyed the results to the Authority for follow-up. The Authority subsequently found that the exceptions due to incomplete data provided to the audit team. We repeated the work with a second set of data, which resulted in fewer exceptions produced.

We undertook the year-end D&A testing on payroll in July 2017, and found further exceptions. These were also the result of incomplete data provided to the audit team. Again, this required us to repeat the work with a second set of data.

The duplication of testing meant that we incurred additional time and cost. This also impacts our ability to follow-up genuine exceptions whilst on site, and significant work on payroll had to be undertaken after the conclusion of our agreed on-site visit.

### Response to audit queries

On average, Officers dealt with our audit queries within four working days of inquiry.

However, evidence relating to some areas of sample testing took upwards of three weeks to be provided, such as additions and breakdowns of fixed assets. This caused significant delays to the audit process. Issues in relation to additions and disposals stem from the way in which the Authority accounts for the components of Council Dwellings.

### Group audit

To gain assurance over the Authority's group accounts, we placed reliance on the work completed by Grant Thornton on the financial statements of Northamptonshire Partnership Homes.

There are no specific matters to report pertaining to the group audit.

We are yet to perform work over the consolidation process.

### Additional findings in relation to the Authority's control environment for key financial systems

We have tested controls as part of our focus on significant audit risks and other parts of your key financial systems on which we rely as part of our audit. The strength of the control framework informs the substantive testing we complete during our final accounts visit.

In our *External Audit 2016/17 Interim Report* tabled in July 2017, we reported that there were a number of year end controls that we will be testing during our year end audit.

We have highlighted exceptions in relation to controls in Table 1 below.

Further detail and associated recommendations can be found in Appendix 1.

**Table 1: Summary of control deficiencies**

Control	Deficiency	Impact on audit	IA rating	Ref
Bank reconciliations	<ul style="list-style-type: none"> <li>— There were unreconciled balances that the Authority has been unable to address.</li> <li>— A number of these balances relate to direct debit payments set up by third parties using the Authority's bank details.</li> <li>— A number of unreconciled items were incorrectly dated due to a system issue.</li> </ul>	We could not place reliance on the Authority's bank reconciliations, particularly as the system does not correctly date the reconciling items. We performed substantive testing over the Authority's bank balance at the year end.	LGSS: Substantial PwC: N/A	See rec. 1
PPE instructions	<ul style="list-style-type: none"> <li>— Formal instructions were not provided to the Authority's external valuers, Underwoods and Bruton Knowles. We understand instructions were provided verbally, and the overall points were followed-up by email.</li> </ul>	We performed significantly more work to confirm that the valuation exercises were in line with Code requirements. We found that instructions were not properly-defined, which has led to numerous issues as discussed in the previous sections.	N/A	See rec. 2
General IT controls	<ul style="list-style-type: none"> <li>— The Authority does not enforce its own password policy.</li> </ul>	The Authority is not in compliance with its own IT policy; we have raised a recommendation in relation to this.	LGSS: Not reviewed PwC: Not reviewed	See rec. 6
Non-domestic rates (NDR) reconciliation	<ul style="list-style-type: none"> <li>— We identified differences between cash and the expected payments as recorded by the Authority's NDR system (Academy). Some of this differences date from June 2016 which we would have expect to have cleared by year-end.</li> </ul>	We performed additional work to understand the impact our findings have on the NDR balance.	LGSS: Substantial PwC: N/A	See rec. 7
Payroll reconciliation	<ul style="list-style-type: none"> <li>— There is no evidence of review of the Authority's payroll reconciliation.</li> </ul>	There is a risk that errors and fraud will not be detected. We have re-performed the control to obtain assurance over the reconciliation between the payroll system and the general ledger.	LGSS: Payroll not reviewed in 2016/17 PwC: Control not tested within the 2016/17 Payroll review	See rec. 8
Review of actuarial assumptions	<ul style="list-style-type: none"> <li>— We were not originally provided with evidence to support the Authority's review of actuarial assumptions. Email evidence has subsequently been provided.</li> </ul>	We were not able to conclude on this matter earlier, and additional work had to be undertaken to obtain assurance that actuarial assumptions have been reviewed by the Authority.	N/A	See rec. 9

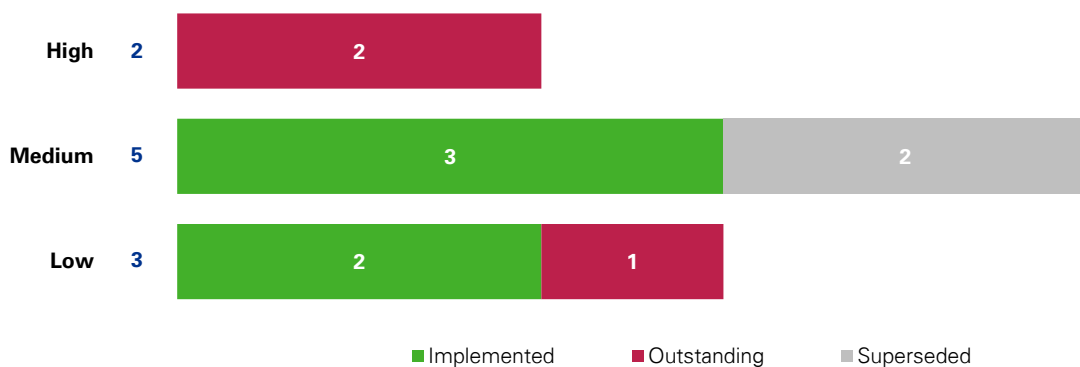

**Prior year recommendations**

As part of our audit we have specifically followed up the Authority's progress in addressing the recommendations in last years ISA 260 report.

The Authority has implemented the majority of the recommendations in our *ISA 260 Report 2015/16*.

Appendix 2 provides further details.

*Chart 3: Summary of 2015/16 recommendations*

# Completion

We confirm that we have complied with requirements on objectivity and independence in relation to this year's audit of the Authority's 2016/17 financial statements.

Before we can issue our opinion we require a signed management representation letter. Once we have finalised our opinions and conclusions we will prepare our Annual Audit Letter and close our audit.

## Declaration of independence and objectivity

As part of the finalisation process we are required to provide you with representations concerning our independence.

In relation to the audit of the financial statements of Northampton Borough Council for the year ending 31 March 2017, we confirm that there were no relationships between KPMG LLP and Northampton Borough Council, its directors and senior management and its affiliates that we consider may reasonably be thought to bear on the objectivity and independence of the audit engagement lead and audit staff. We also confirm that we have complied with Ethical Standards and the Public Sector Audit Appointments Ltd requirements in relation to independence and objectivity. We have provided a detailed declaration in Appendix 5 in accordance with ISA 260.

## Management representations

You are required to provide us with representations on specific matters such as your financial standing and whether the transactions within the accounts are legal and unaffected by fraud. A template will be provided to your Chief Finance Officer / Section 151 Officer for presentation to the Audit Committee upon the completion of our work. We require a signed copy of your management representations before we issue our audit opinion.

## Other matters

ISA 260 requires us to communicate to you by exception 'audit matters of governance interest that arise from the audit of the financial statements' which include:

- Significant difficulties encountered during the audit;
- Significant matters arising from the audit that were discussed, or subject to correspondence with management;
- Other matters, if arising from the audit that, in the auditor's professional judgement, are significant to the oversight of the financial reporting process; and
- Matters specifically required by other auditing standards to be communicated to those charged with governance (e.g. significant deficiencies in internal

control; issues relating to fraud, compliance with laws and regulations, subsequent events, non disclosure, related party, public interest reporting, questions/objections, opening balances etc.).

Below we have set out matters of governance interest that have arisen during the audit or are matters which have been brought to our attention during the course of the audit. We will provide an update to the Audit Committee upon the presentation of this report, and will report in our Annual Audit Letter if there are further matters which we wish to draw to your attention in addition to those highlighted in this report.

### *Council Tax*

During the course of the audit we have received, and accepted an objection from a local elector. The objection relates to the process the Authority has followed in setting Council Tax for 2017/18 and subsequent years, including the use of special expenses. We are currently undertaking work to review the issues raised within the objection, including taking legal advice on certain matters.

Until we have concluded our investigation we are unable to officially close the audit of the 2016/17 financial statements and issue our audit certificate. We are working with the Authority to obtain all the necessary information needed for our review, and will update and report any necessary findings of our work to the Audit Committee accordingly.

### *Capital Projects: Procurement and Governance*

During the course of the audit we also received an objection relating to the governance of a major capital works project. We were unable to accept this correspondence as an objection to the financial statements as it does not support there being sufficient evidence that the expenditure has been unlawful to date, which is one of the key requirements to accept an objection to the accounts.

Due to the nature of the matters brought to our attention during the course of the audit we are conducting a separate review into this issue, as well as wider matters of overall governance, procurement and contract

# Completion

management at the Authority. We are liaising with the Authority to obtain all necessary evidence and information to support this work and once completed will report back to the Audit Committee the findings of our work, included recommendations arising from any weaknesses we identify in the design or operation of the appropriate governance and financial control frameworks.

## *The departure of the Chief Executive*

The Authority's previous Chief Executive departed the organisation in July 2017. The Chief Executive also acts in a statutory role as the Head of Paid Service. There is a risk that the terms and conditions of the departure, including any exit package, did not provide value for money to the Authority. We have reviewed the circumstances surrounding the departure of the Chief Executive in July 2017.

The Chief Executive resigned on 18 July 2017, and his last working day was effectively 31 July 2017 due to the Authority agreeing payment in lieu of notice. He also received outstanding holiday entitlement but no other payments were made at the time. As this was a resignation, no exit package was required nor agreed.

We have reviewed these payments and associated documentation and are content that the Authority followed appropriate processes.

However, we do note that Section 4 of the Local Government & Housing Act 1989 provides that it is the duty of every Local Authority to designate one of their officers as its Head of Paid Service.

During the period between 1 August 2017 and 6 September 2017 the Authority was in breach of legislation and did not have a Head of Paid Service in place as no interim measures had been prepared to deal with the departure of the previous Chief Executive in advance of his final leaving date.

The Authority stated that there were no other internal officers that could be appointed to the Head of Paid Service position given their experience and current workloads, and other statutory officers such as the Monitoring Officer could not act in dual statutory roles.

The Authority also stated that no significant staffing changes were being made that would engage the Head of Paid Service's statutory duties. The Chief Executive's powers, other than the Head of Paid Service's powers, were delegated to the Monitoring Officer who was supported by the Directors and the Section 151 Officer.

Full Council agreed on 17 August 2017 to approve the appointment of Simon Bovey as the Council's Head of Paid Service from 6 September 2017 until 5 March 2018.

**Section three**

# Value for money

Our 2016/17 VFM conclusion considers whether the Authority had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.

We have concluded that the Authority has not made proper arrangements to ensure it took properly-informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.

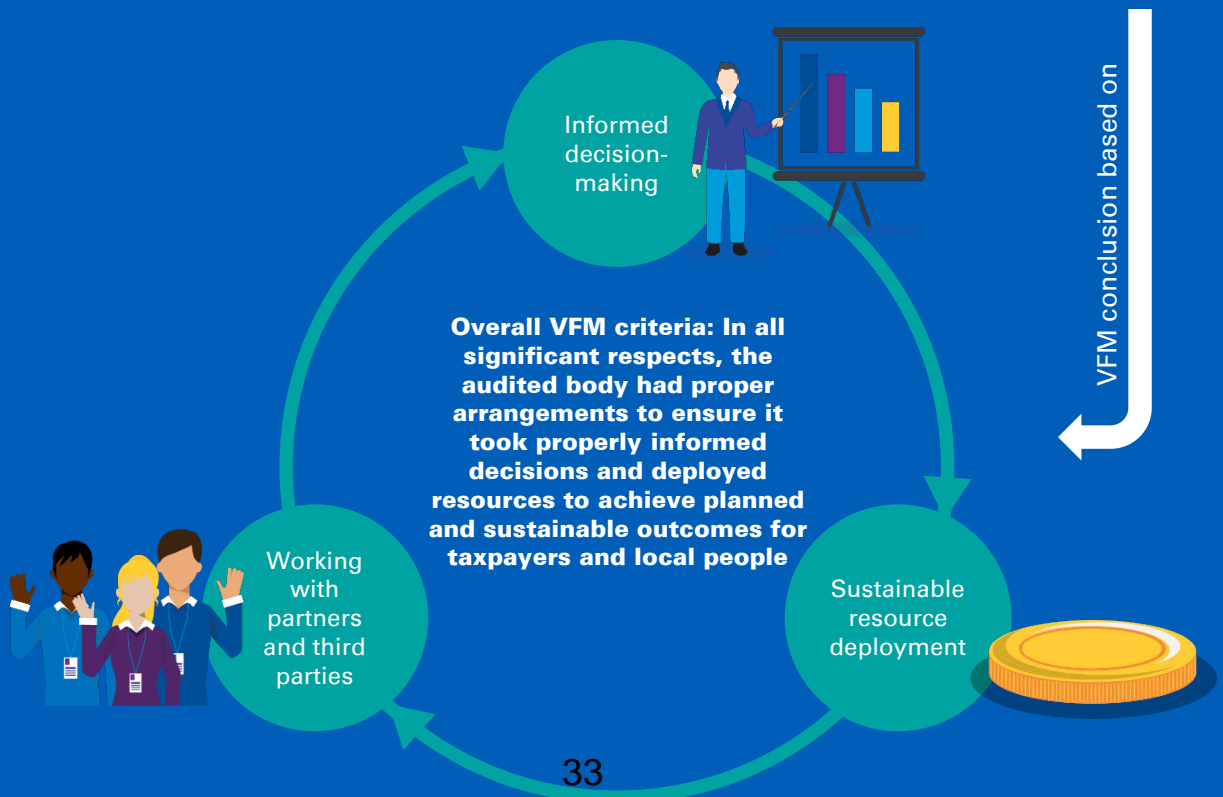

# VFM conclusion

The Local Audit and Accountability Act 2014 requires auditors of local government bodies to be satisfied that the authority ‘has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources’.

This is supported by the Code of Audit Practice, published by the NAO in April 2015, which requires auditors to ‘take into account their knowledge of the relevant local sector as a whole, and the audited body specifically, to identify any risks that, in the auditor’s judgement, have the potential to cause the auditor to reach an inappropriate conclusion on the audited body’s arrangements.’

Our VFM conclusion considers whether the Authority had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.

We follow a risk based approach to target audit effort on the areas of greatest audit risk.

The table below summarises our assessment of the individual VFM risks identified against the three sub-criteria. This directly feeds into the overall VFM criteria and our value for money opinion.

Table 2: VFM assessment summary

VFM risk	Informed decision-making	Sustainable resource deployment	Working with partners and third parties
1. Financial resilience in the local and national economy	✓	✓	✓
2. Governance action plan	✗	✗	✗
3. NTFC loan and the wider loans system	✗	✗	✗
4. Procurement	✓	✓	✓
5. Chief Executive departure	✓	✓	✓
<b>Overall summary</b>	<b>✗</b>	<b>✗</b>	<b>✗</b>

In consideration of the above, we have concluded that in 2016/17, the Authority has not made proper arrangements to ensure it took properly-informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.

Further details on the work done and our assessment are provided on the following pages.

In arriving at this conclusion, we have reviewed the Authority's arrangements relating to a number of risks as documented in the table above.

Whilst we are satisfied that the Authority currently has appropriate arrangements in place to manage and deliver financial savings under increasingly difficult circumstances, as well as manage risks relating to the procurement of contracts during the year, our findings as a result of the NTFC loan and resulting internal audit report, as well as governance action plan, means we are unable to state that Northampton Borough Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes

for taxpayers and local people.

Our findings indicate that there is an insufficiently systematic, robust, and objective due diligence process, and framework within which decisions can be made or documented.

Whilst we recognise that the Authority now has an action plan in place, as this was not produced until December 2016, it is clear that during this period there was an insufficiently systematic, robust, and objective governance process, and framework in place

We are therefore unable to state that Northampton Borough Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. As a result we will issue an adverse value for money opinion.

Further details on the work done and our assessment are provided on the following pages.

# Significant VFM risks

We have identified five significant VFM risks, as communicated to you in our *2016/17 External Audit Plan*. In some cases we are satisfied that external or internal scrutiny provides sufficient assurance that the Authority's current arrangements in relation to these risk areas are adequate.

Significant VFM risks	Work performed
1. Governance Action Plan	<p data-bbox="444 619 651 648"><b>Why is this a risk?</b></p> <p data-bbox="444 665 1350 893">In December 2016, the Authority's internal auditors, PwC, issued a report on the Authority's Risk Management Policy and framework and to advise the Council on best practice. This was in response to the loss of £10.22 million in relation to the loan to Northampton Town Football Club (NTFC). In response to the PwC report, the Authority developed a Governance Action Plan in December 2016. This plan is a fundamental document for the Authority which contains all 11 recommendations made within PwC's report. There is a risk that issues and recommendations raised within the report are not addressed by the Authority.</p> <p data-bbox="444 911 696 940"><b>Summary of our work</b></p> <p data-bbox="444 957 1350 1040">We obtained the Authority's Governance Action Plan and reviewed reported progress against this Plan. We have documented how the Authority measures and evaluates performance against each action, and assess this against supporting documentation.</p> <p data-bbox="444 1058 1350 1172">The action plan is taken to each Audit Committee to update progress in implementation. As of 31 August 2017, the Authority recorded that 22 actions had been implemented (46%), whilst 21 had been partially implemented (44%) and a further 4 (8%) not implemented, and 1 (2%) to be confirmed.</p> <p data-bbox="444 1191 1350 1274">Of those that are partially implemented, the Authority assigns a % complete status, which ranges from 15% to 90%, as well as a RAG on-track status. An example of measures included within the action plan but not yet fully implemented include:</p> <ul data-bbox="444 1292 1350 1632" style="list-style-type: none"> <li>— Monitoring of Cabinet decisions, implementation and compliance, included delegated decisions. To include regular reporting to the leader and audit committee;</li> <li>— Post-implementation review of the operation and effectiveness of the Executive Programme Board since its establishment in late 2016;</li> <li>— Identify and log all projects currently live and in the pipeline. Perform reviews of each project for feasibility and governance assurance;</li> <li>— Risk reporting to be reviewed ensuring that there is an effective cascade and tracking of risk through governance arrangements;</li> <li>— Develop and Implement enhanced Corporate project and Programme Management Framework and arrangements; and</li> <li>— Establish a due diligence and compliance manual.</li> </ul> <p data-bbox="444 1651 1350 1935">Whilst we recognise that many of these actions have not yet passed their due date, in reviewing the arrangements in place during the 2016/17 financial year, it is clear that during this period there was an insufficiently systematic, robust, and objective governance process, and framework in place at the Authority. As the governance plan was only established in December 2016, it is clear that the actions can not have been suitably embedded during the 2016/17 financial year, and we are therefore unable to state that Northampton Borough Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. As a result we will issue an adverse value for money opinion.</p>

Significant VFM risks	Work performed
2. NTFC loan and the wider loans system	<p data-bbox="445 364 651 389"><b>Why is this a risk?</b></p> <p data-bbox="445 410 1350 551">In 2015/16, we issued an adverse conclusion on the Authority's arrangements to secure value for money. We were not satisfied that external or internal scrutiny provides sufficient assurance that the Authority's current arrangements in relation to loans is adequate. Subsequent to the loss of £10.22 million, the Authority has approved up to £950,000 to be spent on recovering the lost monies.</p> <p data-bbox="445 571 696 596"><b>Summary of our work</b></p> <p data-bbox="445 617 1350 810">The Authority advanced a loan of £10.25 million to Northampton Town Football Club (NTFC) to carry out works to improve stadium facilities and develop a hotel. The loans were due to be repaid through the provision of a first return to the Authority on the development of land adjacent to the stadium combined with some land previously leased to NTFC, and then through enhanced revenue streams available to NTFC through the hotel and stadium development. The loan made to NTFC and the financial management concerns around it have been widely publicised.</p> <p data-bbox="445 830 1350 940">Whilst our review into the circumstances surrounding the loan as well as subsequent actions undertaken is not yet complete, we have considered the information and findings so far as part of our VFM conclusion. We are unable to comment further on the findings of this specific review until complete.</p> <p data-bbox="445 961 1350 1044">During the year, PwC issued their internal audit report into the loan in December 2016. A number of issues were raised and recommendations produced as a result. Internal Audit stated:</p> <p data-bbox="445 1065 1350 1292"><i>Cabinet approved a loan of up to £12m, but this decision was based on limited information as a business case was not made available. A number of conditions were made by Cabinet and we have been unable to confirm that these were complied with fully, addressing all concerns. For these reasons, we have been unable to confirm that decisions taken were in line with the delegated authority...the information reviewed demonstrates that there was a lack of formal processes implemented and adhered to regarding risk management, project management, management information and performance management.</i></p> <p data-bbox="445 1313 1350 1452"><i>We attempted to reconstruct the thought process for the decision made and for subsequent monitoring. Our view is that the Council failed to demonstrate this in its data room. This was made extremely difficult because of a lack of an approved business case, appropriate independent advice and documented risk management and governance processes.</i></p> <p data-bbox="445 1473 1350 1556"><i>It is apparent that the overriding focus on the Sixfields redevelopment was on the operational aspects and subsequent governance arrangements failed to identify and address adequately the loan agreement.</i></p> <p data-bbox="445 1576 1350 1659">We have taken into account our findings from the 2015/16 and 2016/17 audits, our on-going investigation into the circumstances surrounding the loan agreement, and the internal audit report referenced above.</p> <p data-bbox="445 1680 1350 1839">Our findings indicate that there is an insufficiently systematic, robust, and objective due diligence process, and framework within which decisions can be made or documented. We are therefore unable to state that Northampton Borough Council had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. As a result we will issue an adverse value for money opinion.</p>

Significant VFM risks	Work performed
<b>3. Procurement</b>	<p data-bbox="445 364 651 389"><b>Why is this a risk?</b></p> <p data-bbox="445 410 1346 665">We identified management override of controls as a significant audit risk (see page 8). Linked to this risk is the resulting impact on the Authority’s procurement process. Non-pay expenditure was approximately £11.5 million (37% of total cost of services expenditure) in 2015/16. Discussions with NBC’s internal auditors (PwC and LGSS Internal Audit) have highlighted that this is an area which has not been assessed in the last few years, which gives rise to a significant VFM risk. This is also linked to our prior year recommendations (see our ISA 260 reports in 2014/15 and 2015/16) where we recommended that the internal audit of key operational areas should be better co-ordinated between NBC’s two internal audit providers.</p> <p data-bbox="445 685 696 710"><b>Summary of our work</b></p> <p data-bbox="445 731 1315 783">As part of our work we gained an understanding of controls over procurement and look at how contracts are monitored throughout the year.</p> <p data-bbox="445 803 1315 886">During the year a new version of contract procedure rules were drafted but at the time of our review this was still awaiting authorisation from the Borough secretary prior to full Council approval.</p> <p data-bbox="445 907 1339 990">The Authority awarded four new contracts during the 2016/17 financial year and we reviewed how these had been procured and been awarded against the procurement policy and best practice guide. We found no issues to report back.</p> <p data-bbox="445 1011 1346 1232">As noted elsewhere in this report, during the course of the audit we received information relating to the governance of a major capital works project. We are currently conducting a separate review into this issue, as well as wider matters of overall governance, procurement and contract management at the Authority. We are liaising with the Authority to obtain all necessary evidence and information to support this work and once completed will report back to the Audit Committee the findings of our work, including recommendations arising from any weaknesses we identify in the design or operation of the appropriate governance and financial control frameworks.</p>

**Significant VFM risks****Work performed****4. Financial resilience in the local and national economy****Why is this a risk?**

There has been a significant shift in the national outlook over the last 12 months, primarily driven by the outcome of the referendum on 23 June 2016 on the UK's membership of the European Union. Consequently GDP growth forecasts have been revised downwards, which potentially reduces the level of any growth in business rates income. Inflationary pressures, service pressures, and a reduction in the local government finance settlement will impact on the Authority's finances.

In December 2016, the Authority published a draft Medium Term Financial Plan 2017/18 – 2021/22 (which incorporates its Efficiency Plan published on September 2016) that sets out a balanced budget for 2017/18.

From 2018/19, the Authority has identified funding gaps; however it is confident that the targets in the Efficiency Plan are sufficient to bridge the forecast gap in the MTFP and are monitored by the management board. The Authority's proposed new governance arrangements include a specific officer board focussed on the delivery of the Efficiency Plan and associated improvement projects.

**Summary of our work**

Like most of local government, Northampton Borough Council faces a challenging future driven by funding reductions and an increase in demand for services. At a local level, this is compounded by the County Council's financial difficulties.

During 2016/17, the Authority set a General Fund Budget for controllable service budgets of £31.3 million. This consisted of a mixture of income generation and efficiency savings. The actual outturn reported was £29.9 million, a £1.4 million variance, mainly attributable to underspends relating to the Director of Customers and Communities (£1.3 million) and debt financing savings of £456k, which mitigated overspends in other areas such as a £543k adverse variance to plan in Housing and Wellbeing relating to additional costs of Homeless Prevention schemes, Refuge funding, higher Temporary Accommodation costs and a reduction in Licensing Income.

The Authority decided to use the underspend to mitigate risk and invest in future service improvements, with £1.048 million being used as contribution to the MTFP cash flow reserve, £181k towards the project budget carry forwards, and £124k for improved governance and the Greyfriars Redevelopment. As a result there was a £30k contribution to the General Fund.

Furthermore, the Housing Revenue Account had a budget of £7.5 million during the year, but reported an underspend of £366k due to a mixture of factors including lower interest and financing costs and bad debt provision not being required.

The Authority's capital budget for 2016/17 was £19 million, an increase of £5.8 million from the original budget of £13.2 million. Of this, capital outturn reported spend of £12.4 million, an underspend of £6.6 million, mainly relating to the timing of the commencement of various schemes which will continue into 2017/18, and fall within the Regeneration, Enterprise and Planning. Of the total spend, the Authority used borrowing of £4.7 million to fund capital works, with the rest being met by capital receipts, grants, and third party and revenue contributions. The use of borrowing in year helped mitigate the non-realisation of £5 million of budgeted capital receipts. These are now expected in 2017/18.

**Significant VFM risks**

**Work performed**

**4. Financial resilience in the local and national economy**  
*(continued)*

During the financial year the Authority has also utilised a total of £12.8 million in reserves. Of this £5.7 million was utilised from the General Fund, although £8.2 million of new reserves resulted in a net increase of £2.5 million. Of this, £1.2 million related to increases in the Future Pressures Reserve and £2 million relating to Rates Retention Deficit Funding. The Authority utilised £7.1 million from the HRA Reserve, resulting in an overall HRA reserves decrease from £18.2 million to £11.1 million.

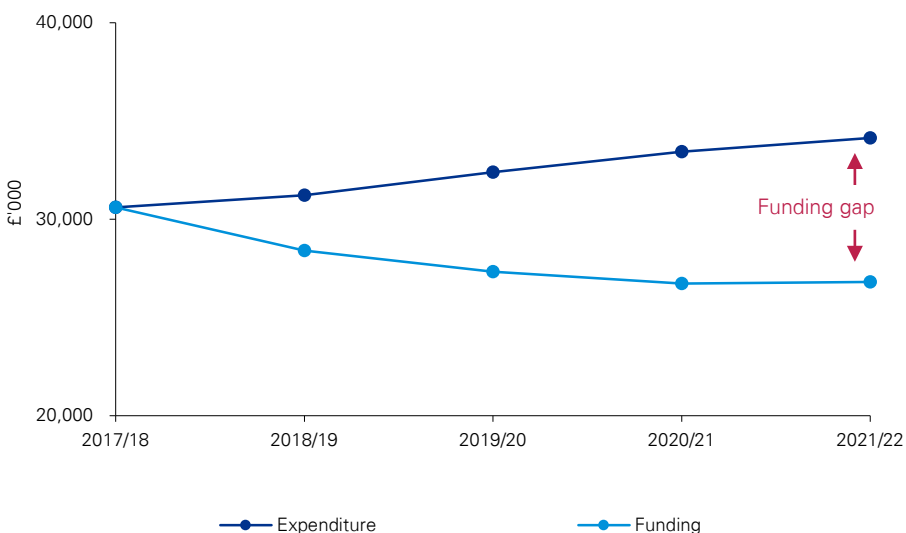

For 2017/18, the Authority set a net budget of £29.1 million, which includes the requirement to achieve £2.8 million of savings during the financial year, being a mixture of additional income generation (£683k) and reduced expenditure from general efficiencies (£1.6 million), economic growth (£172k) and other technical savings including debt financing (£282k).

Over the subsequent years, the Authority has set an overall net budget requirement which increases from £29.1 million in 2017/18 to £32.5 million in 2021/22. Within this the service base budget increases negligibly from £28.52 million in 2017/18 to £28.55 million in 2021/22 (0.1%), with the majority of the increase stemming from budgeted contributions to reserves moving from £649k to £3.4 million in the same period.

The result of the budgeted contribution to reserves is a perceived funding gap commencing in 2018/19 of £3.9 million, arising to £5.4 million in 2021/22, a total of £16.1 million during the period. Taking into account the £13.4 million allocated to building up reserves in the same period, the net funding gap would otherwise be £2.7 million.

Feeding into the budget, the Authority has assumed a decrease in Revenue Support Grant from Central Government from £1.8 million next financial year to zero funding from 2019/20 onwards. Additionally funding from the New Homes Bonus reduces from £4.2 million in 2017/18 to £2.1 million by 2021/22.

*Chart 4: The Authority's MTFP*

Significant VFM risks	Work performed
<b>4. Financial resilience in the local and national economy</b> <i>(continued)</i>	<p>However, it is worth noting that the Authority has budgeted based on the assumption that funding from the Business Rates Retention Scheme will continue to increase during the period, from £7.6 million to £8.1 million by the end of the Medium Term Financial Plan. There is a risk attached to this due to the uncertainty provided by Central Government as to how this scheme will operate going forward and the Authority needs to ensure that budgeted assumptions are based on the latest information available to them and updated accordingly as the future of the Scheme is debated.</p> <p>The financial pressure on the Authority is therefore likely to increase over the coming years and it is imperative that work continues to identify savings well in advance of the most difficult periods within the Medium Term Financial Plan, most especially savings which may require initial investment and a longer lead time to realise their benefits. The Authority has a positive track record of delivering savings, but this will only get more difficult. The Medium Term Financial Plan only detailed savings predicted up until 2020/21, and over this period a total of £7.5 million have been included in the budgets, although the Authority has set far higher targets of £21.9 million. This leaves unidentified savings of £14.4 million from 2018/19 onwards.</p> <p>Furthermore, difficult decisions will need to be made in respect of other sources of funding such as Council Tax, as more Authorities begin to increase this in order to mitigate the financial pressures felt elsewhere and maintain the desired level of services to the public. Careful financial planning is required, and the Authority should also ensure that the assumptions it feeds into its Medium Term Financial Strategy (such as demographics, service demand etc.) are regularly refreshed to provide an up-to-date and reliable indicator of future pressure points.</p> <p>We have reviewed the arrangements the Authority has in place to manage and deliver financial resilience during the 2016/17 financial year. Our work has included a critical assessment of the Authority's Medium Term Financial Plan and a review to ensure that budgeting is sufficiently robust to ensure the Authority can continue to provide services effectively. We continued to meet regularly with the S151 Officer to and key staff to understand the Authority's financial position and assessed the adequacy of its arrangements to ensure it has taken properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people.</p>

# Appendices

# Key issues and recommendations

Our audit work on the Authority’s 2016/17 financial statements have identified a number of issues. We have listed these issues in this appendix together with our recommendations which we have shared with Management. Management are currently considering their response to these recommendations.

The Authority should closely monitor progress in addressing the risks, including the implementation of our recommendations. We will formally follow up these recommendations next year.

Each issue and recommendation have been given a priority rating, which is explained below.

- 

Issues that are fundamental and material to your system of internal control. We believe that these issues might mean that you do not meet a system objective or reduce (mitigate) a risk.
- 

Issues that have an important effect on internal controls but do not need immediate action. You may still meet a system objective in full or in part or reduce (mitigate) a risk adequately but the weakness remains in the system.
- 

Issues that would, if corrected, improve internal control in general but are not vital to the overall system. These are generally issues of good practice that we feel would benefit if introduced.

The following is a summary of the issues and recommendations raised in the year 2016/17.

2016/17 recommendations summary			
Priority	Number raised in our interim report	Number raised from our year-end audit	Total raised for 2016/17
High	1	5	6
Medium	–	3	3
Low	–	1	1
<b>Total</b>	<b>1</b>	<b>9</b>	<b>10</b>

High  
priority

### 1. Review of bank reconciliations

We reviewed the Authority's year-end bank reconciliation. There are unreconciled balances that the Authority has been unable to address. Some of these balances were over a month old.

A number of the unreconciled items within the Authority's Benefits bank account relate to direct debit payments set up by third parties using the Authority's bank details. The Authority provides its Benefits bank details on payment forms to allow individuals to deposit payments directly into the Authority's bank account. The Authority's banker had honoured those direct debits. These were reimbursed by the bank subsequent to queries by Officers.

We also identified that a number of unreconciled items were incorrectly dated, for example, an item which appeared to be a reconciling item from January 2016 was in fact a reconciling item from November 2016. Officers have stated that the system records an incorrect date when the reconciling item appears between the first and twelfth day of each month.

Based on the issues identified above, we were unable to place reliance on the Authority's bank reconciliations.

#### Recommendation

The Authority should issue instructions to its banker not to honour direct debit payments out of its Benefits bank account.

The Authority should investigate and resolve all outstanding unreconciled items within the month in which it occurs. The Authority should also establish a system of reconciliation which supports monthly reconciliations on a timely basis and provides the correct date for each item.

## 2. Valuation of Property, Plant and Equipment (PPE), including Council Dwellings

We continue to face significant difficulty in our work on the Authority's PPE. In the prior year, we raised a recommendation on the valuation of Council Dwellings. Our work this year has found issues more broadly in relation to PPE.

In the current year, the Authority has used three separate valuers for the valuation of its PPE (including Council Dwellings) and investment properties:

- Land and buildings: internal valuers and Underwoods. Underwoods were engaged by the Authority due to capacity constraints within the Estates team.
- Council Dwellings: Underwoods, and subsequently Bruton Knowles
- Investment properties: Underwoods

### Formal instructions to external valuers

We identified that no formal valuation instructions were sent to the external valuers, Underwoods and Bruton Knowles.

Summary of external valuation		
Type of asset	Valuer	Assessment of instructions
<ul style="list-style-type: none"> <li>— Land and buildings (non-HRA)</li> <li>— Investment properties</li> </ul>	Underwoods, date instructed not available	<p>No formal written records of instructions were sent to Underwoods. As a result, we were not able to confirm that Underwoods had complied with the valuation request, which would have included a list of assets to be valued. We had to undertake additional work to reconcile the list of assets reviewed against the valuer's output.</p> <p>We were also not able to confirm that the Authority has instructed its external valuer in line with the requirements of the Code and other applicable valuation and accounting standards. We engaged our KPMG specialist to perform additional substantive work to provide assurance that the valuations were in line with applicable standards.</p>
<ul style="list-style-type: none"> <li>— Council Dwellings</li> </ul>	<p>Underwoods, instructed February 2017</p> <p>Bruton Knowles, instructed April 2017</p>	Two in-year valuation exercises were requested: the first by Underwoods in February 2017, and the second by Bruton Knowles in April 2017. For the April valuation exercise, the Authority asked its valuer to utilise "alternative beacons where necessary", without considering the impact of this request. As a result, we were unable to initially agree inputs in relation to Council Dwellings. Further work was required to provide us with this assurance.

### Valuation reports

The Authority did not request a full valuation report from Underwoods. This is not in line with Code requirements. In response to our inquiries, a second valuation was undertaken for Council Dwellings in April 2017 by Bruton Knowles, for which we have received a valuation report on 23 June 2017.

We received the valuation report for 'other land and buildings' and investment properties on 4 August 2017 which was undertaken by Underwoods. The late receipts of these reports delayed our assessment of the valuation results.

## 2. Valuation of Property, Plant and Equipment (PPE), including Council Dwellings *(continued)*

### *Valuation review and challenge*

For Council Dwellings, we noted that there was an initial review by the Authority on the results of the valuation exercise undertaken by Underwoods. This review by the Authority was undertaken with incomplete information as no valuation report was prepared by the valuer. This had not been requested by the Authority.

Bruton Knowles subsequently took on the valuation review of Council Dwellings and provided both the valuation results and a valuation report. The Authority had performed a review of the valuation results. However we note that:

- the Authority was not aware that the valuer had used the social housing discount factor (EUV-SH) for the South East instead of East Midlands. This is evident during our initial discussions with the Authority.
- the Authority was also not aware that the social housing discount factor had changed. This is evidenced by the initial draft of the accounts, where the old EUV-SH of 34% was stated (see table on page 8 for further details);
- the Authority had not considered the impact of instructing the valuer to use “alternative beacons where necessary”; and
- the valuation was performed on a desktop basis. We understand that this was requested verbally by the Authority, and this methodology was chosen due to time pressure. This methodology is a departure from Code requirements and the Authority’s accounting policies. This departure was not disclosed within the Authority’s accounts, nor assessed for compliance with Code requirements. Upon our initial feedback to the Authority on this matter, Officers made the decision to ask for a full valuation exercise. This was carried out on 16 September 2017 on the same 20% of beacons. We are still evaluating the results of this new exercise.

For ‘other land and buildings’, our valuation specialist was unable to obtain assurance over key inputs used for the valuation process due to the high turnover within the Estates team. Work on this is still ongoing.

### *Overall assessment*

We note that there is no overall strategic ownership and compliance review by an appropriately-experienced individual at the Authority. The valuation process in the current year appears to be on an *ad hoc* basis, with no written process notes or standard valuation procedure. This is particularly important given the high turnover within the Estates team during the past two years. We note that there has been limited consideration of how the valuation exercise aligns with requirements of the Code or audit requirements, in particular:

- the requirement for a valuer’s report;
- the formalisation of valuer’s instructions, including a list of assets to be valued;
- consideration of an audit trail in relation to assets to be valued;
- an assessment of the impact of ‘alternative’ beacons, where identified;
- the requirement for a full valuation instead of a desktop valuation for assets valued within the 5-year cycle;
- an assessment of the valuer’s assumptions, in particular the justification for a social housing discount factor outside of the DCLG’s guidance; and

## 2. Valuation of Property, Plant and Equipment (PPE), including Council Dwellings *(continued)*

— the timeframe and output to allow early review and assessment in light of the early closedown period in 2017/18.

The reactive nature of this year's valuation process has resulted in delays and non-compliance with Code requirements.

Further work on the Authority's PPE (including Council Dwellings) is ongoing and has been delayed due to the issues identified above.

### Recommendation

The Authority should formulate a formal policy and process for valuation, including establishing an overall strategy and position responsible for oversight over the valuation process. The individual(s) responsible should be suitably-qualified or experienced. They should be able to assess compliance of the valuation process and results against Code requirements as well as other applicable valuation and accounting requirements. This includes awareness of valuation requirements that are specific to the local government sector, for example, the DCLG's *Stock Valuation for Resource Accounting (SVRA)*.

The valuation process should align to the Authority's closedown timetable, including a consideration of deliverables ahead of the year-end period. The process should be co-ordinated across the various valuers used (whether internal or external). The individual(s) responsible should oversee the transaction of valuation outputs into the Authority's fixed asset register, and subsequently oversee the production of good-quality working papers which contain clear audit trails (see recommendation 3 for further commentary on working papers).

Written instructions should always be issued to the Authority's valuers, whether internal or external. The instructions should require the valuers to comply with the Code and other requirements, specifically, the *Red Book (RICS Valuation – Professional Standards UK January 2014, revised April 2015)* for all valuations prior to 1 July 2017, and the *RICS Valuation – Global Standards July 2017* for all valuations going forwards. Valuation instructions should be agreed in advance with the valuer, with any departure from standard practice and requirements highlighted in both the instructions and the valuation report. The instructions should also reflect any variations agreed verbally between the Authority and the valuers.

There should be a clear record of all assets, including the date of last valuation and the valuer responsible. Instructions sent to the valuer should be accompanied by a list of assets due to be valued in a particular year; this list should be readily reconcilable to the Authority's master records.

The process should also include a formal review of valuation results, including any assumptions made by the valuer. The valuer should be instructed to present key valuation considerations and supporting evidence to enhance credibility and transparency to the values reported. Where necessary, the results and/or assumptions should be challenged, including the use of any alternative social housing discount factor. This challenge should be recorded and an audit trail maintained to ensure availability of records.

The Authority should require a valuation report to be produced to accompany the numerical valuation outputs, in line with the *Red Book (RICS Valuation – Professional Standards UK January 2014, revised April 2015)* for all valuations prior to 1 July 2017, and the *RICS Valuation – Global Standards July 2017* for all valuations going forwards. Special consideration needs to be given to valuation of Council Dwellings and the reporting requirements contained within the DCLG's *SVRA*.

Clear rationale over inputs and records (for example, comparable market data) should be recorded by the Authority's internal valuers, given the high turnover within the Estates team. This will help mitigate the difficulty experienced in the current year over obtaining assurance over the valuation inputs.

### 3. Preparation and review of audit working papers

We stated in our *External Audit 2016/17 Interim Report* dated April 2017 that the Authority had implemented our recommendation in relation to the preparation and review of audit working papers. Whilst we acknowledge that the Authority has made efforts to improve working papers (including the use of KPMG Central), we subsequently identified significant issues during our final audit in July 2017.

The audit team undertook an audit debrief and workshop in October 2016 to analyse key issues which we found with the prior year's working papers. We also worked with the Authority in the preparation of our draft *Accounts Audit Protocol* (PBC requirements) in December 2016, and based on our discussions with Officers, issued the final PBC requirements in January 2017. We followed this up with a meeting with the Closedown team to discuss specific requirements of the document request list in March 2016. We have also offered further support and opportunities to discuss specific requirements of audit requests.

Nonetheless we found quality issues on the Authority's working papers, which are similar to the issues which we identified last year. These are:

- Many working papers were not checked against the requirements listed in the *Accounts Audit Protocol*. Despite being signed off, we found gaps in the provision of information; and
- Breakdowns provided within working papers did not tie to the draft accounts. This demonstrates a lack of audit trail, which adds to the difficulty in understanding the Authority's working papers.

Key audit areas of concern are:

- Fixed assets: The Authority had not provided key outputs from valuers ahead of the audit as previously agreed. We did not receive any working papers on valuation which led to difficulty in agreeing valuers' reports to the accounts. In addition, Authority had significant difficulty and delayed providing us with a breakdown of additions and disposals of Council Dwelling components. We also had difficulty in understanding the Authority's workings in relation to componentisation;
- Payroll: There was no audit trail and we had to spend a significant amount of time with Officers to understand the working papers; and
- Debtors and creditors: Not all breakdowns were provided; this did not meet our PBC requirements which had been agreed with Officers. In addition, where breakdowns were provided, these did not always agree to the accounts or to the Authority's general ledger.

We note that some of the working papers with issues were prepared by individuals outside the Authority's Closedown team, but nevertheless should have been subject to senior management review prior to submission to the audit team.

There were numerous emails provided, both as part of the initial PBC but also subsequently throughout the audit (particularly in relation to PPE). We found working papers (in particular in relation to fixed assets) that consisted predominantly of embedded emails and documents. This led to significantly more work as information was dispersed within multiple emails and working papers.

#### Recommendation

All working papers should be provided by an agreed date, typically prior to the start of an on-site audit visit.

The Authority should ensure that all key closedown staff receive and review the agreed *Accounts Audit Protocol* prior to producing working papers for the audit. The review should be robust and reviewers should conduct an independent assessment of the working papers to ensure that the working papers can be understood by a third party.

### 3. Preparation and review of audit working papers *(continued)*

Where breakdowns of balances are required by the *Accounts Audit Protocol*, these should be provided. The sum of the breakdown should agree to the audited balance, per the figures in the accounts submitted for audit.

Information should be contained and set out clearly within working papers, as much as possible, without the need for the audit team to review multiple emails or embedded documents to understand the evidence. Where there is a need to support the evidence via emails, these can be referred to as supplementary documents, but these should not form the bulk of the working paper.

The overarching principle is that working papers should provide a clear and concise audit trail from the financial statements through to sufficient and appropriate evidence within supporting working papers. Working papers need to:

- be clear, with explanations if needed. The working papers need to be written from the view point of someone external to the organisation;
- be supported by strong evidence, for example, third party documentation; and
- agree to the financial statements provided for audit.

#### 4. Fundamental review of financial reporting and accounts production process

The *Accounts and Audit Regulations 2015* introduced a statutory requirement to publish the accounts with an audit opinion by 31 July. This requirement comes into effect in the financial year ending 31 March 2018. The Authority is aware of this and we have sought early engagement with the Authority this year, in line with guidance from the National Audit Office (NAO) in AGN 06.

In light of this, we have agreed a staged approach for 2016/17, with key audit areas to be reviewed during our interim audit visit beginning 6 March 2017. We reported in our *External Audit 2016/17 Interim Report* (dated April 2017) that we were not able to do this due to delays. These were primarily in relation to:

- fixed assets valuation reports; and
- the restated CIES and EFA.

During our final audit visit in July 2017, we noted not all working papers had been provided, most significantly for fixed assets. We also noted various issues with the quality and availability of audit evidence (see recommendation 3).

We understand the departure of valuers within the Estates team as well as a key member of the Closedown team contributed to the delays and issues noted.

We also noted issues in relation to the quality and completeness of the draft accounts provided for audit:

- the note to the EFA was missing; and
- the Cash Flow Statement was wrong. It contained figures which we did not recognise nor were we able to tie these back to the accounts. Upon query, we were advised that this was the result of time pressures. A version of the new Cash Flow Statement was provided for audit by the Closedown team to ensure the accounts were complete, despite being wrong. This doubled our audit work as we had to audit the statement twice.

Significant audit work is still ongoing as at the time of writing (one week before the statutory deadline of 30 September 2017). Key audit areas have yet to be finalised, in particular, fixed assets. The audit work this year has been beyond the initial three-week final audit period in July 2017, which was planned, agreed, and budgeted with the Authority. The delays will have a significant impact on the final audit fee. This is additional to the extra work required for it being a “high risk” audit.

Given the issues we have seen, both in the production of the accounts and the provision of audit working papers, we are not confident that the Authority will be able to meet the earlier statutory deadlines in 2017/18 without significant changes to the current manner by which it produces its draft accounts, including changes to ensure that it produces good-quality working papers to support the accounts.

#### Recommendation

There should be a strategic and fundamental re-evaluation of the Authority’s approach to the production of its financial statements and audit working papers. The Authority should aim to be in a position where key financial transactions such as additions, disposals, accruals, recharges, etc., are posted to the ledger on a regular basis. The Authority has put in place a new Closedown Team in 2016/17 to improve its accounts production and audit performance; this has not proven to be as effective as both sides had planned for.

In line with best practice which we have seen elsewhere in the public and the private sector, the Authority should aim achieve financial closedown at the end of every month. The Authority currently achieves closedown once a year, which has the effect of accumulating financial transactions towards the financial year end. This places immense pressure on the Authority’s Finance team and Closedown team to meet year-end deadlines. The Closedown team is effectively being asked to compress a year’s worth of financial transactions and analysis into a

**4. Fundamental review of financial reporting and accounts production process** *(continued)*

relatively short period of time.

The achievement of an earlier closedown in 2017/18 cannot be achieved by maintaining *status quo*. Initially, the Authority should aim to implement quarterly financial closedowns as an interim measure until monthly closedowns can feasibly be achieved. This will involve the wider finance team and a change in current processes. Budget holders and other key contributors (such as valuers) will also need to be part of this joint effort; this will be a significant change in the wider corporate culture.

## 5. Componentisation of Council Dwellings

The Authority changed the way it accounted for the components of Council Dwellings in the third quarter of 2015/16. The Authority had grouped individual components by type into one “global” component type, for example, kitchens, bathrooms, etc. We highlighted in our *External Audit Report 2015/16* that this was a change that introduced a new element of estimation which was not disclosed within the Authority’s accounting policies. We note that this policy has also not been disclosed in this year’s financial statements.

### *Calculation of the estimate*

The Authority now estimates the amount of component disposals as a percentage of component additions. This percentage is based on historical data.

For example, if the Authority knows that on average it replaces a kitchen that was worth £2,000 with a new kitchen that is worth £10,000, the percentage calculated is 20%. Thus for every £10 it spends on kitchens, it derecognises £2.

### *Rationale for change*

The Authority stated in 2015/16 that this change was designed to reduce the amount of manual inputs into the fixed asset register. The Authority was able to demonstrate that in 2015/16, the difference between the old and the new methodology was not material, however it anticipated this figure to be larger in 2016/17. We agreed with key Officers that for 2016/17, the Authority will need to demonstrate that the difference between the old and new methodology would not be material. However the Authority did not produce this analysis in the current year due to departure of a key member of the Closedown team.

### *Estimates, uncertainty, and complexity*

This new methodology is an accounting estimate which introduces a particular margin of error. It is a move away from the purpose of componentisation, which was first introduced in IAS 16 and adopted by the Code in 2010/11 in order to further refine asset values, that is *to further refine an existing estimate*. The Code states that estimates can be a faithful representation if the amount is described clearly and accurately as being an estimate, the nature and limitations of the estimating process are explained, and no errors have been made in selecting and applying an appropriate process for developing the estimate. This has not been the case as no such disclosure exists.

The Code further states that ‘as a result of the uncertainties inherent in delivering services, conducting trading or other activities, many items in financial statements cannot be measured with precision but can only be estimated’. We note that the use of this new estimate is not the result of inherent uncertainties, but a move to reduce processing of asset values.

Whilst the original methodology does to a certain extent involve estimates (for example, useful life of a component and the overall valuation of a building), these are established estimates and the estimation process of these values is governed by professional standards and carried out by qualified individuals. The new methodology introduces further uncertainties and decreases precision of the components’ valuations. This new accounting estimate has ultimately increased uncertainty, adds complexity to the process, and significantly increases audit work.

### *Audit impact*

We faced difficulty in understanding the Authority’s working papers in relation to estimates. Conversely, the Authority had difficulty in providing the audit team with a breakdown of component additions and disposals in year and caused additional work in obtaining necessary audit evidence. As at the time of writing, we have further outstanding queries in relation to the derecognition of components in quarter 4. In line with accounting requirements, we have asked the Authority to prove that this new estimate is based on the latest available, reliable information.

We note that there was an audit difference in the prior year resulting from the application of this new componentisation estimate, which was not adjusted.

## 5. Componentisation of Council Dwellings *(continued)*

### *Overall assessment*

Whilst we understand the rationale driving this change in the accounting for components of Council Dwellings, the Authority has faced difficulty in justifying the reduction of precision on the basis of materiality. The calculation is complex and has caused delays to what should have been a straightforward area of audit. The amalgamation of components has removed the audit trail as the Authority is unable to easily reconcile the disposal of a particular component to the breakdown of its component disposals.

### **Recommendation**

The Authority should account for its Council Dwellings components in line with IAS 16 and Code requirements going forwards. This will increase precision and provides a clear audit trail. It will also remove complexity from the process. The Authority should consider alternative methods in reducing the manual processing of asset values, for example, the use of automated scripts within its fixed asset register system.

However, should the Authority choose to continue using its new methodology of accounting for components of Council Dwellings, the Authority will need to be able to provide evidence that the estimates used are based on the latest available, reliable information. The Authority should disclose this change within its accounting policies, as well as explain the nature and limitations of the estimating process. In order to ensure that its estimates are current and based on the latest available, reliable information, the Authority will need to perform an annual assessment of this estimate. There should also be special consideration of the audit trail of additions and disposals, and the ease of which these can be evidenced to external auditors.

**6. General IT controls – Passwords**

We tested the Authority’s general IT control environment this year and key IT applications, which are Agresso, Academy, Northgate, and RAM.

We noted that the Authority has documented a password policy as part of its information security policies:

- Use passwords with a minimum length of 8 characters.
- Change passwords at regular intervals of no more than 60 days, or as the application requires.
- Last 20 passwords remembered
- Complexity should be enabled

Our testing found that the password complexity option has not been enabled on Agresso and Academy. We also found that the minimum password length has not been enforced on RAM.

**Recommendation**

The Authority should enforce the password policy across all of the IT applications used by the Authority.

Medium  
priority

## 8. Payroll Reconciliations

The payroll function was transferred from LGSS to the Authority in January 2017. We were not able to review payroll reconciliations performed by LGSS from Period 1 to Period 9 as records were lost during this move.

For Periods 10 to 12, we were able to review the payroll reconciliation performed by the Payroll Manager. We understand that this reconciliation was meant to be reviewed by a member of the Finance team; however we were unable to verify this as no evidence has been retained. We were unable to state that there has been appropriate review and segregation of duty as part of the payroll reconciliation. There is a risk that this exposes the Authority to fraud and/or error.

We understand that the Payroll Manager is updating the payroll processes at the moment, and anticipates formalising this review process.

### Recommendation

The review process should be formally documented. This allows the Authority to demonstrate review and reduces the risk of fraud and/or error. Where there are system changes, records of key controls will need to be retained for audit purposes going forwards.

Low  
priority

## 9. Review of actuarial assumptions

The Authority is a member of the Northamptonshire Pension Fund (LGPS) which is required to undergo a full valuation every three years. As part of the full valuation process in 2016/17, the Authority is required to submit information about its members, as well as review and challenge the actuarial assumptions. These are both financial and non-financial assumptions.

The Authority's actuary has stated in its February 2017 briefing note:

*"We therefore strongly recommend that you consider the suitability of the default assumptions to your specific organisation".*

Assumptions used will impact the balance sheet and the following year's CIES.

The Authority was initially unable to demonstrate a review of the assumptions or demonstrate the acceptance of the default actuarial assumptions used as part of the valuation process. Upon our feedback, the Authority subsequently produced emails which demonstrate review of actuarial assumptions.

### Recommendation

The Authority should formally evidence the review of all assumptions used by the Actuary to ensure relevance to the organisation. Where appropriate, the Authority should challenge these assumptions.

#### Management response

[Accepted/Not accepted]

[TBC]

#### Owner

[TBC]

#### Deadline

[TBC]

The following is a recommendation which we have raised in our *External Audit 2016/17 Interim Report*. We have included this here for completeness. We have provided an update on this as at September 2017.

High  
priority

#### 10. Team resilience and use of interim staff

The Authority has a number of interim staff in key positions within its Estates and Integrated Closedown teams. The departure of the Interim Asset manager and a number of interim valuers has resulted in delays to the valuation process for Council dwellings. There are now no qualified valuers remaining in the Estates team. The knock-on effect has caused us to modify our audit approach to accommodate the Authority's new schedule.

A member of the Integrated Closedown team has also departed in year however the Authority has since recruited an interim replacement for the member of the Integrated Closedown team. Nonetheless, this is a real risk that corporate knowledge is lost upon the departure of interim staff and these potentially impact the valuation and accounts production process.

The use of interim staff has been a focus of the Audit Committee.

#### Update as at September 2017

We acknowledge that the Authority has been providing regular updates to the Audit Committee and plans are in place to address the use of interim staff. We also recognise that these are long-term plans but the use of interim staff has impacted the audit process for the year 2016/17.

Due to the departure of valuers within the Estates team, the Authority has had to engage two external valuers to carry out valuations on the Authority's property portfolio, and we noted that there had been no strategic oversight over this process. We also note that previously-agreed approaches to fixed assets had not been carried forward into this year's audit due to the departure of a key member of staff. Working papers provided for fixed assets were rolled-forward from the prior year, which we previously reported were inadequate and lacked audit trails. We have reported issues in relation to this, see pages 6 – 12 and recommendations 2, 3 and 5. These issues have caused significant delays to the audit process.

As such, our recommendation from the interim report remains open.

#### Recommendation

The Authority should appoint permanent members of staff as a matter of urgency.

# Follow-up of prior year recommendations

In the previous year, we raised ten recommendations which we reported in our *External Audit Report 2015/16 (ISA 260)*. The Authority has not implemented all of the recommendations. We reiterate the importance of the outstanding recommendations and recommend that these are implemented by the Authority.

One recommendation was first raised in 2014/15.

Two recommendations were deemed to have been implemented in our *External Audit 2016/17 Interim Report*, dated April 2017. This appendix summarises outstanding recommendations in that report.

We have used the same rating system as explained in Appendix 1.

Each recommendation is assessed during our 2016/17 work, and we have obtained the recommendation's status to date. We have also obtained Management's assessment of each outstanding recommendation.

Below is a summary of the prior year's recommendations (all recommendations raised in 2015/16).

## 2015/16 recommendations status summary

Priority	Number raised	Number implemented	Number outstanding/superseded
High	2	-	2
Medium	5	3	2
Low	3	2	1
<b>Total</b>	<b>10</b>	<b>5</b>	<b>5</b>

High  
priority

### 1. Controls and processes for issuing loans

There is no systematic formalised system of recording or documenting the due diligence process or results arising from the loan approval process. This includes the assessment of business cases, evidence to support key decisions made, any challenge put forward by the Authority to the loan applicant, and the Authority's internal review and approval process. The Authority had significant difficulty in obtaining the evidence required to substantiate this decision-making process. Our assessment of two loans is still ongoing due to the delayed provision of key documentation first requested in February 2016.

There is evidence that the due diligence process is not sufficiently formal nor are there a consistent set of requirements. This includes the lack of assessments regarding historic trading performance, cash flow, working capital requirements, sensitivity analysis etc. The Authority's Treasury Management Strategy, states that "*The Council will use specialist advisors to complete financial checks to ascertain the creditworthiness of the third party.*" We note that the use of specialist advisors by the Authority varies across loans in relation to the scope and detail of work requested and undertaken.

The accountability and decision-making process is not sufficiently robust. We note that whilst Cabinet delegates authority to the Chief Executive or other appropriate officers, this has been done prior to finalising the due diligence process.

# Follow-up of prior year recommendations

## 1. Controls and processes for issuing loans *(continued)*

### Update as at September 2017

The Authority has developed a loans checklist to address our recommendation that there should be a systematic, robust, and objective process of assessing and documenting the due diligence procedures with regards to loans. This checklist has been shared with KPMG.

However, given the fact that due the Authority has taken a decision not to issue any loans this year or for the foreseeable future, the checklist has not been used in practice. Therefore we have not been able to critically assess the effectiveness of this new loans checklist. As such, we have also not been able to assess whether this checklist addresses and mitigates the previously-identified risks when used in a real-world situation. For the same reason were also not able to assess whether appropriate decision-making and approvals took place in line with the recommendation raised.

As a result, we deem this recommendation to be partially implemented until we can confirm effectiveness of this new process in practice.

Partially implemented

### Recommendation

The Authority should put in place a systematic, robust, and objective process of assessing and documenting the due diligence procedures carried out on loan applicants. This process should be transparent and the due diligence process undertaken by qualified individuals. Any decision will need to be fully documented, including the reasoning and consideration of risks. The process should include a review by a senior officer and this should be evidenced.

Decision papers to Cabinet need to be robust and objective in order to allow informed and balanced decision-making. Decisions need to be made by Cabinet upon completion of required due diligence process. Officers will need to seek subsequent approval if terms of the loan are substantially revised.

### Management's Original Response

Management accept that improvements should be made to the process for approving loans.

It should be noted that NBC have implemented a number of improvements in more recent loans issued, in particular the £46m loan to the University of Northampton which was subject to an intense and closely scrutinised process by the Council and external bodies, including HM Treasury.

NBC will conduct a thorough governance review, in relation to project governance, risk management and due diligence. This review will consider Cabinet decision-making and clearance processes.

The review will draw on external and internal experts and will work closely with KPMG and PWC as appropriate, and the output from the review will include documented and robust processes and checklists for the approval of loans and decision-making processes. NBC using advice from KPMG have already introduced a summary checklist to ensure that all aspects of third party loans are appropriately considered and recorded prior to approval

*Completion target dates: 31 March 2017*

*Responsible officer: Chief Finance Officer, and Monitoring Officer*

### Management's updated response as at September 2017

[TBC]

High  
priority

## 2. Retrospective raising of Purchase Orders

Testing identified that purchase orders (POs) need to be raised prior to the Authority committing itself to purchasing goods/services. All purchases need to be authorised, and this authorisation is only carried out at purchasing order stage for those items that require a purchase order.

We noted that £7.7 million worth of expenditure in year was not appropriately authorised prior to placing an order with a supplier. In these cases purchase orders were raised retrospectively which potentially opens the Authority to potential fraud or impropriety and is contrary to the Authority's policy.

### Update as at September 2017

This was initially raised as part of the 2014/15 audit.

From our testing in 2016/17, there was a total of 2,419 POs raised after the invoice which had a net total of £15.6m. Communication from LGSS suggests that some of these were duplicates within the same PO and some related to homelessness whereby no PO is raised in such emergency circumstances. The Authority has stated that retrospective purchase orders were have decreased (by number) from 20% in 2015/16 to 18% in 2016/17. We are still waiting for supporting evidence to evidence the Authority's calculations and the monetary value of this 18%.

Nonetheless, the use of retrospective orders is not in line with the Authority's policies. There is a risk that these 18% were not initially authorised, and the Authority made a financial commitment without undergoing the required approval process.

Partially implemented

### Recommendation

The Authority should ensure that purchase orders should be raised for the purchasing of goods and services through the purchase order process (where appropriate), prior to the Authority committing itself to the purchase.

Reports should be run on a regular basis to identify all non compliance and take appropriate follow up action.

### Management's updated response as at September 2017

[TBC]

Medium  
priority

### 3. Revaluation of Council Dwellings

The Authority revalues approximately 20% of its council dwellings annually, using the beacon methodology. This is where similar council dwellings are grouped with one dwelling chosen to represent each group (the 'beacon'). The remaining 80% of beacons are uplifted using the average movement of the 20%. The *Stock Valuation for Resource Accounting* guidance suggests that where a rolling valuation is performed, the Authority should undertake a desk top review of the remainder, informed by the results of the revaluation, market research and comparing prices of similar transactions in year.

The Authority was unable to provide evidence of the year-end valuation methodology until after our on-site visit had been completed (22 days working days after request), causing significant delays to the completion of our work.

Handwritten notes were then provided to us, but these did not provide a clear and concise audit trail detailing the methodology used, the assumptions made, nor how calculations had been applied. There was no evidence this working paper had been reviewed. Furthermore, whilst the Authority did take into account similar transactions in the year, it did not challenge the methodology used nor undertake any additional review such as looking at wider trends, indices and other information to inform the year end movement. The Authority did not perform its own assessment of the final valuation including challenge and confirmation of this in order to understand key movements for properties.

For both the initial and year end valuations, the valuer did not provide all the documents required by Code guidance including a separate overarching valuation report covering matters such as the process used to arrive at the estimate of the remaining useful life of individual properties, the valuer's proposed strategy, arrangements for implementing the rolling programme; and proposals for carrying out additional and ad hoc valuations.

#### Update as at September 2017

This recommendation will be closed off and we have raised one new recommendation in 2016/17 to allow the Authority to respond to both Council Dwellings and PPE.

In April 2017, we were assured that there was a full documented audit trail. However when the work was reviewed, this was difficult to evidence and caused delays to the audit.

#### See recommendation 2 in Appendix 1.

Recommendation superseded

#### Recommendation

The information requested, and provided by the valuer, should meet all the criteria within the Code and provide a clear and concise audit trail relating to the methodology and assumptions used in the valuation process. All evidence should be maintained and made available prior to the start of the audit.

The Authority should ensure that it fully fulfils its responsibility to review, challenge and understand the information provided by the valuers as required by guidance.

#### Management's Original Response

Accepted. There was a change in key staff within the Asset Management team prior to the start of the audit. This combined with changes to finance staff meant that the process was not as smooth as in previous years.

---

**3. Revaluation of Council Dwellings** *(continued)*

Management recognise there is a need for a better documented internal review process within Asset Management, and between Asset Management and Finance. Officers will be working jointly to thoroughly document processes for future years.

*Completion target dates: 31 December 2016*

*Responsible officer: Head of Asset Management, and Strategic Finance Manager*

---

Medium  
priority

#### 4. Reconciliations

During the course of our audit we reviewed a number of reconciliations performed by the Authority between key systems. These are important controls which provide assurance that due process is being followed and that values reflected in the financial statements are calculated on an appropriate basis. We noted a number of issues including:

- Our testing of the March 2016 payroll reconciliation showed a total of 99 unreconciled items with a net value of £46,000 (gross £95,000). We also noted historical brought-forward balances which have yet to be identified by payroll.
- The Authority reconciles weekly Valuation Office (VO) reports to Academy Capita. The Authority does not reconcile the number of hereditaments (properties which are subject to business rates) to the NNDR system. There remains a small unreconciled difference in property numbers each week.
- The Authority reconciles the annual housing benefits expenditure to Agresso at the end of the year. We identified that the Authority had used the 2014/15 figure instead of 2015/16 figure for the reconciliation, resulting in an unreconciled difference of £15,300, instead of the original £997. This was not identified despite having been reviewed and signed off as “quality assured” by Officers.

#### Update as at September 2017

- Payroll reconciliations: As part of our interim audit we tested the December 2016 payroll reconciliation. 27 reconciling items were present on the December 2016 reconciliation that were present on the July 2016 reconciliation. We recommend these are cleared as quickly as possible.
- NDR reconciliations: A reconciling item has been identified since June 2016, which has not been resolved at year end. Therefore all of the monthly reconciliations show a reconciling item, so they do not reconcile. Although the reconciling item is in the process of being investigated, it has not been cleared by year end.
- Housing benefits reconciliation: This reconciliation was tested as part of the year end audit. No issues were noted with the housing benefits reconciliation.

Two new recommendations have been raised in 2016/17 to separately identify issues with the payroll and NDR reconciliations.

**See recommendations 7 (NDR reconciliations) and 8 (payroll reconciliations) in Appendix 1.**

Recommendation superseded

#### Recommendation

The Authority needs to ensure that quality checks are undertaken on all key controls. This should be embedded within the reconciliation process. The Authority should ensure all the issues above are dealt with and that full reconciliations are carried out across all appropriate systems and balances. All unreconciled balances should be identified and cleared, or written-off in a timely manner

#### Management’s Original Response

Accepted. Payroll reconciliation – Management accept there is a need to strengthen the reconciliation process. Reconciliation items must be identified and cleared within a timely period.

NDR property reconciliations - The Authority does reconcile the properties between the NDR and VO reports, and there are currently two cases where properties don’t reconcile but officers are aware of the reasons why the systems don’t reconcile and will be correcting them. The reconciliation amendment will not impact on the customers’ liability or debit raised.

---

**4. Reconciliations** *(continued)*

Housing Benefit Agresso reconciliation - Management recognise that the reconciliation process needs to be improved, and officers will be revising the process to exclude prior balances from the reconciliation data to ensure it is not included in error.

*Completion target dates:*

*Payroll: 31 October 2016*

*NDR: 31 October 2016*

Housing Benefit: 31 December 2016

*Responsible officer: Payroll Manager*

*Revenues Manager*

*Strategic Finance Manager*

---

Medium  
priority

### 5. Cut-off and accruals accounting

We performed cut-off procedures over the Authority's non-pay expenditure controls. The Authority needs to recognise expenditure incurred within the correct financial year. Our cut-off procedures are designed to test the effectiveness of the Authority's process for identifying and allocating expenditure to the correct financial year.

We tested 10 transactions around the year-end closedown date and identified that one invoice which should have been accrued had not been. The value of this invoice was for £2,240, which is above the Authority's *de minimis* threshold and therefore should have been accounted for within 2015/16.

Whilst further investigation deemed the issue to be immaterial to the audit, and therefore no adjustments are proposed, this is a key control operated by the Authority and should be operated consistently during the year.

#### Update as at September 2017

No issues were found with our cut-off and accruals testing in the 2016/17 financial statements audit.

Fully implemented

#### Recommendation

The Authority should ensure it strengthens its year end cut-off procedures and that controls are sufficiently-robust to ensure correct procedure is followed. The Authority may wish to consider the impact on raising its *de minimis* level to reduce the manual input required in this process. A review of cut-off is particularly important given the move to a shorter timetable for the accounts process from 2017/18, and the reduced time to produce the financial statements.

#### Management's Original Response

Accepted. Management accept this advice and they intend to review the *de minimis* level for accruals from £1,000 to £5,000 in order to make the process more efficient in the future to enable the reduced statutory deadline for the closure of accounts to be achieved. This will allow more time for increased controls over the manual accruals process which arguably present a greater risk.

*Completion target dates:*

31 December 2016

*Responsible officer:* Head of Asset Management, and Strategic Finance Manager

Medium  
priority

## 6. General IT controls – leavers

We tested the Authority's general IT control environment this year. We carried out specific testing of key applications which are relied upon by the audit, including Agresso. For two applications, we found that staff who have left the organisation are still active on these applications:

- IBS Housing: 14 former staff had active accounts; and
- ICON: 12 former staff were on user list, of which five were disabled and seven still active users.

### Update as at September 2017

No issues were found in our leavers testing as part of the 2016/17 audit.

Fully implemented

### Recommendation

Timely leaver forms need to be completed and cascaded to the relevant departments, including to IT.

User access to applications needs to be reviewed on a periodic basis. In addition, the departing employee's access rights should be revoked as part of the standard leaving procedures. This process should be co-ordinated between HR and IT.

### Management's Original Response

Accepted.

Management notes this recommendation and has taken the following action:

IBS Housing System. The recommendation for timely leaver forms needing to be completed and cascaded to the relevant departments has now been implemented.

ICON System. The staff responsible for maintaining user access to the ICON system have incorporated a review and disablement of users who have left into their routine monthly processes linking with the HR and Payroll teams.

*Completion target dates:*

*Immediate*

*Responsible officer:*

*IBS Housing System: LGSS Business Systems Manager*

*ICON System: LGSS Exchequer team leader*

Low  
priority

## 7. Payroll data quality

As part of our audit approach, we undertook data analytics over the Authority's payroll transactions for the year. We did not find any material issues; nonetheless, we noted some minor data quality issues, such as incorrect addresses and duplicate National Insurance numbers. We have provided the full results to the Authority separate from this report.

We noted salary payments made to employees after their effective end date. All of these have been investigated by the Authority and confirmed as appropriate.

### Update as at September 2017

During interim, the original results of our work over payroll data and analytics highlighted a number of data quality issues. When communicated with the Integrated Closedown team, it highlighted that the data originally used was incorrect. A new data set has been provided and our Data & Analytics routines were re-performed. This has resulted in a delay to the work produced.

This occurred again as part of the final visit where incorrect data was provided requiring our Data & Analytics routines to be re-performed.

Findings from our Data & Analytics routines indicated that there are still a number of data issues such as incorrect addresses, duplicate NI numbers and employees with incorrect bank details. Nonetheless, our Data & Analytics routines have not identified financial impacts on the Authority's financial statements.

Partially implemented

### Recommendation

The Authority should investigate instances of data quality issues. In addition, the Authority should investigate all incidences of salary payments to staff after the end dates.

### Management's Original Response

Management have reviewed the findings and whilst there are no significant issues, processes have already been updated during 2015/16 to address issues around national insurance numbers. A further review of data held around historic / incomplete postcodes will be undertaken

*Completion target dates: 31 December 2016*

*Responsible officer: Payroll Manager*

Due to the data requirements changing for this year's audit with the request for a single data report in this area, the Systems team had to pull together the data from different sources and undertake lookup processes between the different sources. There was an issue with this lookup with new cost centres not being picked up which led to the exceptions highlighted by KPMG. This has been corrected in a revised set of data and reports, which is expected to remove the vast majority of the exceptions initially identified. We await the outcome of the revised analysis.

### Management's updated response as at September 2017

[TBC]

Low  
priority

## 8. NDR provision review

The Authority collects Non-Domestic Rates (NDR) from businesses in the Borough. NDR owed to the Authority is based on rateable values, as set by the Valuation Office Agency (VOA). Ratepayers are able to appeal these values if they do not agree with the valuation. If successful, the Authority is liable to repay its share of the difference.

This was first introduced in 2013-14 due to a move to localise business rates. The Authority has set an NDR provision level of 5% based on an estimate of successful appeals. This estimate is based on information from the VOA (across a range of percentages) and the DCLG's guidance on the national average success rate.

During the course of the audit we asked the Authority to provide evidence regarding its review and analysis of local historical data collected since April 2013 in order to inform its view of the appropriateness of its provision in this area, however none was provided at that time. In raising this issue with Management, we have now been provided with information pertaining to the Authority's approach. The Authority having analysed the local data has deemed that the current approach is prudent and therefore has not adopted the calculated figures. This has not resulted in a material impact on the financial statements.

### Update as at September 2017

The Authority has worked hard to review the calculation of the appeals provision. There has been a change in how the provision is calculated, which is now based on more granular data. This change in methodology has resulted in an NDR provision increase of £800,000.

Fully implemented

### Recommendation

The Authority should continue to use its own historical data to inform and refine its estimate of its share of liability arising from successful appeals. Notwithstanding whether the Authority decides it should change its provision based on this information, sufficient and appropriate audit evidence should be maintained and provided to evidence the decision process undertaken, as well as management review and sign-off of the final position. The Authority should provide appropriate and sufficient narrative explanations with regards to why the Authority believes that the approach taken is the most appropriate or prudent, especially when there are valuation differences between methodologies.

### Management's Original Response

Accepted. The Council recognises the complexity of the business rates retention system and the importance of understanding its appeals position. The Council will continue to review the impact of successful appeals on a monthly basis to assess its impact on the financial position. The outcome of this analysis, along with other sources of intelligence, will inform the level of appeals provision for 2016/17.

*Completion target dates: 31 March 2017*

*Responsible officer: Chief Finance Officer*

### Management's Update April 2017

Noted.

# Audit differences

We are required by ISA 260 to report all uncorrected misstatements, other than those that we believe are clearly trivial, to those charged with governance (which in your case is the Audit Committee). We are also required to report all material misstatements that have been corrected but that we believe should be communicated to you to assist you in fulfilling your governance responsibilities.

A number of minor amendments focused on presentational improvements have also been made to the 2016/17 draft financial statements. The Closedown Team is committed to continuous improvement in the quality of the financial statements submitted for audit in future years.

## **Adjusted and unadjusted audit differences**

At this stage we are unable to provide the Audit Committee with a final list of adjustments as significant audit work is still ongoing. We will provide an updated position in our Annual Audit Letter.

# Materiality and reporting of audit differences

## The assessment of what is material is a matter of professional judgment and includes consideration of three aspects: materiality by value, nature and context.

Material errors by value are those which are simply of significant numerical size to distort the reader's perception of the financial statements. Our assessment of the threshold for this depends upon the size of key figures in the financial statements, as well as other factors such as the level of public interest in the financial statements.

Errors which are material by nature may not be large in value, but may concern accounting disclosures of key importance and sensitivity, for example the salaries of senior staff.

Errors that are material by context are those that would alter key figures in the financial statements from one result to another – for example, errors that change successful performance against a target to failure.

We used the same planning materiality reported in our External Audit Plan 2016/17, presented to you in March 2017.

### Reporting to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any misstatements of lesser amounts to the extent that these are identified by our audit work.

Under *ISA 260*, we are obliged to report omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. *ISA 260* defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.

*ISA 450* requires us to request that uncorrected misstatements are corrected.

In the context of the Authority, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £75,000 for the Authority.

Where management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit Committee to assist it in fulfilling its governance responsibilities.

# Declaration of independence and objectivity

Auditors appointed by Public Sector Audit Appointments Ltd must comply with the Code of Audit Practice (the 'Code') which states that:

*"The auditor should carry out their work with integrity, objectivity and independence, and in accordance with the ethical framework applicable to auditors, including the ethical standards for auditors set by the Financial Reporting Council, and any additional requirements set out by the auditor's recognised supervisory body, or any other body charged with oversight of the auditor's independence. The auditor should be, and should be seen to be, impartial and independent. Accordingly, the auditor should not carry out any other work for an audited body if that work would impair their independence in carrying out any of their statutory duties, or might reasonably be perceived as doing so."*

In considering issues of independence and objectivity we consider relevant professional, regulatory and legal requirements and guidance, including the provisions of the Code, the detailed provisions of the Statement of Independence included within the Public Sector Audit Appointments Ltd Terms of Appointment ('Public Sector Audit Appointments Ltd Guidance') and the requirements of APB Ethical Standard 1 Integrity, Objectivity and Independence ('Ethical Standards').

The Code states that, in carrying out their audit of the financial statements, auditors should comply with auditing standards currently in force, and as may be amended from time to time. Public Sector Audit Appointments Ltd guidance requires appointed auditors to follow the provisions of *ISA (UK&I) 260 'Communication of Audit Matters with Those Charged with Governance'* that are applicable to the audit of listed companies. This means that the appointed auditor must disclose in writing:

- Details of all relationships between the auditor and the client, its directors and senior management and its affiliates, including all services provided by the audit firm and its network to the client, its directors and senior management and its affiliates, that the auditor considers may reasonably be thought to bear on the auditor's objectivity and independence.
- The related safeguards that are in place.
- The total amount of fees that the auditor and the auditor's network firms have charged to the client and its affiliates for the provision of services during the reporting period, analysed into appropriate categories, for example, statutory audit services, further audit services, tax advisory services and other non-audit services. For each category, the amounts of any future services which have been contracted or where a written proposal has been submitted are separately

disclosed. We do this in our Annual Audit Letter.

Appointed auditors are also required to confirm in writing that they have complied with Ethical Standards and that, in the auditor's professional judgement, the auditor is independent and the auditor's objectivity is not compromised, or otherwise declare that the auditor has concerns that the auditor's objectivity and independence may be compromised and explaining the actions which necessarily follow from his. These matters should be discussed with the Audit Committee.

Ethical Standards require us to communicate to those charged with governance in writing at least annually all significant facts and matters, including those related to the provision of non-audit services and the safeguards put in place that, in our professional judgement, may reasonably be thought to bear on our independence and the objectivity of the Engagement Lead and the audit team.

## General procedures to safeguard independence and objectivity

KPMG LLP is committed to being and being seen to be independent. As part of our ethics and independence policies, all KPMG LLP Audit Partners and staff annually confirm their compliance with our Ethics and Independence Manual including in particular that they have no prohibited shareholdings.

Our Ethics and Independence Manual is fully consistent with the requirements of the Ethical Standards issued by the UK Auditing Practices Board. As a result we have underlying safeguards in place to maintain independence through: Instilling professional values, Communications, Internal accountability, Risk management and Independent reviews.

We would be happy to discuss any of these aspects of our procedures in more detail.

## Auditor declaration

In relation to the audit of the financial statements of Northampton Borough Council for the financial year ending 31 March 2017, we confirm that there were no relationships between KPMG LLP and Northampton Borough Council, its directors and senior management and its affiliates that we consider may reasonably be thought to bear on the objectivity and independence of the audit engagement lead and audit staff. We also confirm that we have complied with Ethical Standards and the Public Sector Audit Appointments Ltd requirements in relation to independence and objectivity.

## Non-audit work and independence

We have not undertaken any non-audit work for the financial year ending 31 March 2017.

# Audit fees

## Audit fees

As communicated to you in our *External Audit Plan 2016/17*, our scale fee for the audit is £80,775 plus VAT (£80,775 in 2015/16), thereby preserving the 25 per cent reductions that were applied in the previous year. Our fee is based on a number of assumptions, including that Officers provide us with complete and materially-accurate financial statements, accompanied by good-quality supporting working papers within agreed timeframes.

During the audit, we experienced quality issues with working papers and various delays. These issues have been communicated to the Audit Committee within this report, and we are currently in discussions with the Section 151 Officer about the additional costs which we have incurred. We have discussed additional fees of approximately £71,250 with the Section 151 Officer. These are subject to PSAA approval. We have also undertaken additional work in response to Code changes and changes made by the Pension fund in response to the triennial pensions revaluation. We have discussed additional fees of £4,813 with the Section 151 Officer in relation to these two areas. See table below for further detail.

Our work on the certification of Housing Benefits (BEN01) is planned for November 2017. The planned scale fee for this is £18,972 plus VAT per PSAA notification. All PSAA scale fees are available on the PSAA's website.

PSAA fee table		
Component of audit	2016/17 (planned fee) £	2015/16 (actual fee) £
<b>Accounts opinion and use of resources work</b>		
PSAA scale fee set in 2014/15	80,775	80,775
Code changes for 2016/17 and the triennial pensions revaluation (note 1)	TBC	–
Additional work to conclude our opinions (note 2)	TBC	17,250
<b>Subtotal</b>	<b>TBC</b>	<b>98,025</b>
<b>Other</b>		
Housing benefits (BEN01) certification work (PSAA scale fee)	18,972	10,579
Elector objection (note 3)	TBC	52,413
<b>Total fee for the Authority set by the PSAA</b>	<b>TBC</b>	<b>161,017</b>

All fees are quoted exclusive of VAT.

### Note 1: Code changes and the triennial pensions revaluation

The Code introduced changes in the way the Authority is required to present its financial statements for the year 2016/17. This involved a restatement of the prior year's Comprehensive Income and Expenditure Statement (CIES) and the introduction of the Expenditure and Funding analysis (EFA), together with the corresponding notes to the EFA. We undertook additional work to gain understand and assurance over the restatement process and agreeing the new disclosures to the Authority's trial balance.

We also undertook additional work in relation to process changes introduced by the Pension Fund in response to the triennial pensions revaluation.

### Note 2: Additional work to conclude our opinions

For 2015/16, an additional £17,250 was agreed by the Section 151 Officer and the PSAA to meet additional costs incurred by the audit team. These were predominantly caused by additional work and issues over the Authority's loans and fixed assets. We have reported these issues in our External Audit Report 2015/16 (ISA 260) and the 2015/16 Annual Audit Letter, which were previously presented to the Audit Committee.

For 2016/17, we have experienced significant delays and undertook additional work in the course of performing the audit. These predominantly relate to the Authority's fixed assets, including Council Dwellings. As at the date of writing, significant work is still ongoing in relation to the valuation of the Authority's fixed assets. Further detail can be found on pages 6 – 12, and recommendations 2, 3, 4, and 5 in Appendix 1. The fee also includes additional work carried out by our valuation specialist over the Authority's fixed assets, additional work carried out by our Data & Analytics team due to incorrect data submitted for review (see page 21), and additional work by our IT specialist team in response to the change in the Authority's Non Domestic Rates System (see page 17). We have proposed an additional fee of £71,250 and are discussing this with the Section 151 Officer and will provide a detailed breakdown. The final agreed fee will also be subject to PSAA determination.

### Note 3: Elector objection

In 2015/16, we received an objection from a local elector in relation to the loan provided to the Northampton Town Football Club (NTFC). We reported in our 2015/16 Annual Audit Letter that our work was temporarily suspended due to the on-going police investigation. The £52,413 disclosed in the 2015/16 column relate to costs incurred up to the temporary suspension of our work. We have since received permission from the police to recommence our work, and anticipate incurring further costs. We will discuss further costs with the Section 151 Officer and the PSAA.

In 2016/17, we received an objection from a local elector in relation to the setting of the Authority's Council Tax. We have accepted this objection and are in the process of finalising our work. The additional fee will be discussed with the Section 151 Officer and will be subject to PSAA determination. We have also received questions and matters brought to our attention from electors during the course of our audit. We are in the process of finalising our responses and additional fees for this will be discussed with the Section 151 Officer and the PSAA, in line with regulations.

**1) Addition made to the table on page 144**

**Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty**

Note 4

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment - Council Dwellings use of Beacon Properties	Council dwellings are valued by reference to representative properties across the housing estate known as 'beacons'. 20% of these beacons are subject to a full valuation each year on a rolling basis in line with the relevant accounting code and valuation guidance for resource accounting. The beacons valued each year are assessed for their appropriateness, and if the professional valuers deem it necessary are substituted for more appropriate beacons.	This estimation process which is in line with relevant codes and guidance does introduce some uncertainty as only 20% of the representative beacons are valued each year. The selection of alternative beacons in the 20% used for the 2016/17 valuation is estimated to have reduced the total value as at 1st April 2016 of the estate linked to these beacons by 2.2% or £1.98m and this effect has been reflected in the values as at 31 March 2017 included in the balance sheet. However if this trend continued across the remaining 80% of beacons then the impact could be a reduction of £9.3m on the total estimated value of council dwellings.

75

**2) Updated text on page 40**

c) Revaluations

The Authority carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. All Valuations have been carried out by internal and external valuers were carried out internally. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture, and equipment are based on current prices where there is an active second-hand market or latest list prices adjusted for the condition of the asset.

Red text replaced by Green

The main Housing stock was initially valued by the Beacon Method at April 2000. A rolling programme of revaluation exists whereby approximately 20% of the Housing Stock is revalued each year and the average percentage change established on the revalued properties is then applied to the remaining stock. The 20% of the beacons valued each year are reviewed to see if more appropriate beacons are available, the potential uncertainties around this methodology are set out in Appendix J2 General Information – Section 4 Assumptions made about the future and other major sources of estimation uncertainty.

Green text is new

**Appendices 2:**

1. Final Statement of Accounts (SoA)
2. Annual Governance Statement (AGS)

## AUDIT COMMITTEE REPORT

<b>Report Title</b>	<b>Statement of Accounts 2016/17 and Annual Governance Statement</b>
---------------------	--

**AGENDA STATUS: PUBLIC**

<b>Audit Committee Meeting Date:</b>	27 September 2017
<b>Policy Document:</b>	No
<b>Directorate:</b>	Chief Finance Officer
<b>Accountable Cabinet Member:</b>	Cllr B Eldred

### 1. Purpose

---

- 1.1 To seek approval of the Statement of Accounts (SoA) 2016/17 (Appendix 1) and note the Annual Governance Statement (AGS) (Appendix 2).

### 2. Recommendations

---

- 2.1 That the Audit Committee approves the SoA 2016/17.
- 2.2 That the Audit Committee acknowledges the AGS signed by the Leader and Chief Executive.
- 2.3 That if there are amendments to the SoA required before the 30<sup>th</sup> September following finalisation of the external audit work that the Audit Committee delegates to the Chair of Audit Committee to sign them in consultation with the statutory S151 Chief Finance Officer (CFO), with any changes reported back to the next Audit Committee.

### 3. Issues and Choices

---

#### 3.1 Report Background

- 3.1.1 The Council has produced its SoA in line with the statutory timescales and it has now been subject to external audit by KPMG. The CFO is satisfied that

following audit recommendations for agreed changes the SoA present fairly the financial position of the Council at 31 March 2017.

### **3.2 Key Changes from the draft financial statements**

- 3.2.1 As part of the external audit there have been a number of material items identified which have been amended in the final statements, which are explained in the following paragraphs.
- 3.2.2 Valuation of Council Houses - this relates to the discount rate applied to the valuation of council houses. The Council's external valuers had reached a view that the Department of Communities and Local Government (DCLG) guidance rate for the East Midlands region is not the most appropriate for Northampton given it is on the edge of the region and its proximity to London particularly with its good transport links. However following extensive discussions with the External Auditors and their valuers it was agreed that the authority would revert back to the DCLG guidance rate in 2016/17. It is planned to reassess this position in producing the 2017/18 accounts jointly discussing more detailed evidence with the auditors before arriving at an appropriate judgement on the discount rate to apply.
- 3.2.3 Other Land and Buildings – following discussions between the Council's valuers and KPMG valuers there have been some changes made to asset values to reflect the cost of purchase, and currently the Council has adopted a prudent view to ensure the assets are not over valued in the balance sheet. This will be an area the internal asset team will focus on in preparing the 2017/18 accounts to reach an early agreement with the external auditors.
- 3.2.4 The narrative statement which is essentially a report from the management of the organisation on the performance of the council and key financial plans for the future has been amended to include the final performance management information and following recommendations from the external auditors.
- 3.2.5 Following the resignation of the Chief Executive in July 2017, a short paragraph relating to this has been included in the post balance sheet event section of the notes to the accounts.
- 3.2.6 Also on further review and quality assurance of the draft accounts there have been presentational amendments and the inclusion of additional notes to the accounts in respect of the Expenditure and Funding Analysis and the Cash Flow Statement.

### **3.3 External Audit Update**

- 3.3.1 External audit have substantially completed their audit work on the financial statements and their ISA260 report to those charged with governance is a separate report on this agenda.
- 3.3.2 The external auditors anticipate being able to issue their audit opinion and sign-off the accounts to meet the statutory deadline of 30<sup>th</sup> September.

### **3.4 2015/16 ISA260 Recommendations**

3.4.1 There were 9 recommendations from the 2015/16 ISA Report, two brought forward from 2014/15 and one included as part of the 2016/17 Interim Audit Report. The authority identified a total of 43 actions to work on in response to these recommendations and 3 of these remain outstanding as reported to the Audit Committee in early September.

### **3.5 Annual Governance Statement (AGS)**

3.5.1 Under the Accounts and Audit Regulations 2011 the Annual Governance Statement must accompany the Statement of Accounts, and a final version signed on 18th August 2017 by the Borough Secretary and the Leader of the Council is included as appendix 2 to this report, and is published on the Council's internet page.

3.5.2 On the first page of the AGS is the Statement of Compliance, which explains how the council complies with the CIPFA Statement on the Role of the CFO. Due to the partnership with LGSS there are a few small functions that are not directly overseen by the CFO. These variations from the CIPFA Statement and how they are addressed instead are explained in the Statement of Compliance section of the draft AGS.

3.5.3 The statement has been shared with the external auditors as part of their audit work, no audit issues were raised on the AGS.

### **3.6 Choices (Options)**

3.6.1 The Committee may choose not to approve the Accounts; this would result in the Council not meeting its statutory responsibilities.

## **4. Implications (including financial implications)**

---

### **4.1 Policy**

4.1.1 There are no policy implications arising from this report.

### **4.2 Resources and Risk**

4.2.1 There are no direct financial implications arising from this report. The SoA reports on the financial position for 2016/17.

### **4.3 Legal**

4.3.1 There are no legal implications arising from this report.

### **4.4 Equality**

4.4.1 There are no equality implications arising from this report.

#### **4.5 Consultees (Internal and External)**

- 4.5.1 Management Board has been consulted on the Statement of Accounts and AGS.
- 4.5.2 The Draft Statement of Accounts, accompanied by the AGS, has undergone public inspection and external audit.

#### **4.6 Other Implications**

- 4.6.1 There are no other implications arising from this report.

### **5. Background Papers**

---

- 5.1 The Accounts were prepared in line with IFRS requirements and relevant legislation, predominantly:
- Accounts and Audit Regulation 2011
  - The Code of Practice on Local Authority Accounting 2016/17
  - The CIPFA Statement on the Role of the Chief Finance Officer

## Introduction

This document presents the statutory financial statements for Northampton Borough Council (the Council) for the period 1 April 2016 to 31 March 2017 and gives a comprehensive summary of the overall financial position of the Council giving a true and fair view. The Council has a statutory duty to approve and publish this Statement of Accounts document. It is, in parts, a complex document which sets out to ensure that the accounts of all Government funded bodies provide comparable and consistent information and comply with International Financial reporting Standards. As a result, its format is largely prescribed.

The final Statement of Accounts will be approved by Audit Committee at its meeting on 27<sup>th</sup> September 2017.

## The Statements

The main statements which make up these accounts are as follows:

### Core Financial Statements

- Movements in Reserves Statement
- Comprehensive Income and Expenditure Statement
- Balance Sheet
- Cash Flow Statement
- Notes to the Core Financial Statements

### Supplementary Financial Statements

- Housing Revenue Account (HRA) Income and Expenditure Account
- Movement in Housing Revenue Account Reserve
- Notes to the HRA Accounts
- The Collection Fund Income and Expenditure Account
- Notes to the Collection Fund

### Group Accounts

- In order to provide a full picture of the Council's economic activities and financial position the accounting statements of the Council and Northampton Partnership Homes have been consolidated. Northampton Partnership Homes is a wholly owned subsidiary of the Council. Full details can be found in the Group Accounts section.

An explanation of each of these statements accompanies each statement.

The accounts are presented in the format recommended by the Chartered Institute of Public Finance and Accountancy (CIPFA), as set out in the Code of Practice on Local Authority Accounting in the United Kingdom 2016-17 (the Code). Our core financial statements use this format and meet the conditions of the Code.

This narrative statement provides a summary of the most significant matters reported within the accounts and of the Council's financial position.

**The Council's Strategic / Corporate Priorities**

The Council, as part of its policy and management framework adopts a Corporate Plan each year. This sets out the context of the future direction of the Council and commitments for action on behalf of the elected Administration.

The Corporate Plan that covers the period of these accounts (the 2016-2020 Corporate Plan) can be found on the Council's website at the link below:

<http://www.northampton.gov.uk/downloads/file/9285/corporate-plan-2016>

The Corporate Plan outlines the key priorities that the Council has over that time period. These priorities are as follows:

- Northampton Alive – a vibrant successful town for now and the future;
- Safer Communities – making you feel safe and secure;
- Housing for Everyone – helping those that need it to have a safe and secure home;
- Protecting our Environment – a clean and attractive town for residents and visitors;
- Love Northampton – enhancing leisure activities for local people and encouraging participation; and
- Working Hard and Spending your Money wisely – delivering quality modern services.

In addition the Corporate Plan identifies three Business Development Priorities to drive the Council's efforts to support the delivery of corporate plan commitments and manage the Council's future financial challenge. These Business Development Priorities are:

- Empowering Communities
- Economic Growth
- Partnership Working

Under each of the above priorities, commitments are made to the public of Northampton to progress these priorities.

The 2017-2022 Corporate Plan is a refresh of the 2016-2020 Corporate Plan. The new plan has been updated to reflect progress and amended or additional priorities. A key addition to the 2017-2022 Corporate Plan is the following priority:

- Improving Our Governance – implementing the Governance Action Plan.

The Governance Action Plan has been developed to reflect the importance of good governance to the achievement of the council's priorities and is therefore an important tool to assist the delivery of the new Corporate Plan. The 2017-2022 Corporate Plan can be found on the Council's website at the link below:

<http://www.northampton.gov.uk/downloads/file/9616/corporate-plan-2017>

**The Council's 2016-17 Performance**

This section of the narrative statement provides an overview of the Council's performance during the 2016/17 financial year and the Council's position as at 31 March 2017. Significant matters and variances are summarised in this section and supported by the detail included in the statement of the accounts and core financial statements.

### Financial Performance

The Council's budget is divided across two accounts, the General Fund and the Housing Revenue Account (HRA). These two accounts, together with their respective sources of funding, are kept entirely separate from each other as required by statute. A separate capital budget is also set to fund council assets.

The Council set a balanced budget for 2016/17. The main sources for funding of the 2016/17 general fund budget were as follows:

- Revenue Support Grant £3.3m
- Business Rates Retention Scheme £7.5m
- New Homes Bonus £4.9m
- Council Tax £13.4m

At the end of the 2016/17 year, the General Fund outturn for controllable service budgets shows an underspend of £1.4m, details below:

Table 1 - Controllable Budget Outturn	Revised Budget £000	Actual Outturn £000	(Under) / Over Spend £000
Director of Regeneration, Enterprise and Planning	2,620	2,668	48
Housing and Wellbeing	1,104	1,647	543
Borough Secretary	2,737	2,737	0
Director of Customers and Communities	11,503	10,175	(1,328)
Corporate and LGSS	11,404	11,214	(190)
<b>Total Service Controllable Spending</b>	<b>29,368</b>	<b>28,441</b>	<b>(927)</b>
Debt Financing	1,904	1,448	(456)
<b>Total</b>	<b>31,272</b>	<b>29,889</b>	<b>(1,383)</b>

The main variations are as follows:

- Regeneration, Enterprise and Planning - Overspend mainly relates to additional temporary staff covering vacant positions and professional services to carry out valuations. Offset by overachievement of NNDR rebates following challenges and the higher level of development control income for the whole year.
- Housing and Wellbeing - Overspend is mainly due to additional costs of Homeless Prevention schemes, Refuge funding, higher Temporary Accommodation costs and a reduction in Licensing Income.
- Customers and Communities - Underspend reflecting additional deductions made through the Environmental Services Contract and additional car parking and licensing income. Savings on utility and NNDR costs.
- Corporate and LGSS - Underspend due to lower pension severance costs and a higher pension deficit recharge to the HRA offset by additional costs for Temporary Accommodation resulting in a higher subsidy loss.

In 2015/16, the Council impaired the outstanding loan in its Accounts given to Northampton Town Football Club (NTFC) due to failure of NTFC to make payments between May and September 2015. In

line with Cabinet decisions the Council has sought to recover the lost monies and incurred professional fees in relation to this matter.

The Council's final approved budget for General Fund capital programme expenditure in 2016/17 was £19.0m, a net increase of £5.8m from the original budget of £13.2m. The increases were due to carryforwards from 2015/16 and other changes largely relating to increases in external financing from grants and contributions and self-funded schemes, as well as increased costs for the restoration of Delapre Abbey.

Capital expenditure for 2016/17 totalled £12.4m against the final approved budget of £19m, a net underspend of £6.6m (35%). A large proportion (£6.1m) relates to schemes that are currently underway or still planned to take place and these budgets will be carried forward into the next financial year (2017/18). The majority of this carry forward is due to the timing of approvals and the timescales for letting contracts and funding agreements.

The 2016/17 capital programme was funded as follows:

- Borrowing £4.7m
- Capital Receipts £0.8m
- Grants £2.5m
- Third Party Contributions £3.0m
- Revenue Contributions £1.4m

The HRA budget for 2016/17 was set with an expenditure budget of £53.7m. There are strict rules around the costs and income allowable against the HRA and this is budget is funded through the rents collected on the HRA properties.

At the end of the 2016/17 year, the HRA outturn position shows an underspend on controllable spending of £0.249m. After technical accounting adjustments this position moves to an underspend of £0.366m. This has reduced the required net contribution from reserves from the budgeted amount of £7.517m to £7,151m, while the HRA working balance remains unchanged at £5m.

Further details of the budget that was set for 2016/17 can be found on the Council's website here:

<http://www.northamptonboroughcouncil.com/councillors/ieListDocuments.aspx?CId=242&MId=7967>

Further details of the Council's outturn position for 2016/17 can be found on the Council's website here (item 12 on the agenda):

<http://www.northamptonboroughcouncil.com/councillors/ieListDocuments.aspx?CId=528&MId=8155>

### **Non-Financial Performance**

The Council monitors progress against a number of key performance indicators on a monthly, quarterly and annual basis and at the end of each year an outturn report is produced that summarises how well the Council performed against the targets set. A summary of the overall indicator performance against targets is shown below with the performance from the previous year as comparison.

Performance this year is showing improvements in several areas. The number of KPIs reported on has fallen in the year (2016 – 2017) compared to the previous year, as some KPIs are no longer statutory reports or relevant, and have been removed or could not be reported accurately. The Assets KPIs are in the process of being revised to reflect the monitoring and reporting needs of the service. The review will focus on the stakeholder needs for information and ensure data quality.

There have been a number of areas for concern including homelessness, serious acquisitive crime, and environmental services being among some that have returned a red indicator.

- Homelessness and crime have shown increases, which are in line with national trends.
- The environmental services offering is currently under re-tender and new KPIs will be written in line with the contract when it is awarded.

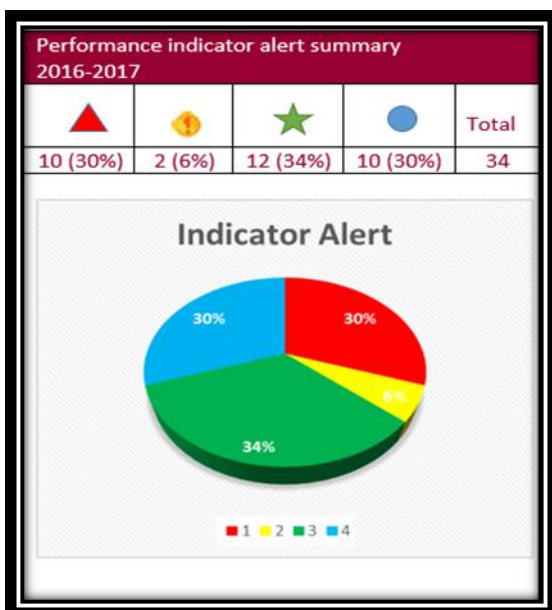

NBC will continue to work with the service areas that are returning a red KPI to better understand where limited resources need to be focussed and to ensure that accurate reporting gives a true reflection of areas that need to be reviewed in more detail. The full outturn report was approved by cabinet on 19<sup>th</sup> July 2017 and has been uploaded to the [NBC website](#) for public scrutiny.

**THE 2016-17 ACCOUNTS**

The Core Financial Statements consist of the following which are explained in more detail in the notes to the accounts:

**Comprehensive Income and Expenditure Statement** – this statement provides a summary of the resources which have been applied and generated in providing services and managing the Council during the year. The statement shows the total expenditure and total income by major category of type of service, which shows that Housing is the largest area of gross expenditure.

- The headline figure for the CIES is an overall Surplus on the Cost of Services of (£54.02m) from the expenditure and income on services.

- The Other Comprehensive Income and Expenditure Total shows technical items of expense and income, which are not reflected in the (Surplus) or Deficit on the Provision of Services reports a £24.4m income due to an increase in the Revaluation gain of £41m offset by Pension liability of £25.3m

**Balance Sheet** – setting out the assets and liabilities recognised by the Council at the balance sheet date, the bottom line is effectively the net worth of the organisation at that date. The net assets of the Council (the assets less the liabilities) are matched by the Reserves held by the Council – net assets increased over the year by £97.4m.

The key points to note from this statement are that for NBC:

- The value of property, plant and equipment has increased by £126m relating to an increase in the adjustment factor for social housing contained within the DCLG guidance for valuers 2016.
- Movements in the value of short term investments and cash and cash equivalents represent a greater proportion of the council's surplus cash balances being held in order to meet day to day operational demands.
- Other long term liabilities have increased by £24.6m, which predominantly results from the increase in the pension's liability following the annual assessment of the fund by actuaries acting on behalf of Northampton Borough Council. There is a corresponding reduction in the value of unusable reserves.

**Movement in Reserves Statement** – representing the movements on the reserves held by the Council during the financial year analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and 'unusable' reserves. The 'surplus or (deficit) on provision of services' line shows the true economic cost of providing the Council's services, more details of which are shown in the CIES. These are different from the statutory amounts required to be charged to the General Fund balance for Council Tax setting purposes. The 'net' increase/decrease before transfers to earmarked reserves' line shows the statutory General Fund balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

The main messages from this statement are that for 2016/17 the council's net worth increased by £98m. The main changes in this statement year on year are the changes in the pension reserve of £24.9m from the latest actuary valuation, the increase of £43.3 million on the revaluation gains as Council assets are revalued and £85m resulting from changes to the Capital Adjustment Account. All of these are unusable reserves as outlined in the Unusable Reserves note.

**Cash Flow Statement** – outlines the changes in the cash and cash equivalents, for example changes in debtor balances (those owing the Council money) and creditor balances (those which the Council owes money to) during the year. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities.

**Expenditure and Funding Analysis** – this is a new disclosure, required by the Code, and has been included in the Statement of Accounts for the first time. It shows the difference between the net expenditure chargeable to the Council's General Fund and earmarked reserves and the income and expenditure in the CIES. It also demonstrates how the Council's resources are allocated between directorates.

The net expenditure chargeable to the Council's General Fund is £4.6m. This differs from the income and expenditure shown in the CIES due to a number of technical accounting adjustments which the Council is required to make by the Code, including capital charges such as depreciation, actuarial pension's adjustments and adjustments to the Collection Fund.

**Supplementary Financial Statements** – the Housing Revenue Accounts showing the in-year cost of providing housing services in accordance with generally accepted accounting practices. The transactions of the billing authority are shown on the Collection Fund Statement in accordance with the code of accounting practice.

There have been some changes to the accounting policies for 2016/17 which were reported to and approved by the Audit Committee at its meeting of 6th March 2017 as follows:

- IFRS 13 Fair value measurement was adopted in 2015-16 prescribing the methodology of valuation of assets and liabilities, which is set out in policy L. Surplus assets was omitted and has now been included as being measured at fair value.
- The review of policy L has also highlighted the need to amend the stated valuation methodology of Vehicles and Assets under Construction. This has been amended from fair value to depreciated historic cost for vehicles and historic cost for assets under construction. These asset categories have always been held on the newly stated basis therefore there is no financial change to the accounts as a result of this amendment.
- The third change is due to the change in the format of the Comprehensive Income and Expenditure Statement (CIES) required by the Code of Practice for Local Authority Accounting in the United Kingdom 2016/17. Policy C Cost of Services referred to SeRCOP and the allocation of support costs. This policy has been renamed Overheads and Support Costs that are allocated to service segments in accordance with the authority's arrangements for accountability and performance.

## RISK MANAGEMENT

The Council takes a proactive approach to risk management, and this has been significantly enhanced during 2016/17 following several internal and external audit reports. The management of risk and governance is undertaken at officer level through Directorate risk registers which are subsequently reported to an overarching Management Board as a corporate risk register. These identify key risks, and any existing or planned measures to mitigate them, including an assessment based on a combination of impact and likelihood of occurrence. Member involvement is through Cabinet, Audit Committee and Council approval of policies and review of risk areas.

There are many policies and procedures in place to govern financial management and decision making with the constitution being the overarching one, which includes financial regulations and contract procedures. The Council has been reviewing many of its policies since January 2017 to ensure they are fit for purpose.

The draft Annual Governance Statement makes particular reference to the Governance Action Plan which was developed in the second quarter of 2016/17, with implementation commencing immediately and all plans to be in place by the end of January 2017. The focus of this action plan is improving governance of decision making and project management, including financial governance and ensuring organisational structures are robust.

## THE 2017/18 BUDGET AND MEDIUM TERM OUTLOOK

### Economic Context

The national and global economic outlook has shifted over the last 12 months, due to the outcome of the referendum on June 23rd 2017 leading to the UK's proposed withdrawal from the European Union, and more recently the outcome of the presidential election in the United States. The impact on the Borough Council's budget and medium term financial plan are:

- Reductions in GDP growth forecasts;
- Demand for housing currently remaining strong;
- Inflation is expected to increase; and
- Interest rates are forecast to stay low over the medium term.

### Sources of Funding – Medium Term Forecasts

The main sources of funding for the Council's net General Fund revenue budget are Council Tax, Business Rates, New Homes Bonus and Revenue Support Grant.

- Council Tax – In addition to the annual increase in Band D Council Tax of £5, the amount of Council Tax income also increases due to increases in number of properties, forecast to grow by 1% per annum from 2018/19 onwards.
- Business Rates – following the introduction of the Business Rate Retention Scheme in April 2013, the Council now benefits from growth in the rateable value in the Borough. On the flipside, the Council also bears the risk of volatility, including successful appeals by business against their rateable value. The five-year forecasts reflect an average inflationary increase in business rates income of 1.2% per year.
- New Homes Bonus – this has been a significant source of funding in recent years. The revamp of the scheme has led to a significant reduction in this source of income for the Council, although this is mitigated by continued housing growth.

### Medium Term Financial Plan

The Medium Term Financial Plan provides a forecast of the Council's expenditure and income over the next five years. The forecasts show the need to make substantial year-on-year savings, rising to £5.8m by 2020/21. The focus of activity is on the delivery of the Efficiency Plan in order to eliminate this medium term gap.

The Efficiency Plan is essential to delivery of a balanced budget over the medium term. The scale of the savings that the Council needs to find requires a fundamental review of the way in which services are provided, as well as the range and scope of those services. Work has begun and is progressing across the following themes, as detailed in the Efficiency Plan:

- Economic Growth – to prioritise new ways of delivering investment and sustaining revenue streams
- Partnership – to build on existing successful delivery partnerships such as LGSS, Northampton Partnership Homes and the Leisure Trust.
- Community Empowerment – to deliver a clearly defined community-led approach that enables the delivery of ongoing service improvements and financial savings.
- Exploiting Commercial Opportunities – The Council will use its substantial asset base to deliver commercial income, through a combination of redefining an asset's use in order to maximise

income and through disposal of underutilised assets. This work stream will also look at options to invest in new assets that generate a good rate of return. There may be a need for significant capital investment which will need to be closely scrutinised to ensure that it is affordable, prudent and sustainable.

- Being more efficient - All services will continue to review their working practices to ensure that they deliver high quality services at the lowest possible net cost.

### The 2017/18 Budget

The Council's 2017/18 budget was agreed by Council on 27<sup>th</sup> February 2017. This included the following headlines for the General Fund revenue budget:

- A Council Tax increase of £5 per year per band D property, for the Council's own purposes, and an indicative increase at the same level for planning purposes in future years.
- A General Fund Budget of £28.015m, excluding parish precepts.

The agreed General Fund net budget for 2017/18 is summarised in the table below:

Description	2017/18 £000s
Service Base Budget	28,517
Savings	(45)
Growth	113
Corporate Budgets	(174)
Contribution to Reserves	649
<b>Net Budget</b>	<b>29,060</b>
Revenue Support Grant	(1,793)
Transition Grant	(24)
Business Rates	(7,595)
New Homes Bonus	(4,229)
Council Tax	(15,035)
Collection Fund Surplus	(384)
<b>Total Funding</b>	<b>(29,060)</b>
<b>Savings to be identified</b>	<b>0</b>

The value of the General Fund Capital Programme for 2017/18 is £20.679m, including £17.770m within the Development Pool. These Development Pool consists of schemes for which either costs need to be firmed up and/or confirmation of funding sources is required. These schemes will be moved from the Development Pool into the approved programme during the year as and when these details are approved by the Capital Programme Board in line with the enhanced governance processes

The table below summarises the General Fund Capital Programme and Funding for 2017/18:

Description	2017/18 £000s
Disabled Facilities Grants	1,475
IT Improvements	150
Town Centre Improvements	367
Block Programmes	800
Other (as detailed in Appendix 6)	117
Development Pool	17,770
<b>Total GF Capital Programme</b>	<b>20,679</b>
Funding Source:	
Borrowing (incl. self-funded)	4,395
Growing Places Fund/ Local Infrastructure Fund	1,000
Capital Receipts	6,679
Revenue and Reserves	487
Grants & Developer Contributions	8,118
<b>Total Funding</b>	<b>20,679</b>

The headlines for the 2017/18 Housing Revenue Account budget are as follows:

- Proposing rent decrease in line with legislation and national rent policy of 1%;
- A HRA budget for 2017/18 of £52.7m expenditure with including invest to save proposals put forward by NPH and reflected in the NPH Management Fee.
- A Total Fee for NPH for the delivery of services over the six fee elements including a Capital Sum.

The HRA Capital Programme has been developed within the context of the 30-year Business Plan and the latest stock condition survey information. The Capital Programme has a direct impact on the revenue position of the HRA. This HRA Capital Programme is summarised below:

Description	2017/18 £000s
<b>Capital Programme 2017-18</b>	
External Improvements	7,470
Internal Works	4,300
Major Projects	8,092
Environmental Improvements	1,775
Structural Works and Compliance	550
Disabled Adaptations	1,300
IT Development	500
New Build / Buy Backs / RTB 141 receipts	11,028
<b>Total HRA Capital Programme</b>	<b>35,014</b>
Funding Source:	
Major Repairs Reserve/Depreciation	13,437
Capital Receipts - Right to Buy (excl 1-4-1)	1,569
Capital Receipts - RTB 1-4-1 Receipts	3,107
Revenue/Earmarked Reserve	8,671
Section 106 - New Build	630
Additional Borrowing Cap re New Build	7,600
<b>Total Funding</b>	<b>35,014</b>

Full details of the Medium Term Financial Plan and the budgets that have been set for 2017/18 can be found on the Council's website here:

<http://www.northamptonboroughcouncil.com/councillors/ieListDocuments.aspx?CId=242&MIId=8162>

### VALUE FOR MONEY STATEMENT

Northampton Borough Council strives to achieve Value for Money (VfM) through:

- Services that are fit for purpose and meeting statutory requirements;
- Cost effective delivery models for services be they provided directly, in partnership or commissioned through a third party;
- An understanding of our costs and what drives them;
- Changes and investment to reduce costs and overheads and improve efficiency and the customer experience; and
- Improved outcomes and value for money for local people through a framework of strategic and local partnerships which cooperate effectively to meet shared goals.

The Council has developed a range of integrated approaches and organisational processes which together help to drive the delivery of VfM:

- An Efficiency Plan and a specific officer board focussed on the delivery of the Efficiency Plan
- Performance Management reporting
- Procurement rules to ensure value for money is met through the Councils procurement of goods and services
- A Governance Action Plan to ensure that proper and effective governance happens in practice at all times.

The Council will continue to maintain the focus on Value for Money whilst striving to achieve its key outcomes.

### FURTHER INFORMATION

For information please contact:

**Glenn Hammons**  
**Chief Finance Officer**  
Northampton Borough Council  
Guildhall  
St Giles Square  
Northampton  
NN1 1DE

You have the right to inspect our accounts each year before the external audit is completed. We advertise the dates during which you can inspect the accounts in the local press. Our accounts are audited by KPMG LLP. They are the auditors appointed by the Audit Commission.

This Statement of Accounts has been prepared in accordance with the requirements of the Code of Practice on Local Authority Accounting in the United Kingdom.

### The Authority's Responsibilities

The Authority is required to:-

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Chief Finance Officer
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets
- Approve the Statement of Accounts

### The Chief Financial Officer

In preparing this Statement of Accounts, the Chief Financial Officer has:

- Kept proper accounting records which were up to date
- Taken reasonable steps for the prevention and detection of fraud and other irregularities
- Selected suitable accounting policies and then applied them consistently
- Made judgements and estimates that were reasonable and prudent
- Complied with the Code of Practice on Local Authority Accounting

### Certificate

I certify that this Statement of Accounts gives a true and fair view of the financial position of the Authority at the reporting date and of its income and expenditure for the year ended 31<sup>st</sup> March 2017.

<b><i>G Hammons</i></b>
<b>Glenn Hammons – Chief Finance Officer (S151)</b>
<b>Date:</b>

### Approval by Audit Committee

I confirm that these audited accounts were approved by the Audit Committee at the meeting held on 27th September'.

<b>Councillor Brian Oldham – Chair of Audit Committee</b>
<b>Date:</b>

A. INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NORTHAMPTON BOROUGH COUNCIL

**D1 MOVEMENT IN RESERVES STATEMENT**

The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Authority's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for Council Tax setting and dwellings rent setting purposes. The Net Increase / Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance and Housing Revenue Account Balance before any discretionary transfers to or from earmarked reserves undertaken by the Council.

The Statement is shown on the next page.

Movement in Reserves Statement	Single Entity Accounts									
	General Fund Balance £000s	Earmarked GF Reserves £000s	Housing Revenue Account £000s	Earmarked HRA Reserves £000s	Major Repairs Reserve £000s	Capital Receipts Reserve £000s	Capital Grants Unapplied £000s	Total Usable Reserves £000s	Total Unusable Reserves £000s	Total Authority Reserves £000s
Balance at 31 March 2015 Brought forward	-5,470	-27,127	-5,000	-19,830	-9,288	-11,972	-5,064	-83,753	-165,894	-249,646

**D2 COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT**

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. This statement does not show in detail the amount of funding from local taxes and general government grants. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Notes to the Core Financial Statements.

The statement is shown on the next page.

**D3 BALANCE SHEET**

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Authority. The net assets of the Authority (assets less liabilities) are matched by the reserves held by the Authority. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Authority may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Authority is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

31st March 2016 £000s	Balance Sheet	31st March 2017 £000s	Notes
548,865	Property, Plant & Equipment	675,244	4

## D4 CASH FLOW STATEMENT

The Cash Flow Statement shows the changes in cash and cash equivalents of the Authority during the reporting period. The statement shows how the Authority generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Authority are funded by way of taxation and grant income or from the recipients of services provided by the Authority. Investing activities represent the extent to which cash outflows have been made for resources, which are intended to contribute to the Authority's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Authority.

2015/16 £000s	Cashflow Statement	2016/17 £000s
9,637	Net Surplus or (deficit) on the provision of services	78,498
26,324	Adjustment to surplus or deficit on the provision of services for noncash movements	-47,370
-8,870	Adjustment for items included in the net surplus or deficit on the provision of services that are investing and financing activities	-4,868
<b>27,091</b>	<b>Net Cashflows from Operating Activities</b>	<b>26,260</b>
-86,476	Net Cashflows from Investing Activities	-13,554
47,662	Net Cashflows from Financing Activities	-7,221
<b>-11,723</b>	<b>Net increase or decrease in cash and cash equivalents</b>	<b>5,485</b>
19,326	Cash and Cash Equivalents at the Beginning of the Reporting Period	7,603
<b>7,603</b>	<b>Cash and Cash Equivalents at the End of the Reporting Period</b>	<b>13,088</b>

## D5a. EXPENDITURE AND FUNDING ANALYSIS (EFA)

The Expenditure and Funding Analysis demonstrates how the funding available to the Council for the year 2016/17 (i.e. government grants, rents, Council Tax and Business Rates) has been used to provide services in comparison with those resources consumed or earned under generally accepted accounting practice (GAAP). The Expenditure and Funding analysis also shows how this expenditure is allocated for decision making purposes between the Council's directorates. Income and expenditure accounted for under GAAP is presented more fully in the Comprehensive Income and Expenditure Statement.

2015/16			EXPENDITURE AND FUNDING ANALYSIS	2016/17

## Notes to Expenditure and Funding Analysis

### Adjustments for Capital purposes

In the service lines this column records adjustments in respect of depreciation, impairment, movements in fair value of investment properties, revenue expenditure funded from capital under statute (REFCUS) and revaluation gains/losses

- For *Other Operating expenditure* – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
- For *Financing and investment income and expenditure* – the statutory charges for capital financing ie Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
- For *Taxation and non-specific grant income and expenditure* – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The Taxation and Non-specific Grant Income and Expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

### Net Change for Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS19 *Employee Benefits* pension related expenditure and income

- For services this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs.
- For *Financing and investment income and expenditure*, the net interest on the defined benefit liability is charged to the CIES.

### Other Adjustments

Other difference between amounts debited/credited to the CIES and amounts payable/receivable to be recognised under statute.

- For services this comprises the accrual made in respect of accumulated absences.
- The charge under *Taxation and non-specific grant income and expenditure* represents the difference between what is chargeable under statutory regulations for Council Tax and NNDR that was projected to be received at the start of the year and the income recognised under generally accepted accounting practices in the Code. This is a timing difference as any difference will be brought forward in future surpluses or deficits on the Collection Fund.

## Expenditure and Income Analysed by Nature

The Authority's expenditure and income is analysed as follows:

2015/16 £'000	Expenditure /Income	2016/17 £'000
	<b>Expenditure</b>	
12,667	Employee Benefits expenses	12,615
205,327	Other Services expenses	234,052
3,506	Support Services Recharges	3,919
21,464	Depreciation, Amortisation, Impairment	-26,149
17,528	Interest Payments	17,866
1,001	Precepts and Levies	1,024
1,091	Payments to Housing Capital Receipts Pool	1,148
-9,209	(Gain)/Loss on disposal of assets	-33,213
<b>253,374</b>	<b>Total Expenditure</b>	<b>211,262</b>
	<b>Income</b>	
-223,000	Fees, Charges and other service income	-245,723
-7,090	Interest and investment income	-9,131
-20,753	Income from council tax and non-domestic rates	-22,705
-12,169	Government Grants and contributions	-12,202
<b>-263,012</b>	<b>Total Income</b>	<b>-289,761</b>
<b>-9,638</b>	<b>Surplus or deficit on the provision of services</b>	<b>-78,499</b>

**1a. MATERIAL ITEMS OF INCOME AND EXPENSE**

For the financial year 2016-17, NBC had three material items of income and expense.

1) The first item relates to a contract to carry out the councils Environmental Services (Waste Collection, Street Cleaning, Parks etc.) The contract cost in relation to this item in 2016/17 was £6.6m (2015/16 £6.6m).

2) The second item relates to the contract with LGSS to cover the majority of the councils back office functions (H.R., Finance, ICT and HR etc.) The contract cost in relation to this item in 2016/17 was £8.0m (2015/16 was £7.59m).

3) The following expenditure on Housing Benefits has also been made:

Rent Allowances of £38m (2015/16 £40.35m)

Rent Rebates of £30.4m (2015/16 £30.99m)

The grant income from DWP in respect of this expenditure is disclosed within Note 38.

**1b. OTHER COMPREHENSIVE INCOME AND EXPENDITURE**

## **General Revenue Grants (Ring-fenced)**

The reserve contains grants which have been received but not spent but which are ring-fenced for a specific purpose in future years.

## **S106 Contributions**

These are developer contributions towards future maintenance and infrastructure costs relating to future growth development across Northampton.

## **Service Related Reserves**

These allow the Council to commit funding to individual projects which may be spread across more than one year.

## **Strategic Investment Reserve**

The Council has set aside funding to support future Invest to Save initiatives and meet strategic priorities. This reserve has strict criteria before monies can be drawn down. The criteria are set out in the Medium Term Financial Plan 2016-21.

## **Service Improvements and one-off Investments**

Used to fund one-off investments leading to improved efficiency and service delivery.

## **Financial Pressures Reserve**

The Council has set aside monies to assist with mitigation of specific risks facing the Council.

## **Insurance Reserve**

This reserve assists the Council in managing its liabilities surrounding future Insurance Claims.

## **Other Technical Reserves**

These reserves are set aside to assist the Council with managing cash flow accounting and new policy, legislative and technical changes across local government. Rates retention deficit funding is set aside to manage the current NNDR Collection Fund deficit.

## **HRA Earmarked Reserves**

These reserves contain amounts specifically set aside to finance HRA projects. The money in these reserves must be used on the Housing Revenue Account.

b) Depreciation

The useful lives and depreciation rates used in the calculation of depreciation are detailed in accounting policy.

c) Revaluations

The Authority carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. All valuations were carried out internally. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture, and equipment are based on current prices where there is an active second-hand market or latest list prices adjusted for the condition of the asset.

The main Housing stock was initially valued by the Beacon Method at April 2000. A rolling programme of revaluation exists whereby approximately 20% of the Housing Stock is revalued each year and the average percentage change established on the revalued properties is then applied to the remaining stock.

The significant assumptions applied in estimating the fair values are:

- Each property has good title
- Each property is not subject to flooding, subsidence, shrinkage, or other such hazards
- The land is not affected in any way by contamination
- Each property is free from structural defect and is in reasonable condition
- Where properties are vacant, the current and future use are the same with no potential redevelopment of the site

### Buildings and Statuary

Historic Buildings that were previously included in Community Assets were valued as part of the five-year rolling programme of valuations undertaken by the Council's internal valuers. Statuary has been valued at market valuations by Art and Antiques Ltd in March 2012.

### Museum Exhibits

Museum Exhibits were valued in March 2010 by Arts and Antiques Ltd for insurance purposes: these valuations are based on market values. Of particular interest is the shoe collection, which is the largest collection of shoe heritage in the world and is designated as being of national importance.

### Mayoral Regalia

These comprise of the chains and pendants of office and were valued in March 2010 by Arts and Antiques Ltd for insurance purposes. These valuations are based on market values.

### Guildhall Artefacts

These are items within the Guildhall such as paintings, clocks, lighting and furniture. Again, they were valued in March 2010 based on market values by Arts and Antiques Ltd for insurance purposes, which is based on market values.

### Enhancements of Heritage Assets

Enhancements on Heritage Assets reflect improvement works undertaken at Delapre Abbey and restorations to various artworks.

**6. INVESTMENT PROPERTIES**

a) The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement:

2015/16 £000s	Investment Properties	2016/17 £000s
473	Rental income from investment property	494
-44	Direct operating expenses arising from investment property	-51
<b>429</b>	<b>Net (gain) / loss</b>	<b>443</b>

There are no restrictions on the Authority’s ability to realise the value inherent in its investment property or on the Authority’s right to the remittance of income and the proceeds of disposal. The Authority has no contractual obligations to purchase, construct, or develop investment property or repairs, maintenance or enhancement.

b) The following table summarises the movement in the fair value of investment properties over the year:

2015/16 £000s	Investment Property Valuations	2016/17 £000s
<b>7,295</b>	<b>Balance at start of the year</b>	<b>6,752</b>
	<b>Additions:</b>	
1	Construction	
-415	Subsequent expenditure	60
-129	Net gains/losses from fair value adjustments	1,245
	<b>Disposals</b>	
	<b>Transfers:</b>	
0	to/from Property, Plant and Equipment	0
<b>6,752</b>	<b>Balance at end of year</b>	<b>8,057</b>

**7. FINANCIAL INSTRUMENTS**

a) Categories of Financial Instruments

The following categories of financial instrument are carried in the Balance Sheet:

Categories of Financial Instruments	Long-Term		Current	
	31 March 2016 £000s	31 March 2017 £000s	31 March 2016 £000s	31 March 2017 £000s
<b>Investments</b>				
Loans and receivables	0	0	45,726	42,667
Available for sale financial assets	0	0	19,626	9,068
<b>Debtors</b>				
Loans and receivables	51,193	50,341	10,450	9,937
<b>Borrowings</b>				
Financial Liabilities at amortised cost	-260,337	-257,558	-7,444	-3,113
<b>Other Long Term Liabilities</b>				
PFI and finance leases	-192	-28	0	0
<b>Creditors</b>				
Financial Liabilities at amortised cost	-10,148	-10,215	-15,125	-16,223

b) Reclassifications

There have been no reclassifications of financial instruments during the year.

c) Income, Expense, Gains, and Losses

2015/16				Income, Expense, Gains and Losses	2016/17			
Financial Liabilities measured at amortised cost £000s	Financial Assets: Loans and Receivables £000s	Financial Assets: Available for Sale £000s	Total £000s		Financial Liabilities measured at amortised cost £000s	Financial Assets: Loans and Receivables £000s	Financial Assets: Available for Sale £000s	Total £000s
7,384	0	0	7,384	8,125	0	0	8,125	
0	0	6	6	0	0	15	15

0	10,219	0	10,219	0	0	0	0	
<b>7,384</b>	<b>11,698</b>	<b>6</b>	<b>19,088</b>	<b>8,125</b>	<b>542</b>	<b>15</b>	<b>8,682</b>	
0	-1,156	0	-1,156		-1,745		-1,745	
0	0	-21	-21			-28	-28	
<b>0</b>	<b>-1,156</b>	<b>-21</b>	<b>-1,177</b>	<b>0</b>	<b>-1,745</b>	<b>-28</b>	<b>-1,773</b>	
<b>7,384</b>	<b>10,542</b>	<b>-15</b>	<b>17,911</b>	<b>8,125</b>	<b>-1,203</b>	<b>-13</b>	<b>6,909</b>	

The Authority did not have any Assets and Liabilities at Fair Value through Profit and Loss for either 2015-16 or 2016-17.

d) Fair Values of Assets and Liabilities

- Items are split according to the following hierarchy.
- Level 1 Inputs – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date.
- Level 2 Inputs – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 Inputs – unobservable inputs for the asset or liability.

There were no transfers between input levels during the financial year.

There has been no change in the valuation technique used during the year for the financial instruments.

**Items Available for Sale or Fair Value through the Profit and Loss**

Some of the authority’s financial assets are measured in the balance sheet at fair value on a recurring basis. These are described in the following table, including the valuation techniques to measure them.

<b>Financial Assets measured at fair value</b>				
<b>Recurring fair value measurements</b>	<b>Input level in fair value hierarchy</b>	<b>Input level in fair value hierarchy</b>	<b>2015/16 £000s</b>	<b>2016/17 £000s</b>
Available for sale - Certificate of deposits	Level 1	Unadjusted quoted prices in active market for identical shares	19,626	9,068
<b>Total</b>			<b>19,626</b>	<b>9,068</b>

The Council held £9.1m in Certificates of Deposit at 31 March 2017. The fair value has been calculated by using published price quotations. The fair value of the assets at 31 March 2017 is marginally higher than the carrying amount at the same date because the Authority's portfolio of investments includes a number of fixed rate investments where the interest receivable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future gain (based on economic conditions at 31 March 2017) attributable to the commitment to receive interest above current market rates.

The Council holds no other available for sale investments.

**Items Disclosed on the Balance Sheet at their Carrying Amount**

Except for the financial assets carried at fair value (described in the table above), all other financial assets and financial liabilities are carried on the balance sheet at amortised cost.

For investments and borrowings not quoted on an active market a Level 1 valuation is not available. To provide a fair value which provides a comparison to the carrying amount, a financial model valuation has been used. This valuation applies the Net Present Value approach, which provides an estimate of the value of payments in the future in today’s terms as at the balance sheet date. Our accounting policy uses new borrowing rates to discount the future cash flows.

Fair value has been assessed by calculating the present value of the cash flows that take place over the remaining life of the instruments (Level 2), using the following assumptions:

**Financial Instruments – Liabilities**

Loans are held with the PWLB, government and market lenders.

- For loans from the PWLB payable, new borrowing rates from the PWLB have been applied to provide the fair value.
- For non-PWLB market loans payable, prevailing market rates have been applied to provide the fair value.
- For non-PWLB government loans payable (HCA, GPF and LIF) made for a specified purpose, the fair value is taken to be the carrying amount as there is no market for such loans.
- For trade creditors, receipts in advance, finance leases and loans of under 12 months the fair value is taken to be the carrying amount.
- No early repayment or impairment is recognised.

Financial Instruments - Liabilities	31 March 2016		31 March 2017	
	Carrying amount £000s	Fair value £000s	Carrying amount £000s	Fair value £000s
<b>Short Term</b>				
Borrowing	-7,444	-7,522	-3,113	-3,229
Creditors & Receipts in Advance	-15,125	-15,125	-16,223	-16,223
<b>Long Term</b>				
Borrowing	-260,337	-285,950	-257,558	-311,010
Creditors & Receipts in Advance	-10,148	-10,148	-10,215	-10,215
Finance Leases	-192	-192	-28	-28
<b>Financial Liabilities</b>	<b>-293,246</b>	<b>-318,937</b>	<b>-287,138</b>	<b>-340,705</b>

The fair value of the liabilities is greater than the carrying amount because the Council’s portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the rates available for similar loans in the market at the balance sheet date. This shows a notional loss (based on economic conditions at 31st March 2017) arising from a commitment to pay interest to lenders above current market rates.

PWLB loans included above have a carrying value of £249.5m and a fair value of £270.8m. This measures the economic effects of the terms agreed with the PWLB compared with estimates of the terms that

would be offered for market transactions undertaken at the Balance Sheet date. The difference between the carrying amount and the fair value measures the additional interest that the authority will pay over the remaining terms of the loans under the agreements with the PWLB, against what would be paid if the loans were at prevailing market rates.

However, as the Debt Management Office provides a transparent approach allowing exit cost to be calculated without undertaking a repayment or transfer it is also appropriate to disclose this exit price. The exit price reflects the fair value of PWLB loans calculated using early redemptions rates instead of new loan rates. If a value is calculated on this basis the carrying amount of £249.5m would be valued at £318.7m.

**Financial Instruments – Assets**

All the financial assets are classed as Loans and Receivables. Investments are held as short term investments, and in Money Market Funds and call and notice accounts.

- For fixed term deposits the fair value has been assessed with reference to a comparable investment with the same/similar lender for the remaining period of the deposit.
- For cash equivalent investments, trade debtors, long term debtors and finance leases the fair value is taken to be the carrying amount.
- No early repayment or impairment is recognised

The fair values are as follows:

<b>Financial Assets measured at fair value</b>				
<b>Recurring fair value measurements</b>	<b>Input level in fair value hierarchy</b>	<b>Input level in fair value hierarchy</b>	<b>2015/16 £000s</b>	<b>2016/17 £000s</b>
Available for sale - Certificate of deposits	Level 1	Unadjusted quoted prices in active market for identical shares	19,626	9,068
<b>Total</b>			<b>19,626</b>	<b>9,068</b>

Financial Instruments - Assets	31 March 2016		31 March 2017	
	Carrying amount	Fair value	Carrying amount	Fair value
	£000s	£000s	£000s	£000s
Loans & Receivables				
<b>Short Term</b>				
Fixed Term Investments	38,122	38,178	29,579	29,596
Cash and Cash Equivalents	7,603	7,612	13,088	13,093
Debtors	10,450	10,450	9,937	9,937
<b>Long Term</b>				
Long Term Debtors	51,093	51,093	50,250	50,250
Finance Leases	100	100	91	91
<b>Loans &amp; Receivables</b>	<b>107,368</b>	<b>107,433</b>	<b>102,944</b>	<b>102,966</b>

The fair value of the assets at 31 March 2017 is marginally higher than the carrying amount at the same date because the Authority's portfolio of investments includes a number of fixed rate investments where the interest receivable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future gain (based on economic conditions at 31 March 2017) attributable to the commitment to receive interest above current market rates.

e) Short Term Borrowing

31 March 2016 £000s	Short Term Borrowing	31 March 2017 £000s

2,863	Maturing in 1-2 years	10,379
50,137	Maturing in 2-5 years	43,673
56,705	Maturing in 5-10 years	30,825
150,631	Maturing in over 10 years	172,681
<b>260,336</b>	<b>Total</b>	<b>257,558</b>

g) Investments

31 March 2016 £000s	Investment Type	31 March 2017 £000s
	<b>Included in Cash and Cash Equivalents</b>	
5,250	Deposit and Call Accounts	250
3,145	Money Market Funds	13,700
<b>8,395</b>	<b>Total - Cash and Cash Equivalents</b>	<b>13,950</b>
	<b>Investments:</b>	
	<b>Current Investments - Under 1 Year</b>	
28,113	Fixed Term Investments	19,572
10,009	Notice Accounts	10,007
	<b>Long Term Investments - Over 1 Year</b>	
0	Fixed Term Investments	
<b>38,122</b>	<b>Total - Investments</b>	<b>29,579</b>
	<b>Available for Sale Financial Instruments:</b>	
	<b>Current Investments - Under 1 Year</b>	
19,626	Fixed Term Investments	9,068
<b>19,626</b>	<b>Total - Available for Sale Financial Instruments</b>	<b>9,068</b>
<b>66,143</b>	<b>Total</b>	<b>52,597</b>

h) Soft Loans

The Council has made loans to Northampton Rugby Football Club (NRFC) to redevelop the Franklins Garden Stadium at the same interest rate as that available to the Council from the Public Works Loans Board (PWLB). These have been assessed as a material soft loan.

The Council made loans to Northampton Town Football Club (NTFC) to redevelop the Sixfields Stadium at the same interest rate as that available to the Council from the Public Works Loans Board (PWLB). These were assessed as material soft loans. During 2015-16 NTFC became unable to continue the interest and principal repayments on the loans. The loan agreement was terminated and as a consequence the outstanding loan balance was impaired. See Narrative Report -Significant Events and note 42 – Impairments for details.

2015/16 £000s	Material Soft Loans	2016/17 £000s
14,153	<b>Balance at 1 April</b>	4,624
0	Nominal value of new loans granted in year	0
0	Fair value adjustment on initial recognition	0
925	Write down of fair value adjustments in year	29
-235	Loans repaid	-220
-10219	Impairment losses	0
<b>4,624</b>	<b>Balance at 31 March</b>	<b>4,433</b>

The interest rate used to calculate the fair value of the soft loans has been arrived at by taking the EU reference rate at the start date of the loan and adding a margin of 400 basis points (4%) to reflect the Council's risk in the loans.

**8. CONSTRUCTION CONTRACTS**

---

In 2016/17, the Council did not have any external construction contracts in progress.

9. DEBTORS

Debtors	Long-term 31 March 2016 £000s	Long-term 31 March 2017 £000s	Short-term 31 March 2016 £000s	Short-term 31 March 2017 £000s

<b>Balance at 31 March 2017</b>	<b>-220</b>	<b>-4,747</b>	<b>-59</b>	<b>-5,025</b>

a) Insurance Provision

The provision covers the following risks: -

- Liability claims under the policy excess arising from 1992/93 onwards.
- Claims under the policy excess on the Council’s own dwellings.
- Claims over the “paid locally” figure but under the excess on the Council’s motor vehicles.
- Death-in-service cover for employees who have council loans for the purchase of cars required for essential purposes.
- Other small miscellaneous items arising from time to time.

External premiums are charged direct to the revenue accounts, as are the costs of the internal Insurance Provision. This provision is reduced as claims are settled.

The estimated cost of outstanding claims is held in the Insurance provision as at 31<sup>st</sup> March 2017; an actuarial forecast of future valid claims made against 2016/17 and before, is held in the Insurance Reserve.

b) Business Rates Appeals Provision

Following the localisation of the Business Rates Retention Scheme, NBC is now liable for the impact of its share of the effects of any appeals against business rates ratings assessments decided by the Valuation Office Agency (VOA), including the effects of any backdating. The provision at 31<sup>st</sup> March 2017 is therefore based on the number of appeals that have been made to the VOA at the balance sheet date, spilt between long-term and short-term, depending on when the appeals are expected to be settled. Disclosure has been made in the Contingent Liabilities note (note 29) for other risks associated with appeals.

This note excludes the Collection Fund provisions for appeals, which are shown in the Collection Fund notes in section G to these Accounts.

**14. USABLE RESERVES**

---

Movements in the Authority’s usable reserves are detailed in the Movement in Reserves Statement and further detail about earmarked reserves is shown in Note 3.

**15. UNUSABLE RESERVES**

---

a) Balances

31 March 2016 £000s	Unusable Reserves	31 March 2017 £000s
-58,760	Revaluation Reserve	-102,055
436	Financial Instruments Adjustment Account	407
-15	Available for Sale Financial Instruments Reserve	-12
-285,695	Capital Adjustment Account	-370,769
-123	Deferred Capital Receipts Reserve	-131
117,919	Pensions Reserve	142,692
-194	Collection Fund Adjustment Account	171
59	Short Term Compensated Absences Account	59
<b>-226,374</b>	<b>Total</b>	<b>-329,638</b>

b) Revaluation Reserve

The Revaluation Reserve contains the gains made by the Authority arising from increases in the value of its Property, Plant and Equipment and Intangible Assets. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2015/16			Revaluation Reserve	2016/17		
General Fund £000s	Housing Revenue Account £000s	TOTAL £000s		General Fund £000s	Housing Revenue Account £000s	TOTAL £000s
-45,146	-6,487	-51,633	Balance at 1 April	-50,021	-8,738	-58,759
-6,507	-3,052	-9,559	Upward Revaluation of assets	-6,095	-39,824	-45,919
763	61	824	Downward Revaluation of assets and impairment losses not charged to the Surplus or Deficit on the Provision of Services	1,665	7	1,672
-5,743	-2,991	-8,734	Surplus or Deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	-4,430	-39,817	-44,247
743	196	939	Difference between fair value depreciation and historical cost depreciation	619	250	869
125	544	669	Accumulated gains on assets sold or scrapped	19	62	82
868	740	1,608	Amounts written off to the Capital Adjustment Account	638	312	951
-50,021	-8,738	-58,759	Balance at 31 March	-53,813	-48,243	-102,055

c) Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account is used to reconcile the accounting treatment of Financial Instruments that has been adopted and the actual charges that must be made under statute.

2015/16 £000s	Financial Instruments Adjustments Account	2016/17 £000s
1,362	Balance as at 1 April	436
0	Transitional Arrangements - Unattached Premia	0
-925	Soft Loans - Statutory Fair Value Adjustments	-29
437	Balance as at 31 March	407

d) Available for Sale Financial Instruments Reserve

The Available for Sale Financial Instruments Reserve contains the gains made by the Authority arising from increases in the value of its investments that have quoted market prices or otherwise do not have fixed or determinable payments. The balance is reduced when investments with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- disposed of and the gains are realised.

2015/16 £000s	Available for Sale Financial Instruments Reserve	2016/17 £000s
-6	Balance as at 1 April	-15
-15	Upward Revaluation of Investments	-12
-21	<b>Surplus or Deficit on revaluation of Investments not posted to the Surplus or Deficit on the Provision of Services</b>	<b>-27</b>
6	Accumulated gains on assets sold and maturing assets written out to the Comprehensive Income and Expenditure as part of Other Investment Income	-15
-15	Balance as at 31 March	-42

e) Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction, or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Authority as finance for the costs of acquisition, construction, and enhancement. The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Authority. The Account also contains revaluation gains accumulated on Property, Plant, and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 2 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

2015/16			Capital Adjustment Account	2016/17		
General Fund £000s	HRA £000s	Total £000s		General Fund £000s	HRA £000s	Total £000s

f) Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of noncurrent assets but for which cash settlement has yet to take place. Under statutory arrangements, the Authority does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

2015/16 £000s	Deferred Capital Receipts Reserve	2016/17 £000s
-146	<b>Balance as at 1 April</b>	-123
0	Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	0
23	Transfer to the Capital Receipts Reserve upon receipt of cash	-9
<b>-123</b>	<b>Balance as at 31 March</b>	<b>-132</b>

g) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Authority accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require a benefit earned to be financed as the Authority makes employer’s contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2015/16 £000s	Pensions Reserve	2016/17 £000s
<b>142,680</b>	<b>Balance as at 1 April</b>	<b>117,919</b>
-25,242	Actuarial gains or losses on pension assets and liabilities	25,299
6,581	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of services in the Comprehensive Income and Expenditure Statement	5,823
-6,096	Employer’s pensions contributions and direct payments to pensioners payable in the year	-6,297
-4	Pension contribution adjustment	-52
<b>117,919</b>	<b>Balance as at 31 March</b>	<b>142,692</b>

h) Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of Council Tax and NNDR income in the Comprehensive Income and Expenditure Statement as it falls due compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2015/16 £000s	Collection Fund Adjustment Account	2016/17 £000s
5,899	<b>Balance as at 1 April</b>	-194
-466	Amounts by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	189
-5,627	Amounts by which NNDR income credited to the Comprehensive Income and Expenditure Statement is different from NNDR income calculated for the year in accordance with statutory requirements	176
<b>-194</b>	<b>Balance as at 31 March</b>	<b>171</b>

i) Unequal Pay Back Pay Account

The Unequal Pay Back Pay Account compensates for the differences between the rate at which the Authority provides for the potential costs of back pay settlements in relation to Equal Pay cases and the ability under statutory provisions to defer the impact on the General Fund Balance until such time as cash might be paid out to claimants. The information available at this time is that any further settlements of Unequal Pay Back Pay are unlikely to be made.

j) Short Term Compensated Absences Account

The Short Term Compensated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2015/16 £000s	Short Term Compensated Absences Account	2016/17 £000s
59	<b>Balance as at 1 April</b>	59
	Movements in year	0
<b>59</b>	<b>Balance as at 31 March</b>	<b>59</b>

16. INTANGIBLE ASSETS

The Authority accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant, and Equipment. The intangible assets include both purchased licenses and internally generated software.

- a) All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Authority. The useful lives assigned to the major software suites used by the Authority are:

Purchased Assets	
£000s	
3 Years	230
5 Years	46
10 Years	20
<b>Total</b>	<b>296</b>

The carrying amount of intangible assets is amortised on a straight-line basis. The amortisation of £435k charged to revenue in 2016/17 was charged to the appropriate cost centres and then absorbed as an overhead across all the service headings in the Net Expenditure of Services where the original service charged was an overhead. It is not, therefore, possible to quantify exactly how much of the amortisation is attributable to each service heading.

b) Movements

2015/16		Intangible Assets	2016/17	
Other Assets £000s	Total £000s		Other Assets £000s	Total £000s

c) Material Items

No item of capitalised software is individually material to the financial statements.

**17. TRADING ACCOUNTS**

The note for this area has been removed in line with the report to Audit Committee 6 March 2017 as not a requirement under the accounting guidelines.

**18. POOLED BUDGETS**

The note for this area has been removed in line with the report to Audit Committee 6 March 2017 as the numbers are not material.

**19. MEMBERS' ALLOWANCES**

The Authority paid the following amounts to members of the Council during the year:

2015/16 £000s	Members' Allowances	2016/17 £000s
	<b>Expenditure</b>	
23	Mayor/Deputy Mayor Allowance	25
404	Members' Allowances	424
<b>427</b>	<b>Total</b>	<b>449</b>

**20. OFFICERS' REMUNERATION**

a) Senior Officers

Position	Position Group	Year	Note	Salary (inc Fees & Allowances) £000s	Compensation for loss of Office £000s	Total Remuneration excl Pension Contributions £000s	Pension Contributions £000s	Total Remuneration inc Pension Contributions £000s

		2015/16		711	0	711	88	799

**Notes:**

1 - Director of Regeneration, Enterprise and Planning left 31 Oct 2016 - Annualised Salary £124k. This post was covered by an Interim until permanent appointment from March 2017.

2 - Head of Economic Development and Regeneration post left 11 July 16 was covered by John Dale on an acting up basis. John was appointed to the Head of Service post from October 2016. The annualised salary is £79K

3 - Head of Finance is employed by NCC and contracted in as part of the wider LGSS contract. The post currently works 3 days per week for NBC

b) Officers paid over £50,000

The Council is required, under the Accounts and Audit Regulations 2003 (regulation 7(2)) to disclose the number of employees whose remuneration was £50,000 or more (excluding employer's pension contributions). This is shown in bands of £5,000 in the table below:

Note: Senior Officers earning in excess of £50k have been excluded from this note as they are disclosed within Note 36a (Senior Officers).

2015/16 No. of Employees	Remuneration Band	2016/17 No. of Employees
3	£50,000 - £54,999	4
0	£55,000 - £59,999	0
0	£60,000 - £64,999	0

c) Exit Packages

Exit Package cost band (including special payments)	Number of compulsory redundancies		Number of other agreed departures		Total Number of exit packages by cost band		Total cost of exit packages in each band (£000s)	
	2015/16	2016/17	2015/16	2016/17	2015/16	2016/17	2015/16	2016/17

**21. EXTERNAL AUDIT COSTS**

The Authority has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Authority’s external auditors:

2015/16 £000s	External Audit Costs	2016/17 £000s
98	* Fees payable with regard to external audit services carried out by the appointed auditor (Section 5 Audit Commission Act 1998)	81
11	Fees payable for the certification of Grant Claims and Returns (Section 28 Audit Commission Act 1998)	19
4	Fees payable in respect of other services provided by the appointed auditor	4
54	**Fees payable for dealing with Elector objection	
<b>167</b>	<b>Total</b>	<b>104</b>

\*The 2015/16 external audit scale fees have been updated in relation to extra fees regarding additional work linked to the 2015/16 audit

\*\*The 2015/16 figures have been updated to reflect additional audit work on dealing with an Elector objection, £2,000 of which relates to external legal advice obtained by the external auditors

22. GRANT INCOME

The Authority credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2016/17:

2015/16 £000s	Grant Income	2016/17 £000s
	<b>Credited to Taxation and Non-Specific Grant Income</b>	
-4,944	Revenue Support Grant	-3,256
-141	Council tax freeze grant	0
-3,836	New Homes Bonus	-4,910
-1,769	Delapre Abbey Restoration	-1,228
0	Local Growth Fund - Vulcan Works	-125
0	Princess Marina - Residential Standard Charge	-1,218
0	Land at Banbury Lane, Pineham - Standard Charge	-120
335	Princess Marina S106 - transfer to Receipts in Advance	0
-287	Other Grants Individually Less Than £100,000	-349
<b>-10,642</b>	<b>Total</b>	<b>-11,206</b>
	<b>Credited to Services</b>	
-183	Additional Housing Admin. Grant	-221
-1,277	Housing Benefit Admin. Grant	-1,135
-30,637	HRA Rent Rebates Grant	-28,693
-773	Non HRA Rent Rebates	-879
-39,814	Rent Allowance Grant	-37,526
0	EU Referendum Cost Reimbursement	-317
0	Police & Crime Commissioner Election	-287
-219	Property Searches New Burdens Payment	-61
-316	Discretionary Housing Payments	-398
-264	Section 106 Contributions	-148
-2,389	Northamptonshire County Council Recycling Credits	-2,531
-166	Northampton County Council Contribution for Grounds Maintenance	-166
-98	Joint Planning Unit Contribution	-102
-93	Total of Other Grants not included in the above	-266
<b>-76,229</b>	<b>Total</b>	<b>-72,730</b>

The Authority has received a number of grants, contributions, and donations that have yet to be recognised as income as they have conditions attached to them that will require the monies or property to be returned to the giver. The balances at the year-end are as follows:

Current Liabilities

2015/16 £000s	Grant Income Unapplied - Current Liabilities	2016/17 £000s
	<b>Capital Grants Receipts in Advance</b>

<b>10,148</b>	<b>Total - all Receipts in Advance</b>	<b>10,216</b>

**23. RELATED PARTIES**

The Council is required to disclose material transactions with related parties, bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to access the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party’s ability to bargain freely with Council.

**Central Government**

Central Government has effective control over the general operations of the Council. It is responsible for providing the statutory framework within which the Council operates and provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. housing benefits). Grants received from government departments are set in Note 31 Amounts Reported for Resource Allocation Decisions. Any amounts outstanding are reported in Note 38 Grant Income.

**Northampton Partnership Homes**

Northampton Partnership Homes is a fully owned subsidiary of The Council, and is incorporated on the group accounts which are shown alongside the core financial statements. Northampton Partnership Homes was incorporated on the 30th April 2014 and commenced trading on the 5th January 2015. Northampton Partnership Homes is an Arm’s Length Management Organisation that is wholly owned by the Council, but which has its own board of Directors. It is a company Limited by Guarantee (CLG) and is a not for profit organisation. Further information on Northampton Partnership Homes and details of transactions can be found in the Group Accounts section.

**Members of the Council**

Members of the Council have direct control over the Council’s financial and operating policies. The total of members’ allowances paid in 2016/17 is shown in Note 35.

During 2016/17 expenditure to the value of £1.7m (2015/16 £1.8m) was paid or granted to parties where members had an interest or where they serve as a nominated representative on the outside body. Income to the value of £0.2m (restated 2015/16 £0.4m) was receivable from these parties. Parties with transactions over £200k are shown below:

2015/16 £000s	Related Parties - Expenditure	2016/17 £000s
214	Northampton Leisure Trust	22
427	Northampton Theatres Trust	353
382	Brackmills Bid	325
253	Northampton Town Centre Bid	314
	Delapre Abbey Preservation Trust	
198	<b>Revenue</b>	237
	<b>Capital</b>	202

At 31st March 2017, the outstanding balances with these parties were debtors of £53k (2015/16 £148k); creditors of £36k (2015/16 £215k).

Contracts were entered into in full compliance with the Council's standing orders and all grants were made with proper consideration of declarations of interests. The relevant members did not take part in any discussions or decisions that involved their disclosed interests. The Register of Members' Interest is open to public inspection at The Guildhall, Northampton during office hours and is available on the Council's website.

A number of the Members of Northampton Borough Council are also members of Northamptonshire County Council. Material transactions with Northamptonshire County Council have been disclosed elsewhere in the accounts, see Notes 22 and 28.

Additionally, a number of Members are also Parish Councillors within the district of Northampton Borough Council. As above, these members did not take part in discussions related to these bodies.

One Member is also on the South East Midlands Local Enterprise Partnership (SEMLEP) Board. SEMLEP is the economic development partnership for the South East Midlands, a company operated jointly by the public and private sectors. SEMLEP is the lead body for the Enterprise Zone, administered by NBC. Additionally, SEMLEP is the accountable body (through Luton Borough Council, the administering body) for payments from DCLG's Growing Places Fund. NBC took out a £6.6m Growing Places Fund loan in 2014/15.

NBC is working in partnership with the Delapre Abbey Preservation Trust (DAPT) in regards to the Delapre Abbey Restoration Project, and has a member on the DAPT Board of Trustees. In 2016/17 NBC paid across to DAPT £138k (2015/16 £12k) as part of a £150k NBC start up grant, £100k grant payment to assist with delays and cash flow, and £202k in capital grants (2015/16 Nil) in relation to parts of the Abbey restoration project being delivered by DAPT. In 2015/16, NBC paid across to DAPT £198k (2016/17 Nil) in relation to forward funding of HLF grant monies for activity and other revenue project costs which will be funded from the HLF grant.

## **Senior Officers of the Council**

During 2016/17 the only disclosures made by Senior Officers were in relation to roles at other Local Authority bodies, namely:

- 1) Northamptonshire County Council (see above within Members disclosures for reference of material transactions disclosed with NCC elsewhere in the accounts)
- 2) East Northamptonshire District Council (see 'Other Public Bodies' below)

### Other Public Bodies

In 2013/14 the Council transferred the majority of its support services to LGSS, a Partnership established by the County Councils of Northamptonshire and Cambridgeshire, where NBC is an Added Value Partner. Following this transfer, an NBC member is now a representative on the LGSS Panel.

The Chief Financial Officer (Section 151 Officer) for NBC is also contracted from LGSS, who is shared on a part-time basis with East Northamptonshire District Council.

The Council is also involved in a number of joint working initiatives across the county with various other Local Authorities, for instance the Joint Planning Unit and Waste Management Partnership. In this capacity, a number of NBC Members have representations on their running boards. None of these relationships are considered material to either party involved both in terms of the value of transactions or the potential for the authority to control or influence NBC's actions to materially affect transactions or balances.

## **24. CAPITAL EXPENDITURE AND CAPITAL FINANCING**

---

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI/PP contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Authority, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Authority that has yet to be financed. The CFR is analysed in the second part of this note.

2015/16 £000s	Capital Expenditure and Financing	2016/17 £000s
251,229	<b>Opening Capital Financing Requirement</b>	299,903
	<b>Capital Investment</b>	
39,773	Property, Plant & Equipment	33,733
2,971	Heritage Assets	3,620
1	Investment Properties	60
100	Intangible Assets	9
3,502	Revenue Expenditure Funded from Capital under Statute	3,919
46,300	Loans to third parties	0
<b>92,647</b>	<b>Total</b>	<b>41,341</b>
	<b>Sources of Finance</b>	
-5,468	Capital Receipts	-5,256
-948	Sums set aside from Capital Receipts	0
-2,878	Government Grants and Other Contributions	-5,488
-1,262	Sums Set aside from Revenue	-1,299
-265	Write Down of Third Party Loans	-515
-33,152	Direct Revenue contributions	-25,871
<b>-43,973</b>	<b>Total</b>	<b>-38,429</b>
<b>299,903</b>	<b>Closing Capital Financing Requirement</b>	<b>302,815</b>

2015/16 £000s	Capital Financing Requirement	2016/17 £000s
251,229	<b>Opening Capital Financing Requirement</b>	299,903
48,674	Increase in underlying need to borrow (unsupported by government financial assistance)	2,912

<b>299,903</b>	<b>Closing Capital Financing Requirement</b>	<b>302,815</b>

## 25. LEASES

Authority as LesseeFinance Leases

- a) The Council has a number of assets that are required to be treated as finance leases under IFRS accounting rules. These include recycling equipment, IT software and a specialist vehicle. The assets acquired under these leases are carried in the Balance Sheet at the following net amounts:

31 March 2016 £000s	Local Authority as Lessee - Finance Leases	31 March 2017 £000s
157	Vehicles, Plant, Furniture and Equipment	100
191	Intangible Fixed Assets	121
<b>348</b>	<b>Total</b>	<b>221</b>

- b) The Authority is committed to making minimum payments under these leases comprising settlement of the long term liability for the interest in the property acquired by the Authority and finance costs that will be payable by the Authority in future years while the liability remains outstanding. The present value of the leases and the future minimum lease payments at the balance sheet date are as follows:

31 March 2016 £000s	Local Authority as Lessee - Finance Leases	31 March 2017 £000s
	<b>Future minimum lease payments</b>	
166	Vehicles, Plant, Furniture and Equipment	107
203	Intangible Fixed Assets	131
<b>369</b>	<b>Future minimum lease payments</b>	<b>238</b>
	<b>Net present value of minimum lease payments</b>	
156	Current	127
192	Non-current	100
<b>348</b>	<b>Present value of minimum lease payments</b>	<b>227</b>
<b>21</b>	<b>Finance costs payable in future years</b>	<b>11</b>

- c) The present value of the leases and the minimum lease payments at the balance sheet date split over the over future periods are as follows:

31-Mar-16		Local Authority as Lessee - Finance Leases	31-Mar-17	
Present Value of Leases £000s	Minimum Lease Payments £000s		Present Value of Leases £000s	Minimum Lease Payments £000s
156	170	Not later than one year	127	136
192	199	Later than one year and not later than five years	100	102
<b>348</b>	<b>369</b>	<b>Total</b>	<b>227</b>	<b>238</b>

- d) The Council has no sub leases required to be treated as finance leases

Operating Leases

- e) The Council leases IT equipment, gym equipment and vehicles financed under the terms of operating leases. The future minimum lease payments due under non-cancellable leases in future years are:

The authority sub-leases housing contract hire vehicles to the Northampton Partnership Homes (NPH) for the provision of housing services.

31 March 2016 £000s	Local Authority as Lessee - Operating Leases	31 March 2017 £000s
509	Not later than one year	500
218	Later than one year and not later than five years	180
0	Later than 5 years	0
<b>727</b>	<b>Minimum lease payments</b>	<b>680</b>
<b>-632</b>	<b>Future minimum sub-lease payments receivable</b>	<b>-632</b>

- f) Charges to revenue

The expenditure charged to the Council's Comprehensive Income and Expenditure Statement during the year in relation to operating leases was:

2015/16 £000s	Local Authority as Lessee - Operating Leases	2016/17 £000s
	<b>Minimum lease payments</b>	
510	Contract Hire	453
23	Other	23
-375	Sublease payments receivable	-429
<b>158</b>	<b>Total</b>	<b>47</b>

### Authority as Lessor

#### Finance Leases

- g) The authority has two lessor property leases that have been assessed as finance leases.

The gross investment in the leases and the minimum lease payments receivable at the balance sheet date are as follows:

31 March 2016 £000s	Leases - Authority as Lessor - Finance Leases	31 March 2017 £000s
	<b>Gross investment in leases</b>	
158	Other Land and Buildings	141
	<b>Net present value of minimum lease payments</b>	
8	Current	9
100	Non-current	91
<b>108</b>	<b>Present value of minimum lease payments receivable</b>	<b>100</b>
<b>50</b>	<b>Unearned finance income</b>	<b>41</b>

- h) The gross investment in the leases and the minimum lease payments receivable at the balance sheet date split over the future periods are as follows:

31 March 2016		Leases - Authority as Lessor - Finance Leases	31 March 2017	
Gross investment in leases £000s	NPV of minimum Lease payments receivable £000s		Gross investment in leases £000s	NPV of minimum Lease payments receivable £000s
17	8	Not later than one year	17	9
69	41	Later than one year and not later than five years	69	44
72	59	Later than five years	55	46
<b>158</b>	<b>108</b>	<b>Minimum lease payments receivable</b>	<b>141</b>	<b>99</b>

In respect of pre-existing leases as at 31 March 2010 the Authority has adopted the mitigation contained in The Local Authorities (Capital Finance and Accounting) (Amendment) (England) Regulations 2010.

### Operating Leases

- i) Periods

The Authority leases out property under operating leases for the following purposes:

- The provision of other land and buildings including shops and industrial units to meet local demand for commercial premises.

- The provision of community assets to meet residents' community needs.
- To provide infrastructure enabling current and future construction to service local demand for housing and commercial property.

The future minimum lease payments receivable under non-cancellable leases in future years are:

31 March 2016 £000s	Local Authority as Lessor - Operating Leases - Minimum Lease Payments	31 March 2017 £000s
2,353	Not later than one year	2,267
6,631	Later than one year and not later than five years	6,172
47,422	Later than 5 years	46,089
<b>56,406</b>	<b>Total</b>	<b>54,528</b>

The minimum lease payments receivable do not include rents that are contingent on future events, such as adjustments following rent reviews.

**Note:** Assets provided under operating leases, where the Council is lessor, have been included in the Council's disclosures on owned assets.

**26. IMPAIRMENT LOSSES**

---

No assets were impaired during 2016/17.

During 2015/16 assets impaired relates to a loan to Northampton Town Football Club (NTFC).

The outstanding value of the loan of £10.22m was impaired within the 2015/16 Statement of Accounts and is shown within Corporate and Democratic Core on the face of the CIES statement.

However there is no impact on the General Fund balance as the original loan was capital in nature, and therefore has been reversed through the Movement in Reserves Statement to the Capital Adjustment Account. This has been done in line with proper accounting practices.

**27. TERMINATION BENEFITS**

---

There were no material or significant termination benefits paid in 2016/17 as set out in note 20c.

**28. DEFINED BENEFIT PENSION SCHEMES**

---

**Participation in Pension Schemes:**

As part of the terms and conditions of employment of its officers, the Authority makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Authority has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Authority participates in one post-employment scheme: The Local Government Pension Scheme, administered locally by Northamptonshire County Council. This is a funded defined benefit final salary scheme, meaning that the Authority and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with investment assets.

## Transactions Relating to Post-employment Benefits:

We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against Council Tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

Local Government Pension Scheme 2015/16 £000s	Comprehensive Income and Expenditure Statement	Local Government Pension Scheme 2016/17 £000s
	<b>COST OF SERVICE:</b>	
	<b>Service cost comprising:</b>	
2,069	Current service cost	1,778
10	Past service cost (including curtailments)	0
0	Gain from settlements	0
-4	Pension contribution adjustment	-52
	<b>Financing and Investment Income and Expenditure</b>	
4,502	Net interest expense	4,045
<b>6,577</b>	<b>Total Post-employment Benefits charged to the Surplus or Deficit on the Provision of Services</b>	<b>5,771</b>
	<b>OTHER POST-EMPLOYMENT BENEFITS CHARGED TO THE COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT:</b>	
	<b>Remeasurement of the net defined benefit liability comprising:</b>

<sub>1</sub> All scheme assets have quoted prices in active markets

<sub>2</sub> The risks relating to assets in the scheme are also analysed by company size below:

**Basis for Estimating Assets and Liabilities**

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels etc.

Both the Local Government Pension Scheme and discretionary benefits liabilities have been estimated by Hymans Robertson, an independent firm of actuaries, estimates for the County Council Fund being based on the latest full valuation of the scheme as at 1 April 2013.

The significant assumptions used by the actuary have been:

	Local Government Pension Scheme		Discretionary Benefits Arrangements*	
	2015/16 £000s	2016/17 £000s	2015/16 £000s	2016/17 £000s
<b>Mortality Assumptions</b>				
<b>Longevity at 65 for Current Pensioners:</b>				
Men	22.3	22.1		
Women	24.3	24.2		
<b>Longevity at 65 for Future Pensioners:</b>				
Men	24	23.9	-	-
Women	26.6	26.1	-	-
<b>Other:</b>				
Rate of Increase in Pensions	2%	2%	-	-
Rate of Increase in Salaries **	4%	3%	-	-
Rate for Discounting Scheme Liabilities	4%	3%	-	-

\*Where provided by The Actuary, the split between LGPS and Discretionary Benefits Arrangements has been disclosed.

\*\* Salary Increases are assumed to be 1% p.a. until 31 March 2016 reverting to the long term assumption shown.

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Change in assumptions at 31 March 2017:	Approximate increase to Employer Liability %	Approximate Monetary Amount £000s
0.5% decrease in Real Discount Rate	8%	27,729
0.5% increase in the salary increase rate	1%	2,147
0.5% increase in the Pension Increase Rate	7%	25,314

### **Asset and Liability Matching (ALM) Strategy**

The pensions committee of Northamptonshire County Council has agreed to an asset and liability matching strategy (ALM) that matches, to the extent possible, the types of asset invested to the liabilities in the defined benefit obligation. The fund has matched assets to the pensions' obligations by investing in long-term fixed interest securities and index linked gilt edged investment with maturities that match the benefits payments as they fall due. This is balanced with a need to maintain the liquidity of the fund to ensure that it is able to make current payments. As is required by the pensions and (where relevant) investment regulations the suitability of various types of investment have been considered, as has the need to diversify investments to reduce the risk of being invested in too narrow a range. A large proportion of the assets relate to equities (71% of scheme assets) and bonds (18%). These percentages are materially the same as the comparative year. The scheme also invests in properties as a part of the diversification of the scheme's investments.

### **Impact on the Authority's Cash Flows**

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The County Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 20 years. Funding levels are monitored on an annual basis. The next triennial valuation is due to be completed on 31 March 2019.

The scheme will need to take account of the national changes to the scheme under the Public Pensions Services Act 2013. Under the Act, the Local Government Pension Scheme in England and Wales and the other main existing public service schemes may not provide benefits in relation to service after 31 March 2014 (or service after 31 March 2015 for other main existing public service pension schemes in England and Wales).

The Act provides for scheme regulations to be made within a common framework, to establish new career average revalued earnings schemes to pay pensions and other benefits to certain public servants.

## 29. CONTINGENT LIABILITIES

---

The Council is potentially liable for the following:

### Northampton Partnership Homes

- As set out in the explanatory forward and Group Accounts, NBC set up an Arm's Length Management Organisation on 5th January 2015, Northampton Partnership Homes (NPH). NPH is a company limited by guarantee, and as such, NBC is liable for all losses experienced by NPH, and is also the guarantor for NPH's pension liabilities. See Group Accounts for disclosure of the financial performance of NPH in 2016/17.

### Business Rates

- Following new Local Authority funding arrangements for Business Rates in April 2013, NBC now assumes a proportion of the liability for refunding businesses who appeal to the Valuation Office (VO) against the rateable value of their properties.
- The VO published a list of appeals outstanding up to 31st March 2017 in April 17. Estimates for these appeals that had been lodged and their success judged to be probable under IAS 37 have been provided for, see note 13.
- The estimated value of appeals within NBC's billing authority borders that had been lodged but their success deemed only possible as per IAS 37 totalled £15m. These therefore constitute a contingent liability, with NBC's share (40%) of these appeals being £5.9m.
- Additionally, it is possible that other appeals will be lodged by businesses in the future against rateable values. As the value and timing of these appeals by their nature cannot be known, it is necessary to recognise this as a contingent liability.
- The VOA have advised that Virgin Media intend to withdraw their appeal relating to the proposal to merge the Virgin Media network, that appears in councils rating lists countrywide, into a single national assessment, appearing from 1 April 2010. However this remains as a Contingent Liability until the VOA advises this has happened. The rateable value (RV) in relation to Virgin Media within NBC's billing authority borders is £0.9m. If this proposal is approved, this could see the removal of the full £0.9m RV from NBC's rating list, which equates to approximately £0.4m in net rates per annum. If backdated, this would have a negative impact of £3.0m, with NBC's share (40%) of this being £1.2m.

### Other – various

- A capital grant received from the East Midland Development Agency (EMDA) for site clearance of the Blueberry Diner. The grant was awarded on condition of scheme completion within a fixed time period and, due to that time period not having been complied with, up to the full amount of the grant of £0.2m may be clawed back by EMDA. However, although no formal agreement is currently in place, the Council has been in positive discussions with HCA over agreeing variations to the original terms and been agreeable to extension of time for development to be completed. HCA is making endeavours to secure a development partner for this site and is keeping EMDA fully updated of the progress. To date they have continued to be supportive. It is unlikely for this funding will need to be returned and is disclosed as a contingency only.

- The Council has received Deposits under Section 106 agreements, which may be repayable if the conditions for each agreement are not met. No provision has been made in the Accounts for any interest that may become repayable under the terms of the individual agreements. In the event that every one of these deposits becomes repayable with interest, the Council's maximum liability for interest payable as at 31st March 2017 is estimated to be £0.7m.
- Financial guarantee for Home Group - a Housing Association. Under the 1987 (Bond issue) "Under the 1987 [bond issue] Home Group raised finance to carry out development in a number of local authority areas. In so doing they entered into arrangements with local authorities for the purchase of land in return for nomination rights over 50% of the properties constructed. In addition the local authorities agreed to indemnify bond holders against a fixed percentage of indebtedness under the bonds incurred by Home Group. Home Group in turn gave a counter indemnity to the said local authorities in the same amount. Thus, for so long as Home Group remains solvent, there is no practical likelihood of a claim under the indemnity being made against a participant local authority. The NBC proportion is 1.35% of £82.5m representing a value of £1.1m
- A capital grant has been agreed by the Heritage Lottery Fund to part fund the Delapre Abbey, which is now substantially completed. Non-compliance with the grant funding conditions could trigger clawback of funds to the HLF. These grant conditions are monitored by Council Project Officers.
- There are a number of outstanding insurance claims that have been received of £1.27m as assessed by our Insurance Actuary. These have been assessed and an estimated provision has been charged to the accounts of £0.25m, therefore the estimated value of the insurance claims outstanding is £1.03m.
- The council's environmental services contractor has a number of disputes with NBC that it has indicated it will pursue in court.
- There are a number of other contingent liabilities totalling £358k covering small claims, property search claims and employment tribunal claims that are considered insignificant.
- HR claims for NPH employees which if go to tribunal, could cost £158,000.
- Errors, anomalies and poor record keeping have been identified in the administration of the Council's Empty Homes Scheme (2012-14). The amount of money that the Council can expect to recover from the property owners will need to be recalculated. In many cases, this will result in the Owners financial obligation reducing.

### 30. CONTINGENT ASSETS

---

The Council is currently monitoring the following contingent assets:

- Northampton Waterside Enterprise Zone is funded from Business Rates uplift within its boundaries. Expenditure relating to administration and infrastructure loan costs has exceeded income receipts from business rates uplift, these sums will be reimbursed when the income from the projects exceeds expenditure. To date, the value to be reimbursed from Business rates uplift totals £2.049m.
- NBC have lodged a court claim for money lent to Northampton Town Football club, and is expected to issue further claims in the future.

- Historic costs associated with the redevelopment of Grosvenor/Greyfriars may be reimbursed by the developer depending on agreement of contract terms and the timing of that agreement. The expectation is in the region of £0.1m.
- There is an obligation upon National Grid (NG) (owners of property) to pay to NBC part of monies advanced by WNDG to NG for remediation of land. Payment due to NBC by 2019 or on sale of the land affected estimated at £0.75m.
- Upon completion of works by NBC, obligation on Reef Estates Limited to pay "Highways Contribution" to NBC of approximately £0.1m.

## 31. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

---

The Council's activities expose it to a variety of financial risks:

- **Credit risk** – the possibility that other parties might fail to pay amounts due to the Authority;
- **Liquidity risk** – the possibility that the Authority might not have funds available to meet its commitments to make payments; and
- **Market risk** – the possibility that financial loss might arise for the Authority as a result of changes in interest rates and stock market movements.

The Council's risk management processes consider the unpredictability of financial markets and seek to minimise potential adverse effects on the resources available to fund services. The Local Government Act 2003 places a statutory duty on the Council to have regard to guidance issued or specified by the Secretary of State. This guidance includes the CIPFA Treasury Management Code of Practice. Treasury risk management is undertaken by the LGSS treasury team under policies approved by the Council in its Treasury Management Policy Statement, Treasury Management Practices and accompanying Schedules and the annual Treasury Management Strategy. These contain overall principles for risk management and specific risks which include credit and counterparty risk, liquidity risk, interest rate risk, exchange rate risk, refinancing risk, legal and regulatory risk, and market risk.

### Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures from the Authority's customers.

The risk exposure from investment counterparties is minimised through policies and procedures set out in the Council's Treasury Management Practices and accompanying Schedules and its Annual Investment Strategy. These require that deposits are not made with financial institutions unless they meet identified minimum credit criteria that include, but is not entirely dependent on, external credit ratings, including sovereign ratings.

The Annual Investment Strategy also imposes value and investment period limits for each category of approved counterparty. The maximum limits for placements with individual or group counterparties in 2016-17 were £20m and 3 years for the UK government and UK nationalised or part nationalised banking institutions, £15m and 3 years for other UK counterparties and overseas counterparties with AAA sovereign ratings, £15m for AAA CNAV Money Market Funds and £10m and 3 years for UK local authorities and overseas counterparties with AA+ sovereign rating. Within this ceiling, lower limits apply in many instances depending on credit ratings and other factors specific to each institution.

Due to the nature of its business, the Council does not assess operational customers for credit worthiness and does not set credit limits on customers. In relation to mortgages, the Authority holds an equity stake in each relevant property as collateral against the mortgage outstanding. There are also certain exceptional circumstances under which the Council has placed a charge on a property as collateral against a specific debt. Business customers are not given individual credit limits.

To support local economic regeneration the Council has made third party loans to local organisations. Assessment of the credit risk to the authority from the loans is undertaken as part of the due diligence work.

In 2015-16 the Council experienced default on a loan to a third party - see Narrative Report -Significant Events and note 42 – Impairments. Due to the individual circumstances of this default this does not in itself increase the likelihood of default on other third party loans.

The Council's maximum exposure to credit risk in relation to its investments totalling £52.6m in banks, building societies and other institutions cannot be assessed generally as the risk of any counterparty failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Council's deposits, but there was no evidence at 31 March 2017 that this was likely to crystallise.

The following analysis summarises the Council's potential maximum exposure to credit risk based on experience of default and uncollectability over the last five to six financial years adjusted to reflect current market conditions.

Estimated Maximum Exposure to Default and Uncollectability at 31 March 2016 £000s	Credit Risk	Amount at 31 March 2017 £000s	Historical Experience of Default at 31 March 2017 %	Historical Experience Adjusted for Market Conditions at 31 March 2017 %	Estimated Maximum Exposure to Default and Uncollectability at 31 March 2017 £000s
0	Third Party Loans	50,235	0.00%	0.00	0
0	Mortgages	15	0.00%	0.00	0
0	Finance Leases	99	0.00%	0.00	0
54	Customers: Tenants	2,255	2.44%	2.44%	55
1,292	Customers: Sundry Debtors	6,736	23.06%	23.06%	1,553
0	Deposits with Banks and Financial Institutions	52,597	0.00%	0.00	0
<b>1,346</b>	<b>Total</b>	<b>111,938</b>			<b>1,608</b>

No credit limits were exceeded during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits. The Council held no investments in the form of bonds during 2016-17.

With the exception of third party loans and mortgagees, the Council does not generally allow credit for its customers.

As shown in Table 1, at 31st March there were outstanding loans to third parties of £50.2m. Such loans, by their nature, do carry a degree of risk. However all are secured according to the terms of the individual loan agreement.

Of the £111.9m total exposure to credit risk £9.0m is past its due date for payment. The past due, but not impaired, amount can be analysed by age as follows:

Amount at 31 March 2016 £000s	Aged Debt Analysis	Amount at 31 March 2017 £000s
4,640	Less than three months	4,439
1,433	Three to six months	961
239	Six months to one year	140
838	More than one year	3,452
<b>7,150</b>	<b>Total</b>	<b>8,992</b>

Impairment on the debtor’s financial asset has been identified, standing at a total of £8.42m at the end of 2016-17

**Collateral**

The authority holds collateral against a number of mortgages. The balance sheet value of the principal amount outstanding is currently £15k (£15k in 2015-16). The terms and conditions relating to the pledge are standard in all the mortgages held and set out the rights and responsibilities of the Council and the mortgage holder

All loans made by the Council to third parties are secured according to the terms of each individual loan agreement.

**Liquidity Risk**

The Council has a comprehensive cash flow management system in place that seeks to ensure that cash is available as needed. In the event of unexpected movements to the downside, the Council has ready access to borrowings from the money markets and (for capital expenditure purposes) from the Public Works Loan Board (PWLb). There is no significant risk that the Council will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that the authority will be bound to replenish a significant proportion of its borrowings at a time of unfavourable interest rates. The strategy is to manage loans that are due to mature within any rolling three-year period through a

combination of careful planning of new loans taken out and (where it is economic to do so) making early repayments.

The maturity analysis of financial liabilities is as follows:

31 March 2016 £000s	Maturity Profiles of Financial Liabilities	31 March 2017 £000s
-22,570	Less than one year	-19,336
-13,175	One to two years	-20,623
-50,166	Two to five years	-43,673
-207,336	More than five years	-203,506
<b>-293,247</b>	<b>Total</b>	<b>-287,138</b>

Amounts maturing within one year include short term creditors, short term grants and Section 106 funding commitments, short term borrowing, principal due within 12 months on annuity and EIP (Equal Interest Instalment) loans, and long term loans maturing within the next 12 months. PWLB loans totalling £5m are due for maturity during 2017-18. Repayment of these will be funded from internal borrowing, new loans, or a combination of both. Longer term maturities consist of long term debt (including finance leases), and long term grants and Section 106 funding.

**Market Risk**

Interest Rate Risk

The authority is exposed to significant risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the authority. For example a rise in interest rates would have the following effects:

- Borrowing at variable rates – the interest expense charged to the Surplus or Deficit on the Provision of Services will rise;
- Borrowing at fixed rates – the fair value of the liabilities will fall;
- Investment at variable rates – the interest income credited to the Surplus or Deficit on the Provision of Services will rise;
- Investments at fixed rates – the fair value of the assets will fall.

Borrowings are not carried at fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in Other Comprehensive Income and Expenditure.

The authority has a number of strategies for managing interest rate risk. For example, during periods of falling interest rates and where economic circumstances make it favourable, fixed rate loans may be repaid early to limit exposure to losses.

The Council has an active strategy for assessing interest rate exposure that feeds into the setting of the annual budget and which is used to update the budget during the year. This allows any adverse changes

to be accommodated. The analysis will also advise whether new borrowing taken out is fixed or variable.

According to this assessment strategy, at 31 March 2017, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

31 March 2016 £000s	Market Risk	31 March 2017 £000s
93	Increase in interest payable on variable rate borrowing	3
-242	Increase in interest receivable on variable rate investments	-317
<b>-149</b>	<b>Impact on Surplus or Deficit on the Provision of Services</b>	<b>-314</b>
31	Share of overall impact credited to the HRA	116
<b>-118</b>	<b>Impact remaining on General Fund</b>	<b>-198</b>
256	Increase in fair value of fixed rate investment assets	137
<b>256</b>	<b>Impact on Other Comprehensive Income and Expenditure</b>	<b>137</b>
<b>156</b>	<b>Decrease in fair value of fixed rate borrowings liabilities (no impact on the surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)</b>	<b>236</b>

The impact of a 1% fall in interest rates would be as above but with the movements being reversed.

**Price Risk**

The authority does not invest in equity shares and therefore has no exposure to loss arising from movements in share prices.

**Foreign Exchange Risk**

The authority has no financial assets or liabilities denominated in foreign currencies and therefore has no exposure to loss arising from movements in exchange rates.

### 32. HERITAGE ASSETS – 5 YEAR SUMMARY OF TRANSACTIONS

---

Paragraph 4.10.4.5 of the Code of Practice on Local Authority Accounting requires the disclosure of Heritage Assets acquired through purchase and donation, and disposed of, over the last five years. It also allows for this information not to be given for any period prior to 1 April 2010 where it is not practicable. This is the case for Northampton Borough Council.

There was a large collecting programme of trainers to enhance the shoe collection between April 2009 and April 2012. This amounted to £75k for which the museum was given a purchase grant by the Heritage Lottery Fund. Since 1 April 2012 a number of shoes, social and military history artefacts, archaeology and art works have been donated to the museum the aggregate value of which is less than £3k. There were two significant donations of artworks in 2014. Local artist Peter Newcombe donated twelve framed and glazed pictures depicting John Clare 'Shepherd's Calendar' in medium of pen, wash and other media, with a valuation of £50k. The second major donation was of an oil painting 'And Then the Comet Came and Changed All Things' by Roberta Booth (1947-2014), with a valuation of £7k.

There have been two disposals from the collections which have realised a financial return. In March 2011, a collection of mounted natural history specimens sold at auction for £52k, which has been taken to be its carrying value at the time. In July 2014 an Egyptian statue was sold at auction for £14m, with NBC receiving £8.239m payment from the sale.

### 33. HERITAGE ASSETS – COLLECTIONS AND POLICIES

---

#### Collections

##### 1. Designated Shoe Collection

The collection of shoes and related objects from the industry is recognised by Arts Council England as a Designated Collection of national and international importance. The Shoe Collection is the largest collection of shoe heritage and related shoe industry objects in the world. The Shoe Collection began purely as a collection of footwear, however, over the years this has developed into a collection including over 12,000 shoes and covering the whole of the footwear industry worldwide. In total the collection contains over 60,000 objects and can be analysed into the following subdivisions: Footwear, Machinery, Tools, Lasts, Patterns and Material associated with the selling of shoes, Polish, Shoe Trees and other items used in the care of shoes, including shoe repairing, Factory Furniture and Fittings, Overshoes, Spats, Gaiters, Ice Skates and other items worn with shoes (excluding hosiery), Objects shaped like shoes and depicting shoes, Archival material including catalogues, photographs and trade magazines and Prints and paintings of shoes and shoemakers.

##### 2. Archaeology Collection

For over a century, Northampton Museums has collected archaeological material. The majority of archaeological material now coming to light in the county is the product of contract excavations in advance of development. Significant collections include Bronze Age pottery, Iron Age finds from Hunsbury, Roman finds from Duston and Irchester, pottery, weapons and jewellery from Anglo-Saxon cemeteries and many other objects were first collected in the 19th century. This set the scene for collecting and through excavations and fieldwork this has carried on ever since. There is a Numismatic Collection of about 12,000 items, principally locally found Roman, English Medieval and later coins and tokens. Particular strengths are the coins from Northampton Mint, and a large number of Northamptonshire tokens and checks. There is also a collection of approximately 800 medals relating to local people, clubs or societies. There is a small Ancient Egyptian collection of approximately 250 items.

### **3. Art Collection**

The greater part of the fine art collection consists of British easel paintings and works on paper, from the 19th and 20th centuries. The collection's greatest strength lies in landscapes and portraits, topographical works and graphic art from 1960-2000. The collection has strong representation from local, professional artists, some of whom have been recognised nationally and are often linked to the 100 year old Town & County Art Society. The non-British pictures include an important group of 15th to 18th century Italian paintings - works of high quality by secondary masters, particularly from the Venetian School, most of which were consciously collected between 1967 and 1987 as a result of a former policy which sought to concentrate purchases in this one area of the collection. At present there are approximately 2,700 items in the Art Collection which fall into the following categories: Watercolours, Drawings, Prints (contemporary), Mixed Media (excluding drawings), and Sculpture.

### **4. Decorative Art**

The current collection encompasses ceramics, glassware, and metal ware. The great areas of strength are the fine collections of British and Oriental ceramics given early in the 20th century by five private collectors. There are approximately 4,100 items in the decorative art collection (excluding furniture): Ceramics – British (and some Continental and North African), Glass – British (and some Irish), Metalwork, Enamels, and Oriental Collections (ceramics, bronzes and miscellaneous).

### **5. Ethnography**

The ethnographic collection consists of about 300 historic (not contemporary) objects from India, China and Japan, Africa, North America and. Many objects were purchased in the early to mid-20th century to enhance the displays at Abington Museum or acquired as the result of local collecting as well as some casual donations.

### **6. Geology**

A substantial number of Geological items were given to the Museum in the forty years following its founding in 1866, principally by the Third and Fourth Marquesses of Northampton and Beeby Thompson. The collection consists of about 40,000 items of which 75% are Northamptonshire Jurassic finds. The remaining 25% consists of fossils from outside the county, and a worldwide mineral collection.

### **7. Natural History**

The small Natural History Collection consists of a few mounted specimens and small collections of birds' eggs.

### **8. Social History**

In general, the Social History collection covers historical material post 1600 to the present that does not fall within another collection and includes fashion and costume. – The collection covers community life including civic affairs, working life, and the full range of personal and domestic life material.

### **9. Northamptonshire Regiment and Yeomanry**

Northampton Borough Council is the sole trustee for the Northamptonshire Regimental Museum and Northamptonshire Yeomanry Regimental Museum Trust. The collecting for these collections will follow

the inherent themes for regimental collections – reflecting both the military and civilian aspects of the Regiments impact.

**Policies**

The Council maintains a record of its heritage assets within its asset register supplemented by the detailed records held by the relevant departments.

Some museum heritage assets are on display at the Authority’s two museums; while others are held at secure locations in storage e.g. while awaiting conservation work. Access to the civic regalia is limited to appropriate occasions, such as the use of the mace and mayor’s chain at Council meetings. The statues, buildings, and similar heritage assets are largely accessible to the public to view in the parks and public places of Northampton.

**34. CASH FLOW STATEMENT – OPERATING ACTIVITIES**

The cash flows for operating activities include the following items:

2015/16 £000s	Operating Activities	2016/17 £000s
11,245	Depreciation	12,885
(9,339)	Impairment and downward valuations	(68,231)
10,219	Impairment of long term debtors	0
326	Amortisation	595
(2,052)	Increase/(decrease) in creditors	1,861
5,567	Increase/(decrease) in debtors	-949
25	Increase/(decrease) in inventories	8
481	Movement in pension liability	-334
7,648	Carrying amount of non-current assets and non-current assets held for sale, sold or derecognised	7,021
0	Movement in provisions	945
2,204	Other non-cash items charged to the net surplus or deficit on the provision of services	(1,170)
<b>26,324</b>	<b>Total</b>	<b>(47,370)</b>

The surplus or deficit on the provision of services has been adjusted for the following items that are investing and financing activities:

2015/16 £000s	Items removed from net cost of service that are investing/financing activities	2016/17 £000s
-6,463	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	-9,119
-2,407	Any other items for which the cash effects are investing or financing cash flows	4,251
<b>-8,870</b>	<b>Total</b>	<b>-4,868</b>

35. CASH FLOW STATEMENT – OPERATING ACTIVITIES (INTEREST)

2015/16 £000s	Operating Activities (Interest)	2016/17 £000s
1,077	Interest Received	1,745
-7,201	Interest Paid	-8,125
<b>-6,124</b>	<b>Total</b>	<b>-6,380</b>

36. CASH FLOW STATEMENT – INVESTING ACTIVITIES

2015/16 £000s	Cash Flows from Investing Activities	2016/17 £000s
-40,058	Purchase of Property, Plant and Equipment, investment property and intangible assets	-37,422
0	Purchase of Available for Sale Financial Instruments	-19,000
-57,500	Purchase of short and long term investments	-27,000
-46,300	Other payments for investing activities	0
6,486	Proceeds from the sale of property plant and equipment, investment property and intangible assets	9,119
45,500	Proceeds from short-term and long-term investments	35,500
0	Proceeds from Available for Sale Financial Instruments	29,500
0	Capital Grants Received	-4,251
5,396	Other Receipts from Investing Activities	0
<b>-86,476</b>	<b>Total Cash Flows from Investing Activities</b>	<b>-13,554</b>

37. CASH FLOW STATEMENT – FINANCING ACTIVITIES

2015/16 £000s	Cash Flows from Financing Activities	2016/17 £000s
57,823	Cash receipts of short and long term borrowing	45
-3	Billing Authorities - Council Tax and NNDR adjustments	0
-14,142	Repayment of Short-Term and Long-Term Borrowing	-7,175
-155	Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	-92
4,139	Other items in relation to financing activities	0
<b>47,662</b>	<b>Total Cash Flows from Financing Activities</b>	<b>-7,221</b>

**F1. HOUSING REVENUE ACCOUNT INCOME AND EXPENDITURE**

The Housing Revenue Account (HRA) summarises the transactions relating to the provision, maintenance, and sale of Council houses and flats. The account has to be self-financing and there is a legal prohibition on cross subsidy to or from local taxpayers.

2015/16 £000s	Housing Revenue Account	2016/17	
		£000s	£000s
	<b>Income</b>		
-51,414	Dwelling Rents	-50,455	
-1,165	Non Dwelling Rents	-1,094

	Pensions interest cost and expected return on pensions assets		2
5			
0	Non Specific Grant Income		0
	Surplus or deficit on revaluation of noncurrent assets		-4,745
-2,991	Surplus (-) or Deficit for the year on HRA services		
<b>-22,979</b>	<b>Surplus (-) or Deficit for the year on HRA services</b>		<b>-34,602</b>

**F2. MOVEMENT IN HOUSING REVENUE ACCOUNT RESERVE**

The Income and Expenditure Account shows the Council's actual financial performance for the year, measured in terms of the resources consumed and generated over the last twelve months. However, the Authority is required to account for the net costs of Council Housing in a different way.

This statement below and the detailed reconciling items on the following page summarise the differences between the outturn on the HRA Income and Expenditure Account and the Housing Revenue Account Balance.

2015/16 £000s	Statement of Movements on the Housing Revenue Account Balance	2016/17 £000s
-22,978	Surplus (-) / Deficit for the year on the HRA Income and Expenditure Account	-34,602
22,978	Net additional amount required by statute to be debited or credited to the HRA Balance for the year	34,602
<b>0</b>	<b>Increase (-) / Decrease in the HRA Balance for the Year</b>	<b>0</b>
-5,000	HRA Balance brought forward	-5,000
<b>-5,000</b>	<b>HRA Balance carried forward</b>	<b>-5,000</b>

## DETAILED TRANSACTIONS

## F3. NOTES TO THE HRA

## 1. PRIOR YEAR ADJUSTMENTS

There are no prior year adjustments in relation to the Housing Revenue Account in 2016/17.

## 2. HRA ASSETS AND CAPITAL TRANSACTIONS

- a) At 31<sup>st</sup> March 2017 the Council was responsible for managing 11650 units of accommodation (excluding shared ownership properties):

Type of Property	Number of Bedrooms				Total
	One	Two	Three	Four+	
Flats-Low Rise	1,419	384	2	1	1,806
Flats-Medium Rise	1,726	822	117	4	2,669
Flats-High Rise	396	82	21	0	499
Houses & Bungalows	885	2,455	3,012	324	6,676
<b>Total</b>	<b>4,426</b>	<b>3,743</b>	<b>3,152</b>	<b>329</b>	<b>11,650</b>

- b) The movement in housing stock can be summarised as follows:

Type of Property	Stock at 01 April 2016	Stock Movements			Stock at 31 March 2017
		Sold	Additions	Re-classified	
Flats	5,020	-32	16	0	5,004
Houses & Bungalows	6,764	-93	0	-25	6,646
<b>Dwellings (excl. Shared)</b>	<b>11,784</b>	<b>-125</b>	<b>16</b>	<b>-25</b>	<b>11,650</b>
Shared Ownership	79	-2	0	0	77
<b>Total</b>	<b>11,863</b>	<b>-127</b>	<b>16</b>	<b>-25</b>	<b>11,727</b>

c) The gross balance sheet value of housing assets at 31<sup>st</sup> March was as follows:

Restated 31 March 2016 £000s	Net Balance Sheet Value	31 March 2017 £000s
	<b>Operational Assets</b>	
126,375	Land	140,556
295,470	Dwellings	319,371
20,758	Other Capital Assets	20,140
<b>442,603</b>	<b>Total Operational Assets</b>	<b>480,067</b>
355	Non Operational Assets	1,575
<b>442,958</b>	<b>Total</b>	<b>481,641</b>

d) Capital Receipts

2015/16 £000s	Housing Capital Receipts	2016/17 £000s
0	Land Sales	0
-5,009	Dwelling Sales	-7,411
<b>-5,009</b>	<b>Total</b>	<b>-7,411</b>
1,091	Payable to the Secretary of State	1,148
<b>1,091</b>	<b>Net cost of Payments to CLG</b>	<b>1,148</b>
<b>-3,918</b>	<b>Useable Capital Receipts</b>	<b>-6,263</b>

e) Capital Expenditure and Financing

2015/16 £000s	HRA Capital Expenditure and Financing	2016/17 £000s
	<b>Expenditure</b>	
0	Land Purchase	0
33,114	Dwellings	27,509
557	Re-Purchase of Former Council Housing	1,470
22	Other Property	11
0	Self Financing	0
<b>33,693</b>	<b>Total Expenditure</b>	<b>28,990</b>
	<b>Financing</b>	
	Dwellings	
0	Borrowing	50
2,371	Useable Capital Receipts	4,418
9,424	Revenue Contributions	11,514
21,898	Major Repairs Reserve	13,008
0	Grants	0
0	Third Party Contributions	0
<b>33,693</b>	<b>Total Financing</b>	<b>28,990</b>
	<b>Other Property</b>	
0	Useable Capital Receipts	0
0	Major Repairs Reserve	0
<b>0</b>	<b>Total Other Property</b>	<b>0</b>
<b>33,693</b>	<b>Total Financing</b>	<b>28,990</b>

**3 ARREARS**

During 2016/17, arrears as a proportion of gross income was 3.7%. This represents an increase of 0.1% since 2015/16 when the proportion was 3.6%. The figures for rent arrears are detailed below

2015/16 £000s	Rent Arrears	2016/17 £000s
1,863	Gross Arrears at 31 March	1,882
-739	Prepayments	-1,057
<b>1,124</b>	<b>Net Arrears at 31 March</b>	<b>825</b>
813	Provision for bad debts at 31 March	798

#### 4. VACANT POSSESSION VALUE

2015/16 £000s	HRA Vacant Possession Value	2016/17 £000s
1,069,605	Vacant Possession Value as at 31st March	1,198,395

2015/16 £000s	HRA Existing Use	2016/17 £000s
363,972	Existing Use Value as at 31st March	407,806

The vacant possession value of dwellings within the HRA as at 31st March 2017 was £1,198m (£1,029m in 2015/16). For the balance sheet, the figure has been reduced to 34% of this value for all except a small number of specific properties. This reflects the economic cost of providing Council housing at less than open market rents.

#### 5. DEPRECIATION, AMORTISATION, IMPAIRMENT, AND REVALUATION OF NON CURRENT ASSETS

##### a) Depreciation and Amortisation

2015/16 £000s	Depreciation and Amortisation	2016/17 £000s
	<b>Operational Assets</b>	
8,308	Dwellings	10,273
371	Other Property	1,947
1	Vehicles, Plant & Equipment	336
<b>8,680</b>	<b>Total Depreciation</b>	<b>12,556</b>
184	Intangible Assets -amortisation	260
<b>184</b>	<b>Total Amortisation</b>	<b>260</b>
<b>8,864</b>	<b>Total</b>	<b>12,816</b>

b) Revaluation Gains and Losses

2015/16			2016/17	
I&E £,000	RRA £,000		I&E £,000	RRA £,000
13,536	20	Dwellings	22,340	23,164
271	41	Other Property	0	0
<b>0</b>	<b>0</b>	<b>Vehicles, Plant &amp; Equipment</b>	<b>0</b>	<b>0</b>
13,806	61	<b>Revaluation Losses</b>	22,340	23,164
-23,830	-786	Dwellings	-54,173	-58,245
-225	-2,266	Other Property	-3	-368
0	0	Vehicles, Plant & Equipment	0	0
-24,055	-3,052	Revaluation Gains	-54,176	-58,613
<b>-10,249</b>	<b>-2,991</b>	<b>Total</b>	<b>-31,836</b>	<b>-35,449</b>

## 6. MAJOR REPAIRS RESERVE

Authorities are required to maintain a Major Repairs Reserve (MRR). The MRR has two functions; the first is to act as a credit entry for the cost of depreciation on Council dwellings. The second is to hold unused balances of the notional Major Repairs Allowance (MRA), which can be used in future years. The notional MRA is as used in the self-financing valuation and represents the estimated annual cost of maintaining an Authority's stock at its existing level.

Council dwellings depreciation is not the same as the MRA; therefore an adjustment is required to ensure there is no bottom line impact on the HRA. This is known as the Capital asset charges accounting adjustment. The transactions on the MRR are detailed below:

Major Repairs Reserve	£000s
<b>Balance at 1 April 2016</b>	<b>0</b>
Council Dwellings Depreciation	-10,688
Depreciation adjustment to agree to MRA	-2,332
<b>Total</b>	<b>-13,020</b>
<b>Amount used to finance Capital Expenditure</b>	
Dwellings	13,008
<b>Total</b>	<b>13,008</b>
<b>Balance at 31 March 2017</b>	<b>-12</b>

## G1. COLLECTION FUND INCOME AND EXPENDITURE ACCOUNT

The Council has a statutory requirement to operate a Collection Fund as a separate account to the General Fund. The purpose of the Collection Fund is to isolate the income and expenditure relating to Council Tax and National Non-Domestic Business Rates. The administrative costs associated with the collection process are charged to the General Fund.

Collection Fund surpluses/deficits declared by the Billing Authority in relation to Council Tax are apportioned to the relevant precepting bodies in the subsequent financial year. For NBC, the Council Tax precepting bodies are Northamptonshire County Council and Northamptonshire Police and Crime Commissioner.

In 2013/14, the Local Government finance regime was revised with the introduction of the retained business rates scheme. The main aim of the scheme is to give Councils a greater incentive to grow businesses in the Borough. It does, however, also increase the financial risk to the authority due to non-collection and the volatility of the NNDR tax base.

The scheme allows the Council to retain a proportion of the total NNDR received. The initial Northampton Borough Council share is 40% with the remainder paid to precepting bodies. For NBC, the NNDR precepting bodies are Central Government (50% share) and Northamptonshire County Council (10% share). The NBC share is then subject to a tariff payment to Government, which was £33m in 2016/17 (£32.7m in 2015/16). The residual amount is then compared to the assessment in the Local Government Finance Settlement and any growth above the Settlement level is subject to a levy payment to Government.

NNDR surpluses/deficits declared by the Billing Authority in relation to the Collection Fund are apportioned to the relevant precepting bodies and Government in the subsequent financial in their respective proportions.

The Code of Practice followed by Local Authorities in England stipulates that a Collection Fund Income and Expenditure account is included in the Council's accounts. The Collection Fund balance sheet meanwhile is incorporated into the Council's consolidated balance sheet.

The statement on the next page shows the statutory transactions relating to this fund.

2015/16 Council Tax £000s	2015/16 NNDR £000s	2015/16 Total £000s	Collection Fund	2016/17 Council Tax £000s	2016/17 NNDR £000s	2016/17 Total £000s	Note

## G2. NOTES TO THE COLLECTION FUND

## 1. NATIONAL NON DOMESTIC RATES (NNDR)

The total non-domestic rateable value as at 31 March 2017 was £241.2m and the equivalent figure for 2015/16 was £244.8m. The National Non-Domestic Rate multiplier for 2016/17 was 49.7.p and the equivalent figure for 2015/16 was 49.3p. The small business non-domestic rating multiplier for 2016/17 was 48.4p and the equivalent figure for 2015/16 was 48.0p.

## 2. COUNCIL TAX

The Council's tax base, i.e. the number of chargeable dwellings in each valuation band (adjusted for dwellings where discounts apply) converted to an equivalent number of band D dwellings for 2012/13, was calculated as follows: -

2015/16 Band D Equivalents	Band	Estimated number of taxable properties 2016/17 after discounts	Ratio	2016/17 Band D Equivalents
19.84	A(-)	36.67	5/9	20.37
12,851.85	A	20,689.82	6/9	13,793.22
12,667.43	B	16,927.71	7/9	13,166.00
17,221.20	C	20,072.76	8/9	17,842.45
9,362.49	D	9,693.29	9/9	9,693.29
6,246.42	E	5,167.18	11/9	6,315.44
3,261.97	F	2,309.05	13/9	3,335.30
1,977.01	G	1,205.55	15/9	2,009.25
102.50	H	52.38	18/9	104.75
63,710.71	Gross Council Tax Base			66,280.06
1,783.90	Non-collection provision			1,922.10
<b>61,927</b>	<b>Council Tax Base Used for setting the Precept</b>			<b>64,358</b>

The provision for non-collection was set at 2.7% for 2016/17 (2.8% for 2015/16).

**3. ANALYSIS OF IN-YEAR CONTRIBUTIONS TO FUND DEFICITS**

---

2015/16 £000s	Allocation Of Collection Fund Surplus Council Tax	2016/17 £000s
466	Northamptonshire County Council	2,541
88	Northamptonshire Police & Crime Commissioner	478
100	Northampton Borough Council	533
<b>653</b>	<b>Total Surplus paid out</b>	<b>3,552</b>

2015/16 £000s	In Year Contribution to Deficit NNDR	2016/17 £000s
-7,469	Central Government	206
-1,494	Northamptonshire County Council	41
-5,975	Northampton Borough Council	165
<b>-14,938</b>	<b>Total Deficit Recovered</b>	<b>412</b>

**4. PROVISION FOR BAD AND DOUBTFUL DEBTS**

---

2015/16 £000s	Provision for Bad and Doubtful Debts Council Tax	2016/17 £000s
10,441	Bad Debt Provision B/fwd	9,987
-840	Write Offs	-775
-54	Council tax benefit transferred to reserve	-38
440	Provision Made in Year	836
<b>9,987</b>	<b>Bad Debt Provision c/fwd</b>	<b>10,010</b>

The Collection Fund now also provides for Bad debts on NNDR arrears:

2015/16 £000s	Bad and Doubtful Debts NNDR	2016/17 £000s
675	Bad Debt Provision B/fwd	579
-312	Write offs of uncollectible debt	-580
216	Allowance for non collection	620
<b>579</b>	<b>Bad Debt Provision c/fwd</b>	<b>620</b>
0	Amounts written off in year not charged to provision	0

The Collection Fund account also provides for provisions for appeals against the rateable valuation set by the Valuation Office Agency (VOA) not settled as at 31<sup>st</sup> March 2017:

2015/16 £000s	Provision for Appeals	2016/17 £000s
4,053	Appeals Provision B/fwd	9,652
-1,723	Amounts used in year	-2,445
7,322	Additional provisions made	4,660
<b>9,652</b>	<b>Appeals Provision c/fwd</b>	<b>11,867</b>

In order to provide a full picture of the Council's economic activities and financial position, the accounting statements of the Council and Northampton Partnership Homes have been consolidated. The Group Accounts are presented in addition to the Council's "single entity" financial statements, and comprise:

- Group Comprehensive Income and Expenditure Statement
- Group Balance Sheet
- Group Movement in Reserves Statement
- Group Cash Flow Statement

These statements are set out on the following pages, together with accompanying disclosure notes. Disclosure notes have only been restated in the group accounts section where they are materially different from those of the Council's single entity accounts.

Northampton Partnership Homes was incorporated on the 30th April 2014 and commenced trading on the 5th January 2015. Northampton Partnership Homes is an Arm's Length Management Organisation that is wholly owned by the Council, but which has its own board of Directors. It is a company Limited by Guarantee (CLG) and is a not for profit organisation.

Northampton Partnership Homes is a subsidiary of Northampton Borough Council for accounting purposes, and have been consolidated into the Council's group accounts.

## H1. GROUP ACCOUNTS CORE STATEMENTS

### Group Movement in Reserves Statement

The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Group's services, more details of which are shown in the Group Comprehensive Income and Expenditure Statement. These are different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for Council Tax setting and dwellings rent setting purposes.

The Statement is shown on the next page:

Group Movement in Reserves Statement	Single Entity Usable Reserves	Single Entity Unusable Reserves	Total Single Entity Reserves	Authority share of reserves of subsidiary	Total Group Reserves

		<b>-46,706</b>	<b>TOTAL COMPREHENSIVE INCOME AND EXPENDITURE</b>			<b>-94,542</b>

**Group Balance Sheet**

The Group Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Group. The net assets of the Group (assets less liabilities) are matched by the reserves held by the Group. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Group may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Group is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

31st March 2016 £000s	Group Balance Sheet	31st March 2017 £000s
548,867	Property, Plant & Equipment	675,245
32,364	Heritage Assets	35,893

<b>281,042</b>	<b>Total Reserves</b>	<b>376,585</b>

### Group Cash Flow Statement

The Group Cash Flow Statement shows the changes in cash and cash equivalents of the Group during the reporting period. The statement shows how the Group generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Group are funded by way of taxation and grant income or from the recipients of services provided by the Group. Investing activities represent the extent to which cash outflows have been made for resources, which are intended to contribute to the Group's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Group.

2015/16 £000s	Group Cash Flow Statement	2016/17 £000s
9,630	Net Surplus or (deficit) on the provision of services	78,681
20,199	Adjustment to surplus or deficit on the provision of services for noncash movements	-47,405
-8,870	Adjust for items included in the net surplus or deficit on the provision of services that are investing and financing activities	-4,868
<b>20,959</b>	<b>Net Cash flows from operating activities</b>	<b>26,408</b>
-86,478	Net Cash flows from Investing Activities	-13,554
47,662	Net Cash flows from Financing Activities	-7,222
<b>-17,856</b>	<b>Net increase or decrease in cash and cash equivalents</b>	<b>5,632</b>
26,539	Cash and cash equivalents at the beginning of the reporting period	8,683
<b>8,683</b>	<b>Cash and cash equivalents at the end of the reporting period</b>	<b>14,315</b>

## H2. NOTES TO THE GROUP ACCOUNTS

### 1. Group Boundary

Northampton Partnership Homes was incorporated on the 30th April 2014 and commenced trading on the 5th January 2015. Northampton Partnership Homes is an Arm's Length Management Organisation that is wholly owned by the Council, but which has its own board of Directors. It is a company Limited by Guarantee (CLG) and is a not for profit organisation.

Northampton Partnership Homes is a subsidiary of Northampton Borough Council for accounting purposes, and have been consolidated into the Council's group accounts.

### 2. Intra Group Transactions

During 2016/17 the Council made payments of £53.483m to Northampton Partnership Homes (£57.601m in 2015/16). During 2016/17 the Council received payments of £5.055m from Northampton Partnership Homes (£6.472m in 2015/16). At 31st March 2017 there was a debtor balance of £2.939m (£3.220m in 2015/16), and a creditor balance of £5.757m (£7.011m in 2015/16) with Northampton Partnership Homes.

### 3. Basis of consolidation

The financial statements of Northampton Partnership Homes have been consolidated with those of the Council on a line by line basis; which has eliminated in full balances, transactions, income and expenses between the Council and Northampton Partnership Homes.

### 4. Business activities of Northampton Partnership Homes

Northampton Partnership Homes is responsible for the following services:

- Lettings
- Repairs and maintenance
- Housing management including dealing with anti-social behaviour
- Tenancy support
- Tenant involvement

### 5. Accounting Policies

In preparing the Group Accounts the Council has aligned the accounting policies of Northampton Partnership Homes with those of the Council.

## 6. Corporation Tax

Northampton Partnership Homes has received confirmation from HMRC that their commercial service provision activities with Northampton Borough Council are deemed to be non-trading in nature and hence do not attract Corporation Tax.

The tax currently payable is based on taxable profit for the year from activities with parties other than the Council and relate principally to the generation of interest income from balances.

## 7. Group Cash Flow Statement – Operating Activities

2015/16 £000s		2016/17 £000s
11,245	Depreciation	12,885

<b>-86,478</b>	<b>Net cash flows from investing activities</b>	<b>-13,554</b>

### 10. Group Cash Flow Statement – Financing Activities

2015/16 £000s		2016/17 £000s
57,823	Cash receipts of short- and long-term borrowing	45
-3	Billing Authorities - Council Tax and NNDR adjustments	0
-155	Cash payments for the reduction of outstanding liabilities relating to finance leases and on-Balance-Sheet PFI contracts	-92
-14,142	Repayments of short- and long-term borrowing	-7,175
4,139	Other payments for financing activities	0
<b>47,662</b>	<b>Net cash flows from financing activities</b>	<b>-7,222</b>

### 11. Group Defined Benefit Pension Scheme

Northampton Partnership Homes is a fully owned subsidiary of Northampton Borough Council therefore details of the Northampton Partnership Homes pension scheme need to be combined with the Northampton Borough Pension scheme to give an understanding of the group pension scheme. Full details of the Northampton Borough Council pension scheme are in note 28 to the core financial statements.

Northampton Partnership Homes is a member of the Local Government Pension Scheme administered by Northamptonshire County Council. This is a funded defined benefit scheme which provides index linked retirement benefits to employees who choose to join.

The scheme was opened on 5th January 2015 when employees of Northampton Partnership Homes Ltd transferred from Northampton Borough Council under Transfer of Undertakings (Protection of Employment) (TUPE). At the time of admission the Company scheme was fully funded under the actuarial valuation assumptions made. However the figures presented in these financial statements are reported under the requirements of IAS19, which are prepared on a different basis to the actuarial valuation.

The following tables give details of the pension assets and liabilities for the Group, including Northampton Borough Council and Northampton Partnership Homes.

**The following transactions have been made in the group comprehensive income and expenditure statement and the general fund balance via the group movement in reserves statement during the year:**

	2015/16	2016/17
<b>Cost of Service</b>	<b>£000s</b>	<b>£000s</b>
Current service cost	3,834	3,608
Past service cost (including curtailments)	10	0
Gain from settlements	0	0
Pension contribution adjustment	-4	-52
net interest expense	5,003	4,477
<b>Total post-employment benefits charged to the surplus or deficit on the provision of services</b>	<b>8,843</b>	<b>8,033</b>
<b>Other post-employment benefits charged to the comprehensive income and expenditure statement</b>		
Return on plan assets (excluding the amount included in the net interest expense)	4,218	36,568
Actuarial gains and losses arising on changes in demographic assumptions	0	3,241
Actuarial gains and losses arising on changes in financial assumptions	-26,834	-45,815
Other expenditure	-5,724	-17,208
<b>Total post-employment benefits charged to the comprehensive income and expenditure statement</b>	<b>-19,497</b>	<b>-15,181</b>
<b>Movement in reserves statement</b>		
Reversal of net charges made to the surplus or deficit on the provision of services for post-employment benefits in accordance with the code	18,661	-31,122
Employers contributions payable to the scheme	6,096	6,297

**Reconciliation of the movements in fair value of scheme assets:**

	2015/16	2016/17
	£000s	£000s
<b>Opening fair value of scheme assets</b>	<b>174,877</b>	<b>173,444</b>
Interest income	5,560	6,036
Return on plan assets excluding the amount included in the net interest expense	-4,218	41,952
Contributions from employer	8,340	8,818
Contributions from employees into the scheme	847	934
Benefits paid	-11,962	-12,152
Assets distributed in settlements	0	0
<b>Closing fair value of scheme assets</b>	<b>173,444</b>	<b>219,032</b>

**Reconciliation of the movements in the present value of the defined benefit obligation:**

	2015/16	2016/17
	£000s	£000s
<b>Opening present value of scheme liabilities</b>	<b>332,950</b>	<b>303,683</b>
Current service cost	3,834	3,608
Interest cost	10,563	10,513
Contribution from scheme participants	847	733
Actuarial gains/losses arising from changes in demographic assumptions	0	-3,503
Actuarial gains/losses arising from changes in financial assumptions	-26,835	55,629
Actuarial gains/losses arising from other experience	-5,723	17,210
Past service cost	10	0
Benefits paid	-11,962	-11,951
Liabilities extinguished on settlements	0	0
<b>Closing present value of scheme liabilities</b>	<b>303,684</b>	<b>375,922</b>

## Fair value of plan assets:

All	3,281	5,235
<b>Total</b>	<b>174,396</b>	<b>219,033</b>

## 12. Group External Audit Costs

Fees payable for external audit services across the Group are detailed below:

Group Auditor Fees	2015/16	2016/17
	£000s	£000s
Northampton Borough Council Auditor Fees	120	104
Northampton Partnership Homes Auditor Fees	21	27
<b>Total Group Auditor Fees</b>	<b>139</b>	<b>131</b>

## I. GLOSSARY OF TERMS

### **Accruals**

The accruals concept requires that the cost or benefit of a transaction is shown in the period to which the goods or services are received or provided, rather than when the cash is paid or received.

### **Actuary**

An independent and appropriately qualified adviser who carries out statutorily required pension fund valuations.

### **Actuarial Basis**

The estimation technique applied when estimating the liabilities to be recognised for defined benefit pension schemes in the financial statements of an organisation.

### **Actuarial Valuation**

An actuary undertakes valuations by checking what a pension scheme's assets are worth compared to its liabilities. The actuary then works out how much needs to be paid into the scheme by the employer and the members to make sure that there will be enough money to pay the pensions when they are due.

### **Admitted Bodies**

Voluntary and charitable bodies whose staff can become members of the Local Government Pension Scheme subject to certain terms and conditions and other organisations to whom Local Government employees have been transferred under the outsourcing of Local Government services.

### **Amortisation**

The process of reducing the value of an asset or liability over its useful life.

### **Capital Receipts**

Proceeds from the sale of capital assets such as land or buildings. They are available to finance new capital outlay and to repay existing loan debt.

### **Community Assets**

Assets which are held for the benefit of the community where there is no determinable useful life, such as works of art.

### **Council Tax**

Council Tax is a local taxation that is levied on dwellings within the local Council area, and funds all Council services.

### **Creditor**

Represents the amount that the Council owes other parties.

### **Debtor**

Represents the amounts owed to the Council.

**Deferred Grants**

Amounts received or receivable that have been used to finance capital expenditure. Under the capital accounting arrangements these amounts will be released to offset depreciation in respect of the fixed assets to which they relate.

**Depreciation**

The measure of the wearing out, consumption or other reduction in the useful economic life of a long-term asset.

**Dividend**

The distribution of profits by a company to its shareholders. The dividend may be passed or cut if profits fall.

**Earmarked Reserves**

Reserve balances which have been set aside for future spending in a specific area.

**Fair Value**

Usually the amount that would be paid for an asset in an active market, however where there is no market for a certain type of asset (such as schools) other methods to determine fair value are used.

**General Fund (GF)**

This is the main revenue account of the council. Day to day transactions are conducted through this account, with the exception of those relating to the Housing Revenue Account, Collection Fund or any other trust funds held by the Council.

**Grants**

Payment towards the cost of local authority services. These are either for particular purposes or services (specific grants) or in aid of local services generally (formula grant).

**Impairment**

Impairment of an asset is caused either by a consumption of economic benefits, a deterioration in the service provided by an asset, or by a general fall in prices of that particular asset.

**Infrastructure Assets**

Expenditure on works of construction or improvement but which have no tangible value, such as construction of, or improvement to highways.

**Intangible Assets**

Non-monetary assets that cannot be seen, touched or physically measured, but can be identified as a separate asset.

**International Financial Reporting Standards (IFRS)**

Regulations outlining the method of accounting for activities, issued by the International Accounting Standards Board.

**Inventory**

Fair value of current assets purchased which have not yet been consumed.

**LOBO**

Lender Option Borrower Option (Loans at market rates).

**Member**

A Councillor, a member of the Council.

**Minimum Revenue Provision (MRP)**

This is the amount we have to set aside out of our revenue to repay loans.

**Net Book Value (NBV)**

The value of an asset after depreciation.

**Non-Distributable Costs**

Costs that cannot be specifically applied to a service and are held centrally.

**Officer**

Employee of the Council.

**Payment in Advance**

A charge taken into account when preparing the financial statements, which are for benefits to be received in a period after the accounting date.

**PFI Credits**

The financial support provided to Local Authorities to part fund PFI capital projects.

**Precept**

This is an amount we receive from district and borough Councils (for Council Tax collected on our behalf) so that we can cover our expenses less our income. We also pay precepts to authorities such as the Environment Agency.

**Private Finance Initiative (PFI)**

A Government initiative that enables, through the provision of financial support, Authorities to carry out capital projects through partnership with the private sector.

**Provision**

Potential costs that the Council may incur in the future because of something that happened in the past, which are likely or certain to be incurred and a reliable estimate can be made to the costs.

**Provision for Bad and Doubtful Debts**

A prudent reduction in the reported level of income owed to the Authority for non-payment of invoices and other debt.

**Prudential Borrowing**

Borrowing which is financed from the Council's own resources and conforms to the Prudential Code.

**Public Works Loan Board (PWLB)**

A government body set up specifically to lend money to local authorities.

**PVEQ**

Plant, Vehicles and Equipment.

**Revaluation Gain**

The increase to the fair value of an asset following a valuation.

**Revenue Support Grant (RSG)**

Government funding which provides general support for council services.

**Straight Line Basis**

The method of calculating depreciation via charging the same amount each year over the life of the asset.

**Subsidiary**

An organisation that is under the control of the Council aka the Council is the majority shareholder.

**Surplus**

The remainder after taking away all expenses from income.

**Useful Life**

The period with which an asset is expected to be useful to the Authority in its current state.

## J1. ACCOUNTING POLICIES

### Appendix 1 – Accounting Policies 2016/17

#### 1.1 INTRODUCTION

The accounting policies for the Authority have been prepared in accordance with International Financial Reporting Standards (IFRS), as adopted by the Chartered Institute of Public Finance and Accountancy's (CIPFA) Code for Local Authority Accounting. Where there is no specific guidance in the CIPFA Code, the Authority has developed its own accounting policy, which is aimed at creating information, which is:

- Relevant to the decision making needs of users; and
- Reliable, in that the financial statements:
  - Represent faithfully the financial position, financial performance and cash flows of the entity;
  - Reflect the economic substance of transactions, other events and conditions and not merely the legal form;
  - Are neutral i.e. free from bias;
  - Are prudent; and
  - Are complete in all material respects.

This document outlines how Northampton Borough Council (the Council) will account for all income, expenditure, assets and liabilities held and incurred during the 2016/17 financial year.

The accounting policies of the Authority are updated annually to reflect any changes in IFRS, including changes in International Public Sector Accounting Standards (IPSAS), HM Treasury guidance, CIPFA guidance or any other change in statute, guidance or framework impacting on the authorities accounts.

The accounting policies of the Authority as far as possible have been developed to ensure that the accounts of the Authority are understandable, relevant, reliable and comparable, and free from material error or misstatement.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and certain categories of financial instrument.

A **Glossary of Terms** can be found in section I.

#### 1.2 ACCOUNTING PRINCIPLES

##### a **Going Concern**

The Authority prepares its accounts on the basis that the Authority is a going concern; that is that there is the assumption that the functions of the Authority will continue in operational existence. In the case of a pending local government reorganisation, where assets and liabilities are due to be redistributed, the Authority would still account on the basis of going concern as the provision of services would continue in another authority.

##### b **Accruals Concept**

The Authority accounts for income and expenditure in the period to which the service to which it relates has taken place, rather than when cash payments are received or made.

Where income and expenditure has been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet respectively. Equally, where cash has been received or paid which is not yet recognised as income or expenditure, a creditor (income in advance) or debtor (payment in advance) is recorded in the Balance Sheet respectively and the Comprehensive Income and Expenditure Statement adjusted accordingly.

**c Overheads and Support Costs**

The costs of overheads and support services are charged to service segments in accordance with the authorities' arrangements for accountability and financial performance.

**d Value Added Tax**

Income and expenditure treated as either capital or revenue, excludes any amounts related to VAT. All VAT collected is payable to HM Revenue and Customs and all VAT paid is recoverable from it. Any amounts outstanding (payment or receipt) at the year-end date is held as a creditor or debtor after netting off the amounts due / owed.

**e Changes in Accounting Policy**

Where there is a known future change in accounting policy required by the CIPFA Code, the Authority will disclose in the notes to the accounts:

- The nature of the change in accounting policy;
- The reasons why applying the new accounting policy provides reliable and more relevant information;
- For both the current reporting period, and the previous year comparatives reported, the extent to which the change in accounting policy would have impacted on the financial statements if it had been adopted in that year;
- The amount of adjustment relating to years previous to those reported in the set of financial statements, had the proposed policy been adopted retrospectively;
- If retrospective application is impracticable for a particular period, the circumstances that led to the existence of that condition and a description of how and from when the change in accounting policy has been applied.

The Authority will also disclose information relating to an accounting standard, which has been issued but not yet adopted.

**f Previous Year Adjustments**

Omissions from, and misstatements in, the entity's financial statements for one or more prior periods arising from a failure to use, or misuse of, reliable information that:

- i) Was available when financial statements for those periods were authorised for issue; and
- ii) Could reasonably be expected to have been obtained and taken into account in the preparation and presentation of those financial statements.

Such errors include the effects of mathematical mistakes, mistakes in applying accounting policies, oversights, or misinterpretations of facts, and fraud.

Where those errors are thought to be material, an adjustment will be entered into the financial statements comparative year balances, and the columns headed restated. In addition full disclosure

as to the nature, circumstance, and value of the adjustment will be disclosed in the notes to the accounts.

**g Events after the Balance Sheet date**

Where there is a material post balance sheet event, a disclosure in the notes to the accounts will be included. If this event provides additional evidence of conditions that existed at the Balance Sheet date, and materially affects the amounts to be included in the accounts; adjusting items will have been shown in the accounts.

**h Exceptional and extraordinary items and prior period adjustments**

Exceptional and extraordinary items will have been disclosed separately on the face of the Comprehensive Income and Expenditure Statement and details will be disclosed in the notes to the accounts.

**i Contingent assets and liabilities**

Where the Council has a contingent asset or liability this will be disclosed as a note to the accounts.

**Capital Accounting**

**j Recognition of Capital Expenditure (de-minimis Policy)**

In accordance with International Accounting Standard 16 (IAS 16), the Council recognises non-current assets when all four of the following tests are met:

- Assets held for use in the production or supply of goods or services, rental to others, or for administrative purposes.
- Assets expected to be used for more than one financial period.
- Assets where it is expected that future economic benefit will flow to the Authority.
- Assets where the cost can be measured reliably.

The capital cost of an asset is recognised to be:

- Purchase price, construction cost, minimum lease payments or equivalent including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- Costs associated with bringing the asset to the location and condition necessary for it to be capable of operating in the manner required by management.
- Initial estimate of the costs of dismantling and removing the asset and restoring the site on which it is located, the obligation for which the Authority incurred either when the asset was acquired or as a consequence of having used the asset during a particular period for purposes other than producing inventories during that period.
- Subsequent expenditure that will substantially increase the market value of the asset.
- Subsequent expenditure that will substantially increase the extent to which the Authority can use the asset for the purpose, or in conjunction with the functions of the Authority.

The Authority has a general de-minimis level of £6,000 for capital expenditure purposes. Where an asset has been acquired for less than £6,000 but has been funded by ring fenced capital funding, this will be treated as capital.

Capital Assets are held on the balance sheet as non-current assets, unless otherwise stated.

## k Non-Current Asset Classification

The Authority manages its assets in the following categories:

- **Intangible Assets.**

In line with International Accounting Standard 38 (IAS 38), the Authority recognises intangible assets as non-monetary assets without physical substance, where that asset meets the capital expenditure criteria set out in accounting policy j.

- **Property, Plant and Equipment Assets**

Property Plant and Equipment Assets are subcategorised into Operational Land and Building, Community Assets, Vehicles Plant and Equipment, Infrastructure Assets, Assets Under Construction and Non-Operational Assets.

- **Land and/or Buildings Assets**, in line with IAS 16, are recorded, valued and accounted for based on their significant components.
- **Community Assets** are assets that have no determinable useful life and which may, in addition, have restrictions on their disposal. There is little prospect for sale or change of use.

If the asset is used for a specific operational purpose, it does not qualify as a community asset and should be valued accordingly.

Test for Community Assets:

- Is the intent to hold the asset forever?
- Does the asset have an indeterminable useful life?
- Are there restrictions on disposal?

The answers for the first two questions have to be yes, while an affirmative answer to the third question is not obligatory but may help determine the correct classification.

- **Infrastructure Assets**, include all tangible (physical) assets required within the authorities land drainage system, and cemetery roadways. There is no prospect for sale of infrastructure assets; expenditure is only recoverable through continued use of the asset.
- **Vehicles, Plant and Equipment Assets and Assets under Construction** are also classified as Property Plant and Equipment where they do not meet the criteria for Investment Property Assets or Assets Held for Sale.
- **Surplus Assets** are assets, which the Authority no longer operates from, however do not meet the definition of held for sale. All surplus assets are treated in the same way as operational assets of the same type (valuation, depreciation, recognition etc.).
- **Heritage Assets** are assets with historical, artistic, scientific, technological, geophysical or environmental qualities that make it important to ensure that they are preserved for future generations. They may be any kind of asset including buildings, works of art, furniture, exhibits, artefacts, etc. or intangible assets such as recordings of significant historical events.

As such, assets in this category are held principally for their contribution to knowledge and/or culture.

- **Investment Property Assets** are items of land and / or buildings held by the Authority solely for the purpose of rental income generation or capital appreciation or both.

Therefore, where there is a service of the Authority being delivered from the property, this is not classified as Investment Property Assets. This includes where the intention of the asset is to generate economic growth to an area such as below market value rental.

Some Assets Under Construction will also be classified as Investment Property Assets where the intended eventual use is rental income generation or capital appreciation.

- **Assets Held for Sale**

The Authority will classify assets as held for sale where:

- The asset is in the condition required for sale and is vacant.
- The assets sale is highly probable.
- The asset has been advertised for sale and a buyer sought.
- The completion of the sale is expected within 12 months.

Assets which become non-operational / surplus which do not meet all of the requirements set out as assets held for sale continue to be classified and accounted for as their previous category. In addition, if the asset later no longer meets the criteria, it is restored to its previous classification and all transactions, which would have occurred, shall be retrospectively applied as though the asset had never been held for sale. Investment properties, which become available for sale, remain as Investment Properties.

Assets meeting the criteria as held for sale are held as current assets on the balance sheet as income is expected within 12 months.

It is possible that assets meet the criteria to be held for sale; however a change in circumstance beyond the control of the Authority means that the sale is delayed beyond 12 months. In these instances the Authority follows the policies outlined for assets held for sale; however disclosure of the value for these assets is within non-current assets.

## I **Non-Current Asset Valuation Methodology**

The various classifications of assets as outlined in accounting policy k are valued on differing basis. Where not explicitly stated otherwise, property revaluations are completed by an RICS qualified valuer, on a 5 year rolling programme i.e. 20% of the Council's assets are revalued each year. Valuations are carried out in accordance with IFRS Fair Value Measurement.

Where there is an upward revaluation, the carrying value is increased and the associated credit charged directly to the revaluation reserve. This is then reflected in the MIRS as a revaluation gain. Where there is a revaluation, which results in a lower than carrying amount valuation, this is treated in line with accounting policy m impairment of assets. Exceptionally, gains might be credited to the Surplus/Deficit on Provision of Services where they arise from the reversal of a loss previously charged to a service.

Valuations are completed as follows:

- **Intangible Assets** - the Authority recognises Intangible Assets at cost. The Authority will revalue intangible assets annually where there is determinable market value for the asset.
- **Property Plant and Equipment** - Property Assets are held at fair value, which is the amount that would be paid for the asset in its existing use. This requirement is met by providing a valuation on the basis of exiting use value (EUV) in accordance with IFRS 13. As a matter of last resort, where no other valuation method can be used, depreciated replacement cost is used.

- **Council Dwellings** – Land and building structure are valued at EUV for Social Housing, being 33% of market value. Individual components are valued at Depreciated Historic Cost.
- **Plant Vehicles and Equipment** - are held at depreciated historic cost.
- **Assets Under Construction** – are held at historic cost.
- **Community Assets** - the Authority recognises Community Assets at depreciated historic cost.
- **Surplus Assets** – are held at fair value.
- **Infrastructure Assets** - the Authority recognises Infrastructure Assets at depreciated historic cost (not revalued).
- **Investment Property Assets** - Investment Properties are annually revalued at fair value, which is to be interpreted as the amount that would be paid for the asset in its highest and best use, i.e. market value. This includes investment property under construction. The fair value of investment property held under a lease is the lease interest.
- **Assets Held for Sale** - Assets held for sale are held at fair value.
- **Heritage Assets** – Heritage Assets are held at valuation where practicable (and at depreciated historic cost where it is not practicable to obtain a valuation).

#### **m Impairment of Non-Current Assets**

The accounting policy has been created in accordance with IAS 36.

Impairment is the amount to which the carrying amount of an asset exceeds the recoverable amount.

At the end of each reporting period the Authority assesses whether there is any indication that an asset may be impaired

The Authority recognises impairment as:

- A significant decline (i.e. more than expected as a result of the passage of time or normal use) in an assets market value during the period;
- Evidence of obsolescence or physical damage of an asset;
- A commitment by the Authority to undertake a significant reorganisation; and
- A significant adverse change in the statutory or other regulatory environment in which the Authority operates.

Where there has been a previous revaluation taken to the revaluation reserve, an impairment up to that value would reverse the previous revaluation. Any further impairment or if there has been no previous revaluation, the impairment is charged to revenue. This is then reversed through the movement in reserves statement and charged to the capital adjustment account.

#### **n Disposal of Non-Current Assets**

Where an asset is identified as surplus to requirements, and meets the definition of an asset held for sale (see note k) it will be accounted for in accordance with note k, where an asset does not meet the classification of available for sale it will be tested for impairment, prior to being made available for disposal. There will be no impairments at the point of disposal. When an asset is disposed of or decommissioned, the value of the asset in the Balance Sheet is written off to the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals are credited to the Comprehensive Income and Expenditure Statement as part of the

gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Sale proceeds in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals (75% for dwellings, 50% for land and other assets, net of statutory deductions and allowances) is payable to the Government. The balance of receipts are credited to the Useable Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are transferred to the Reserve from the movement in reserves statement. The value of the asset is transferred to the capital adjustment account via the movement in reserves statement.

Sale proceeds below £10k are below de-minimis and are credited straight to the Comprehensive Income and Expenditure Statement.

**o Depreciation / Amortisation Methodology**

Depreciation is provided for on all completed assets with a determinable finite life (except for investment properties), by allocating the value of the asset in the balance sheet over the periods expected to benefit from their use. Depreciation is calculated using the Straight-Line method over the determined life of the asset. The Council depreciates assets in the year of acquisition and disposal. This is in accordance with regulations. Where an asset has major components with different estimated useful lives, these are depreciated separately.

Residual values

Asset Type	Assumed Residual Value
Property Assets	Land Value only
Vehicles, Plant and Equipment	Nil
Intangible Assets	Nil

Useful Economic Lives of assets are:

Asset Group	Useful economic Lives (UELs)
Council Dwellings	50 years
Housing Buildings	10-70 years*
Other Buildings	4-69 years*
Land	Not depreciated
Community Assets	15-50 years*
Heritage Assets	Not depreciated*
Infrastructure Assets	25 years
Intangible Assets	3-10 years*
Vehicles, Plant and Equipment	3-25 years*
Investment Properties	Not depreciated
Assets Held for Sale	Not depreciated
Surplus Assets	5-60 years*

\* Depending on the nature of the specific asset

In the Year of acquisition and disposal, the Authority charges a quarter of the annual depreciation where the asset is owned on the first day of each financial quarter.

Individual components within Council Dwellings are depreciated separately from the building structure, using the following lives:

Asset Group	Useful Economic Lives (UEls)
Kitchens	20 years
Bathrooms	30 years
Windows and Doors	30 years
Heating Systems	20 years
Lights and Electric	25 years

#### p Component Accounting

For **Council Dwellings** the following components are valued, enhanced and depreciated separately – Kitchen, Bathroom, Windows and Doors, Heating Systems and Lights and Electrics. No other components are material and are therefore treated as part of the building structure. The separately identified components will be depreciated over their useful lives. They will be derecognised when replaced by new components.

For **all other assets**, components will only be shown separately in the asset register if they are significant i.e. if they cost more than £250,000 and their cost amounts to more than 25% of the total cost of the asset. Where the value of an asset is not known, Gross Book Value will be used as a proxy for the determination of significant components.

Land and buildings will be separately valued. The building component will be fully depreciated over its useful life, the residual value of the whole asset being the land component.

The nature of property assets is such that any revaluation relates mainly to the land and structure so will not be passed down to any individual components that have been identified.

Non-dwelling assets will be considered for componentisation if they are material, i.e. have a total building valuation in excess of £1m. Components will only be separately valued if they are significant, i.e. above the de-minimis level of 25% detailed above.

Components will only be separately valued if they are significant, i.e. above the de-minimis level detailed above.

Components will be derecognised if their replacement is deemed to be significant under this policy, i.e. if the cost of it is more than £250,000 and amounts to more than 25% of the total cost of the asset.

Where significant components, as defined above, have been separately recorded on the Asset Register they will be depreciated over their useful lives.

#### q Leases

In line with the interpretation IFRIC 4, the Authority recognises a lease to be any agreement, which transfers the right to use an asset for an agreed period in exchange for payment, or a series of payments.

This includes; leases, hire purchase, rental, contracts of service, service level agreements and any other arrangement where the ability to use an asset is conveyed.

#### **r Defining a Finance Lease**

A finance lease is where substantially all of the risks and rewards incidental to ownership transfer to the lessee.

Tests to give an indication of the transfer of risk and reward are:

- If the lessee will gain ownership of the asset at the end of the lease term (e.g. hire purchase).
- If the lessee has an option to purchase the asset at a sufficiently favourable price that it is reasonably certain, at the inception of the lease, that it will be exercised.
- If the lease term is for the major part of the economic life of the asset even if title is not transferred.
  - The economic life of the asset is deemed to be that which is consistent with the class of asset in the depreciation policy.
  - The Authority recognises major part to be 75% of the life of the asset, unless on an individual case basis this would not give a true representation of the substance of the transaction.
- At the inception of the lease, the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset.
  - The present value of the minimum lease payments is calculated by discounting at the rate inherent in the lease.
  - If this rate cannot be determined the incremental borrowing rate applicable for that year is used.
  - The Authority recognises “substantially all” to mean 90% of the value of the asset. In some circumstances, a level of 75% can be used if the Council believes that using this level will give a result that better reflects the underlying transaction.
- The leased assets are of such a specialised nature that only the lessee can use them without major modifications.
- If the lessee cancels the lease, the losses of the lessor, associated with the cancellation are borne by the lessee.
- Gains or losses from the fluctuation in the fair value of the residual accrue to the lessee (e.g. in the form of a rent rebate equalling most of the sales proceeds at the end of the lease).
- The lessee has the ability to continue the lease for a secondary period at a rent that is substantially lower than market rent.

A suitably experienced accountant, with assistance from qualified valuers, will make a judgement based on the level of risk and reward held by the Authority as to whether an asset is operating or finance.

#### **s Defining an Operating Lease**

Any lease which is not a finance lease is recognised by the Authority to be an operating lease.

#### **t Lessee Accounting for a Finance Lease**

Where the Authority is tenant in a property, or is, by definition of IFRIC 4, leasing an asset which is deemed under IAS 17 to be a finance lease the Authority will recognise that asset within the asset register, and account for that asset as though it were an owned asset.

The initial recognition of the asset is at the fair value of the asset, or if lower, the present value of the minimum lease payments. A liability is also recognised at this value, which is reduced as lease payments are made. Lease payments made to the lessor, are split between the repayment of borrowings, and interest, which is charged to the Income and Expenditure account.

**u Lessor Accounting for a Finance Lease**

Where the Authority is the lessor for a finance lease, the asset is not recognised in the asset register; however a long-term debtor at the present value of minimum lease payments is recognised. Income received is split between capital - credited against the debtor, and finance income credited to the Comprehensive Income and Expenditure Statement as interest receivable.

**v Lessor Accounting for an Operating Lease**

Where the Authority is the lessor for an operating lease, normally the asset is classified as an investment property. Any rental income is credited to the relevant service income.

**w Lessee Accounting for an Operating Lease**

Costs associated with operating leased assets where the Authority is the lessor are charged immediately to the relevant revenue service expenditure within the net cost of services on an accruals basis.

**x Service Concession Agreements (PFI and other similar contracts)**

PFI and similar arrangements are usually agreements with the private sector for the construction or enhancement of fixed assets needed to provide services to a public sector body. PFI and similar contracts are assessed against criteria within IFRIC 12 (Service Concession Arrangements) to determine whether the risks and rewards incidental to ownership lie with the Authority or the contractor.

Where these lie with the contractor, all payments made during the life of the contract are chargeable to revenue as incurred.

Where these lie with the Authority, the Authority shall assess them against two tests:

- a) The local authority controls or regulates what services the operator must provide with the infrastructure, to whom it must provide them, and at what price; and where
- b) The local authority controls – through ownership, beneficial entitlement or otherwise – any significant residual interest in the infrastructure at the end of the term of the arrangement.

Where test a) is met but not test b) the arrangement is reviewed to see if it contains an embedded lease, in which case this will be accounted for in accordance with the Authority's leasing policies.

Where test b) is met but not test a) the Authority will recognise the difference between the expected value of the fixed assets at the end of the arrangement and the amount (if any) it will have to pay the contractor then.

Where both tests are met the Authority will recognise a Property, Plant or Equipment asset in the Balance Sheet for value of the construction costs. Once recognised this asset is treated in line with the Authority's other PPE assets. A corresponding long-term liability of equal value is also recognised.

Payments made during the life of the contract are split into finance costs, capital costs and service costs. The split of payments is calculated at the inception of the contract and is based on the

inherent interest rate within the original agreement. Finance costs are chargeable to the Comprehensive Income and Expenditure Statement as Interest payable. Capital Costs reduce the level of liability in the Balance Sheet. Service costs are chargeable to the relevant revenue service expenditure. Pre-payments or Dowry payments reduce the level of liability at the start of the contract.

PFI Credits are treated as general revenue government grants.

#### **y Capital Grants and Contributions**

The Authority recognises capital grants and contributions as being related to capital assets and uses them to fund capital expenditure on those assets. Grants, contributions, and donations are recognised as income at the date that the Authority has satisfied the conditions of entitlement, and there is reasonable assurance that the monies will be received.

Any grant received before these recognition criteria were satisfied would be held as a capital grant received in advance. Any grant, which had met the recognition criteria but had not been received, would be shown in the Comprehensive Income and Expenditure Account with a corresponding debtor. This is in line with the accruals concept policy.

Once the recognition criteria above have been satisfied, capital grants are recognised as income in the relevant service revenue account within the net cost of services.

In order to not impact on the level of Council Tax, the Authority removes the credit from the General Reserves through the Movement in Reserves Statement, and crediting to the Capital Grants Unapplied Reserve.

Once expenditure has been incurred on the related asset, the credit is removed from the Capital Grants Unapplied Reserve and credited to the Capital Adjustment Account.

Relevant Government Grants are treated in accordance with this policy.

#### **z Revenue Expenditure Funded from Capital Under Statute (REFCUS)**

Expenditure incurred during the year that may be capitalised under statutory provisions or that is capital in nature but does not result in the creation of non-current assets has been charged as expenditure to the relevant service revenue account in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer to the Capital Adjustment Account then reverses out the amounts charged in the Movement in Reserves Statement so there is no impact on the level of Council Tax.

#### **aa Minimum Revenue Provision (MRP)**

The Council has implemented the 2012 CLG Minimum Revenue Provision (MRP) guidance, and assessed their MRP in accordance with the main recommendations contained within the guidance issued by the Secretary of State under section 21(1A) of the Local Government Act 2003.

Where a historical debt liability was created prior to 1<sup>st</sup> April 2008, MRP will be charged at the rate of 4% on the reducing balance, in accordance with Option 1 of the guidance, the “regulatory method”.

The debt liability relating to capital expenditure incurred from 2008-09 onwards is subject to MRP under option 3, the “asset life method”, and is charged over a period that is reasonably commensurate with the estimated useful life applicable to the nature of expenditure, using the equal annual instalment method. For example, capital expenditure on a new building, or on the refurbishment or enhancement of a building, is related to the estimated life of that building.

Estimated life periods are determined in line with accounting guidance and regulations. To the extent that expenditure is not on the creation of an asset and is of a type that is subject to estimated life periods that are referred to in the guidance, the Council generally adopts these periods. However, the Council reserves the right to determine useful life periods and prudent MRP in exceptional circumstances where the recommendations of the guidance would not be appropriate.

As some types of capital expenditure incurred by the Council are not capable of being related to an individual asset, asset lives are assessed on a basis that most reasonably reflects the anticipated period of benefit that arises from the expenditure. Also, whatever type of expenditure is involved, it is grouped together in a manner that reflects the nature of the main component of expenditure and is only be divided up in cases where there are two or more major components with substantially different useful economic lives.

The Council seeks to spread MRP charges prudently in relation to asset lives, and with regard to the revenue impact of MRP charges. Where prudent to do so, capital receipts are used to repay borrowing previously taken out in relation to assets with a short life. MRP on residual debt is based on the lives of the remaining asset for which borrowing was undertaken.

MRP is charged from the financial year after the asset comes into use. In cases where the Council has approved the use of capital receipts to fund the asset, this funding is assumed when the receipt is contractually certain, even if not actually received. In such cases no MRP charge is made.

Where finance leases are held on the balance sheet, the MRP is set at a charge equivalent to the element of the annual lease charge that goes to write down the balance sheet liability, thereby applying Option 3 in a modified form.

The Council has taken advantage of any transitional arrangements introduced to minimise or negate the impact of retrospective accounting adjustments as a result of the transfer to the balance sheet of finance leases previously treated as operating leases under the introduction of IFRS.

#### **ab Capital Reserves**

The Authority holds capital reserves for the purpose of financing capital expenditure. Reserves will be disclosed as either usable (available to fund capital expenditure) or unusable (reserves held as a result of timing differences associated with recognition of capital expenditure and related financing).

Movements in capital reserves are accounted for through the Movement in Reserves Statement.

#### **Revenue Accounting**

#### **ac Recognition of Revenue Expenditure.**

The Authority recognises revenue expenditure as expenditure, which is not capital.

#### **ad Employee Costs**

In accordance with IAS 19, the Authority accounts for the total benefit earned by employees during the financial year.

Employee Costs are split into 3 categories; short term benefits, termination benefits and pensions costs.

### Short-term employee benefits:

- **Salaries and Wages** - The total salary and wages earned by employees within the financial year have been charged to the revenue expenditure account. Where the amount accrued exceeds the amount paid at the 31st March, a creditor will be reflected in the accounts.
- **Leave Owed** - The Authority allows employees to earn time off in one period and carry forward amounts of accrued leave into the following period, such as annual leave, flexi-time and time off in lieu. The cost associated with this leave is attributable to the period in which it is earned, rather than when it is exercised. As such a charge has been made to the service revenue account and a creditor accrual has been reflected in the Balance Sheet.
- **Maternity/Paternity Leave** - The obligation upon the Authority to allow maternity leave and pay maternity pay occurs in mid stages of pregnancy. The cost associated with this leave is attributable to the period in which the obligation is created, rather than when it is exercised. As such a charge has been made to the service revenue account and a creditor accrual has been reflected in the Balance Sheet for time off owed at the 31st March.

### Termination Benefits

- **Redundancy Costs** - The obligation to pay redundancy costs occurs when there is a formal plan to create redundancies, which has been approved. The plan would include the location, function and approximate number of employees affected; the termination benefits offered; and the time of implementation. When these recognition criteria have been met the Authority recognises the costs associated with this in the service revenue expenditure and create a creditor in the Balance Sheet.

In the case of an offer to encourage voluntary redundancy, the Authority has recognised the estimated cost based on the expected number of employees taking the offer.

- **Pensions Costs**

Employees of the Council are members of the Local Government Pension Scheme administered by Northamptonshire County Council. The Scheme provides benefits to members (retirement lump sums and pensions) earned as employees of the Council.

The Local Government Pension Scheme is a defined benefit scheme. The liabilities of the scheme attributable to the Authority are included in the Balance Sheet on an actuarial basis using the projected unit method i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc. and projections of earnings for current employees.

Pension liabilities are measured using the projected unit method and discounted at the balance sheet date rate of return on high quality corporate bonds of equivalent term to the liabilities. The discount rate is the weighted average of spot yields on AA rated corporate bonds.

The change in the net pension liability is analysed into seven components:

- Current service cost - the increase in liabilities as result of years of service earned this year - allocated in the Comprehensive Income and Expenditure Statement to the revenue accounts of services for which the employees worked.
- Past service cost - the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years debited to the Net Cost of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.

- Interest cost - the expected increase in the present value of liabilities during the year as they move one year closer to being paid - debited to Net Operating Expenditure in the Comprehensive Income and Expenditure Statement.
- Expected return on assets - the annual investment return on the fund assets attributable to the Council, based on an average of the expected long-term return - credited to Net Operating Expenditure in the Comprehensive Income and Expenditure Statement.
- Gains/losses on settlements and curtailments the result of actions to relieve the Council of liabilities or events that reduce the expected future service or accrual of benefits of employees - debited to the Net Cost of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
- Actuarial gains and losses - changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions - debited to the Statement of Comprehensive Income and expenditure.
- Contributions paid to the Northamptonshire County Council Pension Fund – cash paid as employers contributions to the Pension Fund.

In relation to retirement benefits, statutory provisions require the General Reserves to be charged with the amount payable by the Council to the pension fund in the year, not the amount calculated according to the relevant accounting standards. Adjustments are therefore made in the Movement in Reserves Statement.

- **Early Retirement, Discretionary Payments** - the Authority has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

#### **ae Revenue Grants and Contributions**

Grants, contributions, and donations are recognised as income at the date that the Authority has satisfied the conditions of entitlement, and there is reasonable assurance that the monies will be received. Any grant received before these recognition criteria were satisfied would be held as a creditor (receipts in advance). Any grant, which had met the recognition criteria but had not been received, would be shown as a debtor. This is in line with the accruals concept policy.

Revenue grants will either be received to be used only for a specific purpose, or can be used for general purpose. Those for a specific purpose are recognised as income in the relevant service revenue account (wherever the related expenditure is incurred) within the net cost of services. Those, which are for general purpose, are shown in the foot of the Comprehensive Expenditure and Income Statement, before the net surplus or deficit.

#### **af Provisions**

Provisions are made where an event has taken place that gives the Council an obligation that probably requires settlement by a transfer of economic benefits, but where the timing of the transfer is uncertain. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged to the appropriate service revenue account in the year that the Authority recognises an obligation, based on the best estimate of the likely settlement. When payments are eventually made, it is charged to the provision.

Estimated settlements are reviewed at the end of each financial year and adjustments with the service revenue account are made as required.

Where some or all of the payment required to settle a provision is expected to be met by another party (e.g. from an insurance claim), this is only recognised as income in the relevant service revenue account if it is virtually certain that reimbursement will be received if the obligation is settled.

#### **ag Revenue Reserves**

The council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts in the Statement of Movement on the General Fund Balance. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service revenue account in that year to score against the Net Cost of Services in the Income and Expenditure Account. The reserve is then appropriated back into the General Fund Balance statement so that there is no net charge against Council Tax in that year for the expenditure.

The Council maintains earmarked reserves for a number of reasons including: -

- Setting aside money for future policy initiatives;
- To finance expenditure on future projects;
- To mitigate the impact between financial years of expenditure and income on general working balances;
- To mitigate the effect of specifically identified significant risks; and
- To protect the Authority against unexpected events and change in legislation.

The Council's risk-based assessment of the required level of General Fund working balance is shown within the Movement in Reserves Statement. The level of general working balance is considered reasonable due to the mitigation of some risks through the holding of earmarked reserves.

Certain reserves are kept to manage the accounting processes for tangible fixed assets, retirement benefits, and financial instruments and these reserves do not represent usable resources for the Council. The usable Earmarked Reserves are set out in the notes to the Statement of Accounts.

#### **ah Council Tax Recognition**

Council Tax income included in the Comprehensive Income and Expenditure Statement for the year shall be the accrued income for the year. The Authority's share of the accrued Council Tax income is obtained from the information that is required by billing authorities in the production of the Collection Fund Statements.

If the net cash paid to the Authority in the year is more than its proportionate share of net cash collected from Council Tax debtors in the year the Authority will recognise a credit adjustment for the same amount in creditors after adjusting for the previous year brought forward and vice versa if net cash paid is less than the proportionate share.

The Cash Flow Statement includes within operating activities the net Council Tax cash received from the Collection Fund in the year (i.e. the precept for the year plus its share of Collection Fund surplus for the previous year, or less the amount paid to the Collection Fund in respect of its share of the previous year's Collection Fund deficit). The difference between the net cash received from the

Collection Fund and the Authority's share of cash collected from Council Tax debtors by the billing authority in the year is included within financing activities in the Cash Flow Statement.

The difference between the income included in the Comprehensive Income and Expenditure Statement and the amount required by regulation to be credited to the General Fund shall be taken to the Collection Fund Adjustment Account and reported in the Movement in Reserves Statement.

**ai Inventories and long-term contracts**

Inventories include goods held for future use. Inventories are included in the Balance Sheet at the lower of cost and net realisable value. Inventories are recorded in terms of average cost. Work in progress on long term contracts is subject to an interim valuation at the year-end and recorded in the Balance Sheet at cost plus any profit reasonably attributable to the works. The Council currently does not have any contracts that fulfil this criterion.

**aj Provisions for bad and doubtful debts**

In order to suitably reflect the varied nature of debtors within the Council, the basis for providing for bad debts is specific to the circumstances in each individual department. The general policy followed is:

- No public sector debt is provided for (other Local Authorities, NHS, or Central Government).
- Aged debt is reviewed and a reasonable percentage provided for.

Significant individual invoices are reviewed and wholly provided for where it is thought to be necessary.

**Treasury Management**

**ak Definition of Treasury Management Activities**

The Authority has adopted the following definition of Treasury Management activities:

The management of the Authority's cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks.

The Authority regards the successful identification, monitoring, and control of risk to be the prime criteria by which the effectiveness of its treasury management activities will be measured. Accordingly, the analysis and reporting of treasury management activities will focus on their risk implications for the Authority.

The Authority acknowledges that effective treasury management will provide support towards the achievement of its service objectives. It is therefore committed to the principals of achieving best value in treasury management, and to employing suitable performance measurement techniques, within the context of effective risk management.

**al Financial Liabilities**

Financial liabilities are initially measured at fair value and carried at their amortised cost.

Annual charges to the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable plus any interest accrued to 31st March

and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year in the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to Net Operating Expenditure in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate. Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Reserves to be spread over future years.

The Authority has a policy of spreading the gain/loss over the term of the replacement loan subject to a minimum period of 10 years with the case of discounts. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Reserves is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

#### am Financial Assets

Financial assets are classified into two types:

- **Loans and receivables** - assets that have fixed or determinable payments but are not quoted in an active market.

Loans and receivables are initially measured at fair value and carried at their amortised cost. Annual credits to the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable plus any interest accrued to 31st March and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement. However, the Council could make loans to organisations or individuals at less than market rates (soft loans).

When soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest is credited at a marginally higher effective rate of interest than the rate receivable from the voluntary organisations, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Reserves is the interest receivable for the financial year. The reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Reserves is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the Comprehensive Income and Expenditure Statement. Any gains and losses that arise on the de-recognition of the asset are credited/debited to the Comprehensive Income and Expenditure Statement.

- **Available-for-sale assets** - assets that have a quoted market price and/or do not have fixed or determinable payments.

Available-for-sale assets are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument.

Values are based on the following principles:

- Instruments with quoted market prices the market price.
- Other instruments with fixed and determinable payments discounted cash flow analysis.

Changes in fair value are balanced by an entry in the Available-for-sale Reserve and the gain/loss is recognised in the Movement in Reserves Statement. The exception is where impairment losses have been incurred these are debited to the Comprehensive Income and Expenditure Statement, along with any net gain/loss for the asset accumulated in the Reserve. Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the Comprehensive Income and Expenditure Statement. Any gains and losses that arise on the de-recognition of the asset are credited/debited to the Comprehensive Income and Expenditure Statement, along with any accumulated gains/losses. Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

- **Financial assets at fair value through income and expenditure** – The council does not generally deal in derivatives but may take out forward loans from time to time as part of its overall Treasury Management Strategy.

#### **an Interests in Companies and Other Entities**

The Council owns one subsidiary, Northampton Partnership Homes, and has prepared Group Accounts, see policy ar. The Council has one Joint Arrangements that is Not an Entity (JANES), the Joint Planning Unit (JPU): this is not material to the accounts.

#### **ao Business Improvement Districts**

The Council collects Business Rates in respect of two Business Improvement Districts (BIDs), the first based on the Brackmills Industrial Estate geographic area, and the second based on the Town Centre geographic area. For both of these BIDs, the Council collects the business rates and pays the amount collected over to the BID on a monthly basis. The money collected is treated as a creditor in the Council's accounts to reflect the fact that the cash received will be paid to the BID and any balances are only there because of a timing issue.

#### **ap Cash and Cash Equivalents**

Cash is represented by notes and coins held by the Authority and deposits available on demand. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Bank overdrafts only arise as part of the Council's cash management and are therefore netted off against Cash and Cash Equivalents.

Bank overdrafts will only be shown separately as liabilities in the Balance Sheet where they are not an integral part of the Council's cash management; no such instances currently exist that would require separate disclosure from cash and cash equivalents.

#### **aq General Government Grants**

General government grants and contributions in the form of Revenue Support Grant, Retained Business Rates, New Homes Bonus, etc. are disclosed on the face of the Comprehensive Income and Expenditure Statement in the line Taxation and Non-Specific Grant Income.

**ar Group Accounts**

The Council is required to produce Group Accounts alongside its own financial statements where it has material interests in subsidiaries, associates and/or joint ventures. The Council has involvement with a company, and has concluded that the requirement to produce Group Accounts applies in relation to its interest in Northampton Partnership Homes. In the Council's single-entity accounts, the interest in the company is recorded as financial assets at cost less any provisions for losses.

**as Non Domestic Rates**

The Local Government Finance Act 2012 amended the 1988 Local Government Finance Act to give local authorities the power to retain a proportion of funds obtained from business rates in their area.

The changes under the 'Localisation of Business Rates' means that from April 2013, local authorities retain a share of the income they collect from business rates as funding to meet the cost of service provision. Prior to this date, all business rates in England were paid to Central Government from the billing authorities, and a proportion was then paid back to each authority as Formula Grant.

The Department for Communities and Local Government guidance indicates that each billing authority should formally set a Business Rate Baseline each year. This baseline will be the authority's estimate of the business rates it forecasts to collect in the following financial year, net of any reductions such as reliefs and estimated cost of appeals.

As such, the business rates the Council collected and retained are adjusted for the anticipated outcome of the on-going national backlog of Business Rate appeals cases, which are still currently being assessed by the Valuation Office.

## J2. GENERAL INFORMATION

### 1. PRIOR YEAR ADJUSTMENTS

---

There have been no material prior periods adjustments identified that require disclosure within Note 1 of the accounts for 2015/16.

### 2. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT BEEN ADOPTED

---

The Code of practice on Local Authority Accounting in the United Kingdom (The Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2016/17 Code:

IAS 1 Presentation of Financial Statements; this standard provides guidance on the form of the financial statements. The "Telling the Story" review of the presentation of the Local Authority financial statements as well as the December 2014 changes to IAS 1 under the International Accounting Standards Board (IASB) Disclosure Initiative will result in changes to the format of the accounts in 2016/17. The format of the Comprehensive Income and Expenditure Statement and the Movement in Reserves will change and introduce a new Expenditure and Funding Analysis.

Other minor changes due to Annual Improvement to IFRS cycles, IFRS11 Joint arrangements, IAS 16 Property Plant and Equipment, IAS 38 Intangible Assets and IAS 19 Employee Benefits are minor and are not expected to have a material effect on the Council's Statement of Accounts.

The Code requires implementation from 1 April 2016 and there is therefore no impact on the 2015/16 Statement of Accounts.

### 3. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

---

In applying the accounting policies laid out in Appendix J1, the Council has had to make certain critical

judgements about complex transactions or those involving uncertainty about future events. In the accounts these are as follows:

There is a high degree of uncertainty regarding future levels of funding for local government and the impact of the decision for Britain to leave the European Union remains unclear. However the Council takes the view that this uncertainty is not yet sufficient indication that the value of the Council's assets might need to be impaired due to reduced levels of service provision or the need to close facilities.

Valuations of Council Dwellings have been based on the latest Government guidance. Useful economic lives are based on estimates either from professional (RICS qualified) valuers in the case of property, and service experts in relation to other assets. Infrastructure has a useful economic life of 25 years in line with CIPFA guidance.

Estimates and judgements are evaluated based on historical experience and other factors including horizon scanning for future events that are believed to be reasonable under the circumstances. Actual events may differ from these expectations.

#### 4. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Authority about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends, and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates. The items in the Authority's Balance Sheet at 31 March 2017 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment (excluding land) - Depreciation & Useful Lives	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be carried out in relation to individual assets. The current economic climate makes it uncertain how much the authority will be able to spend on repairs and maintenance on these assets, so there is uncertainty in the useful economic lives allocated to each asset.	If useful economic lives are reduced there would be an increase in depreciation and a reduction in the carrying value of the assets. It is estimated that the annual depreciation charge for buildings would increase by approximately £0.360m for every year that useful lives had to be reduced.
Property, Plant and Equipment (excluding land) - Valuations	Assets are valued each year by professional valuers using appropriate valuation methods, judgements, and assumptions. Council dwellings are valued as at 1 April annually, non-investment properties with a closing value of over £300k the previous year are revalued mid-year, and other non-investment property is valued on a 5-year rolling programme part way through the year. The assumptions used and timings of these valuations introduce a degree of estimation risk if property values differ from the valuations used.	The net book value of an asset at 31 March is the value of that asset as it appears on the Balance sheet. - A 1% variation in value on Dwellings is equivalent to £5.53m - A 1% variation in value on other operational property is equivalent to £1.351m
Benefit Overpayments Provision	The Authority has made a provision of £5.506m in respect of Overpayments to Benefit Claimants. This provision is based upon an analysis of outstanding debt as at year end and is considered prudent in light of the highly uncertain nature of future recovery levels.	As the provision for Benefit Overpayments is currently set at 88.23% of the overall debt, any movement in the level of overpayment+4ts will have a corresponding, equivalent impact on the level of provision required.
Insurance Provision and Reserve	The Council has made a provision of £0.245m for actual insurance claims outstanding and a reserve of £1.026m is set aside for unknown future claims. The amount in the reserve is based upon an actuarial report from our independent advisors, who have specialist experience in forecasting.	If the insurance provision proves to be insufficient then funds can be transferred from the insurance reserve. If the level of insurance reserve were to prove incorrect, then the effect would be equivalent to the amount of the additional claims.

Pensions Liability	The Council has a liability for retirement benefits promised under the terms of the pension scheme of £142.692m. Liabilities are measured on an actuarial basis, estimating future cash flows discounted to present values. This estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	If the principal assumptions used to measure the liability were to differ, then the increase in liability would be: - 0.5% decrease in discount rate = £27.729m - 0.5% salary increase = £2.147m - 0.5% increase in Pensions rate = £25.314m
Arrears	The General Fund has provided for a bad debt provision of £1.521m. This is based on modelled assumptions of the amount of debt cleared at various time points. The model is based on past recovery rates but any changes in the economic climate could impact on the recovery of outstanding debts.	The amount of debt having a provision against it equates to £4.212m. Therefore any changes in the recovery of our debts will have a maximum impact of £1.472m.
Business Rates Appeals	The council has made a provision for the effects of business rates appeals (including backdated appeals) of which the NBC element is £4.747.m. This is based on appeals that had been lodged and were outstanding at 31 March 2017. Contingent liabilities have been disclosed in relation to the risk of new appeals that may come forward in the future and other appeals/risks that have been currently assessed as not meeting the IAS 37 criteria for requiring a provision as at 31st March 2017.	If appeals on the list are rejected or settled at a lower value from the amount taken into account in the appeal provision, the provision for the excess would be released. If appeals on the list are settled at a higher value than the appeal provision or appeals are settled that are not included on the list at 31 March, there would be an impact on the business rates income to the authority under the Rates Retention Scheme.
Minimum lease payments on operating leases (authority as lessor)	Future estimates of minimum lease payments contain a number of assumptions about lease rental income and lease periods; for example that leases will not be renewed at the end of their term, and that vacant properties will not be leased at a future date.	If leases are extended beyond their original term or renewed on expiry, and vacant properties are leased out, then future rental income will exceed the minimum lease payments calculated. Conversely if lessees default on their leases or payments then future rental income may be reduced.

This list does not include assets/liabilities that are carried at fair value based on recently observed market prices. For items relating to the Housing Revenue Account, please see section G of the Accounts.

## 5. EVENTS AFTER THE BALANCE SHEET DATE

---

The Grenfell Tower fire of 14 June 2017 has highlighted some serious concerns about the fire safety of the country's hundreds of high rise blocks of flats. Although it is not yet known what changes the Government will make to the regulatory framework in relation to fire safety, it is anticipated that additional responsibilities will be placed on social landlords and these will need to be considered as part of the Council's 30 year HRA Business Plan. In the meantime, Northampton Partnership Homes (ALMO) has been working closely with the Council and the Northamptonshire Fire & Rescue Service to review the fire risk assessments for the 11 multi-storey blocks of flats (5 storeys and above) that the Council owns. This review has highlighted no concerns at this stage.

The Council's Chief Executive resigned with effect from end of November 2017, following discussions between NBC and Mr Kennedy it was mutually agreed to make a payment in lieu of notice, and he ceased employment with the authority with effect from end July 2017. Subsequently the Council have appointed on an interim basis to the Chief Executive position an experienced deputy chief executive on secondment from a neighbouring authority with effect from 6 September 2017.

# Annual Governance Statement 2016/17

# NORTHAMPTON BOROUGH COUNCIL ANNUAL GOVERNANCE STATEMENT 2016/17

## 1 Executive Summary

This document describes Northampton Borough Council's governance arrangements and assesses how closely the Council aligns with good practice. In overall terms this is a positive statement for the financial year 2016/17. This document relies on several assurance mechanisms including the internal audit annual review, internal audit reports throughout the year, returns by Senior Officers, the Statement of Accounts, Audit Committee, the overview and scrutiny process, and external audit.

External audit has been undertaken since November 2012 by KPMG. This provides assurance on the controls the Council has in place. Where the auditor identifies weaknesses in the Council's arrangements, these are highlighted in the Annual Audit and Inspection Letter. The Council received an unqualified audit opinion on its 2015/16 main financial statements with no significant issues, but an adverse opinion in relation to value for money relating to a previous loan to a third party.

A significant change in 2016/17 has been the development of a Governance Action plan to address the recommendations from a PwC internal audit report relating to the football club loan. This was developed by management board and presented to Audit Committee in December 2016. The progress against this plan has been a key report to each subsequent Audit Committee and a key focus within the organisation.

## 2 Statement of Compliance

The authority's financial management arrangements conform to the governance requirements of CIPFA's Statement on the Role of the Chief Financial Officer in Local Government (2010) as set out in the Application Note to Delivering Good Governance in Local Government Framework in the majority of areas.

In response to the issuing of new guidance on governance by CIPFA SOLACE in December 2016 the authority has commenced a self-evaluation of its compliance within the framework which was completed at the end of July 2017. This will identify any gaps in compliance which may need addressing through policy updates and/or training.

There is one area which has slightly different arrangements from those outlined in the CIPFA Statement and this will continue into future years:

**Partnerships** – The creation of Northampton Partnership Homes (NPH) on 5 January 2015, to manage the Housing Stock on behalf of the Council. The Governance of this wholly owned subsidiary is through the NPH Board. The Board is responsible for the business of the Company subject to compliance with the provisions of the Companies Act 2006 and the articles of association for Northampton Partnership Homes Limited.

The Board comprises of 16 members including representatives from tenants, Northampton Borough Council elected Members, independent members and two employees of the Company. The structure of the Board is such that no single group holds a majority position. The Board meet approximately every six weeks. The Board is supported by five Committees; Finance, Audit & Risk, Operations and HR and the Remuneration Committee. Each Committee comprises of 5/6 Members of the Board and currently meet approximately every six weeks. Committees have no delegated powers relevant to their specific terms of reference but they consider the detail of matters under their remit and report to the Board where formal approval to any reports and proposals is given.

### **3 Scope of responsibility**

The Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, that public money is safeguarded and properly accounted for, and is used economically, efficiently and effectively. The Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised.

In discharging this overall responsibility, the Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk. Overview and challenge of the Council's management of risk is performed by the Audit Committee.

Northampton Borough Council has agreed a local code of corporate which takes account of, and is currently being reviewed and developed against the principles of the Chartered Institute of Public Finance and Accountancy (CIPFA) / Society of Local Authority Chief Executives (SOLACE) Framework 'Delivering Good Governance in Local Government' from 2016.

This Annual Governance Statement explains how the Council has complied with the code and also meets the requirements of regulation 4(3) and 4(4) of the Accounts and Audit Regulations 2011.

### **4 The purpose of the governance framework**

The System of Internal Control and the Governance Framework have been in place at Northampton Borough Council for the year ended 31 March 2017 and up to the date of the approval of the statement of accounts.

The Governance Framework comprises the systems and processes, and culture and values, by which the council is directed and controlled and the activities through which it accounts to, engages with and leads the community. It enables the council to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims, and objectives and can therefore only provide reasonable, not absolute, assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Council's policies, aims, and objectives. It is also designed to evaluate the likelihood of those risks being realised and their impact should they be realised, and to manage them efficiently, effectively and economically.

### **5 The Governance Framework**

The Constitution is the key document in the Council's governance framework. The Borough Secretary (the 'Monitoring Officer') has a duty to monitor and review the operation of the Constitution to ensure its aims and principles are given full effect. The Council reviews the Constitution regularly to incorporate any necessary changes that are approved as part of any policy changes.

The Council's Governance Framework derives from the six core principles identified in a 2004 publication entitled The Good Governance Standard for Public Services. This was produced by the Independent Commission on Good Governance in Public Services – a commission set up by CIPFA, and the Office for Public Management. The commission utilised work done by, amongst others, Cadbury (1992), Nolan (1995) and CIPFA / SOLACE (2001). These principles were adapted for application to local authorities and published by CIPFA in 2007, with a revision in 2016. The core principles that this Governance Framework follows and the key elements of each of those core principles are as follows.

## **5.1 Defining outcomes in terms of sustainable economic, social, and environmental benefits.**

The Council's corporate priorities are set out in the Corporate Plan 2017 -22, which was adopted by the Council at its meeting on 27 February 2017. These are based around seven key areas:

- Northampton Alive – a vibrant successful town for now and the future
- Safer Communities – making you feel safe and secure
- Housing for Everyone – helping those that need it have a safe and secure home, and ensuring that a buoyant market provides a wide choice of homes for all ages
- Protecting Our Environment – a clean and attractive town for residents and visitors
- Love Northampton – Enhancing leisure facilities for local people and encouraging participation
- Working hard and spending your money wisely – delivering quality modern services
- Improving Our Governance – implementing the Governance Action Plan

The final priority around improving governance is in direct response to reports and recommendations of both Internal and External Auditors during 2016, in order to raise the profile and change the culture of the organisation in relation to governance.

The Council's annual financial planning process is driven by the council's Medium Term Financial Strategy to ensure that the future priorities and ambitions are resourced.

Through reviews by external auditors, external agencies, Internal Audit, and internal review teams, the Council constantly seeks ways of ensuring the economic, effective and efficient use of resources, and for securing continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

There are detailed contract procedure rules set out in the constitution, these explain how procurement must be carried out. A detailed review of these rules by external advisors commenced in 2016/17, and is due for completion by the end of 2017.

The Council's Risk Management Strategy, which incorporates business continuity management, was further improved in 2011 and has been subject to a review during 2016 supported by the Council's internal auditors PwC. The revised draft strategy was presented to Audit Committee in January 2017 and will be finalised early September by a specialist external resource, supported by the Governance and Risk Manager. The Strategy clearly sets out the processes and responsibilities for managing risks across the authority and is supported by a Risk and Business Continuity Management Handbook. Risks are identified and registers comprehensively refreshed on an annual basis as part of the Service Planning process and are updated regularly at Departmental Management Team meetings. This enables risks to be associated clearly to objectives and priorities, providing management with valuable monthly reporting information and ensuring resources are targeted to the priorities and objectives most at risk.

All significant projects have their own risk register, which is maintained and monitored by project managers and Programme and Project Boards as appropriate.

The Council has approved a list of critical functions, and business continuity plans for these functions are well developed across the authority. A high proportion of these plans have been tested.

## **5.2 Determining the interventions necessary to optimise the achievement of intended outcomes**

The Council's governance action plan includes governance around decision making, financial governance and project management. It is designed to ensure that decisions made by the Council either at Cabinet or at project level include robust option appraisal and identification of any risks involved.

The Council undertakes a significant number of consultations with customers, ranging from statutory consultations to some which are used to inform and shape decision making. To facilitate this and to set objective standards, the Council has adopted a consultation toolkit and web based portal. This process sets out a clear methodology for defining aims and objectives, resourcing the consultation, defining the level and method of consultation required, identifying whom to consult, ensuring inclusivity, planning the consultation, using the results, and evaluating the effectiveness of the consultation. Through adopting this methodology, the Council can be sure that consultations are more focussed and effective.

### **5.3 Developing the entity's capacity, including the capability of leaders and individuals.**

#### **5.3.1 The Constitution**

The Council has adopted a Constitution, which sets out how the Council operates, how decisions are made and the procedures that are followed to ensure these are efficient, transparent, and accountable to local people. The constitution reflects the 'Executive/Scrutiny' model following the Local Government Act 2000 with the latest revision in February 2013. The Council commissioned external advisors in March 2017 to undertake a review of the Constitution with a focus on the scheme of delegation, and contract and finance procedures. Council will be required to approve a revised Constitution during 2017 once this work is complete.

#### **5.3.2 The Cabinet**

Cabinet is responsible for making executive decisions as defined by law and operates within the budget and policy framework approved annually by full Council. Meetings are open to the public except when personal or confidential matters are being discussed. Accountable Cabinet Members have authority to make non-key delegated decisions in accordance with the Leader's Scheme of Delegations in the Constitution. Furthermore, senior and other officers of the Council can make decisions under delegated authority – again the extent of these delegations is set out in the Officers' Scheme of Delegations in the Constitution. The Council publishes an executive decision notice, which contains details of key decisions to be made by the Cabinet. Each Cabinet member has a specific range of responsibilities requiring him or her to work closely with senior and other employees in order to achieve the Council's ambitions. Cabinet members also meet on a regular basis at Executive Programme Board with senior officers to consider and discuss potential future cabinet reports and other relevant issues. This is a recent change as part of the Governance Action Plan to inform and improve decision making. In addition to the above, the Cabinet and Leadership Team meet on a cycle to discuss key strategic issues, by reference to Cabinet member priorities.

#### **5.3.3 Management Board**

The Council's Management Board, which consists of the Chief Executive, Directors, the Chief Finance (s.151) Officer, and the Monitoring Officer met on a regular basis during 2016/17. Management Board considers other internal control issues, including strategic risk management, performance management, compliance, efficiency and value for money, and financial management. Management Board has a corporate responsibility for the messages that the Council puts out, both internally and externally.

A new Governance Action Plan was developed during 2016 by the authority's three statutory officers with input from other staff before being reviewed and signed off by Management Board. This focussed on areas that needed to be strengthened within the organisation to improve the robustness of decision making and monitoring, as well as the management of risk. Four new posts were identified to increase the organisation's capacity in relation to risk and project management, and these have been or are in the process of being recruited to. Management Board and Executive Programme Board will be jointly undertaking an annual review of the governance action plan to assess its completion and focus areas.

#### 5.3.4 Corporate Briefing

This group consists of Management Board members and all Heads of Service. This group met on a regular basis during 2016/17. The group, which is non-decision making, provides collective responsibility for:

- Providing corporate leadership
- Employee development
- Internal and external communications
- Performance management
- Co-ordinating and delivering corporate objectives and priorities for action
- Reviewing corporate policy
- Reviewing corporate standards
- Considering key operational matters

#### 5.3.5 Directorate Management Team

Each Directorate has a Directorate Management Team where the Director and Heads of Service meet to discuss Management Board feedback, council wide and service specific matters. These meetings ensure that:

- Directorates contribute to Management Board, Corporate Briefing and other teams/groups
- Feedback from Management Board, Corporate Briefing and other teams/groups is communicated within the Directorate
- Communication of corporate requirements within and between teams within the respective directorate occurs
- Service area performance is reviewed through Performance Report Packs.

#### 5.3.6 Managers' Sessions

These are held on a monthly basis throughout the year covering a range of corporate subjects. During 2016/17 these included health and safety, housing and wellbeing, organisational changes. The sessions cover all managers and team leaders across the council.

As part of the Governance Action Plan a 'licence to practice' training programme is being developed for all managers and relevant staff. This is being targeted to cover all governance areas within the Council, and is planned for delivery during 2017. Initial mandatory training sessions around financial governance have already taken place during early 2017, which will form part of the programme.

#### 5.3.7 Councillor Induction and Development

The Council has a structured Councillor Development programme which is informed by corporate priorities, legislative changes and development plans for councillors. The outcomes from the development sessions are evaluated and monitored. The authority also offers its training schedule to parish councils within the borough, a number of parish councillors attended various sessions in 2016/17.

The Council also has an extensive Councillor Induction programme, this takes place after each four yearly election cycle. Any councillors elected mid-term are provided with individual sessions as appropriate.

## 5.2.8 Programme and Project Management Governance

During 2016/17 key Programme Boards reported into Management Board. The governance arrangements were amended as part of the governance action plan to improve the focus of decision making, and to support the early consideration of issues through new member/officer arrangements. Individual projects are governed by project boards report into the following new or redefined programme boards for decision or by exception:

- Corporate Governance & Support Officer Programme Board
- Northampton Alive Officer Programme Board
- Transformation and People Officer Programme Board
- Efficiency/MTFS Officer Programme Board

Each Programme Board is chaired by the Chief Executive, Borough Secretary, or a Director, and they report into Management Board by exception. The programme boards will not encompass every single project that NBC is actively delivering, but rather those identified by Management Board as requiring corporate governance controls.

The NBC Project Management Best Practice Guide provides direction on the approach and the tools and templates available to support the programmes and projects. This ensures that those projects that are not deemed as requiring corporate governance controls will still maintain the NBC project management approach.

## 5.4 Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law.

The Council has designated the Borough Secretary as the Council's Monitoring Officer. It is the function of the Monitoring Officer to ensure compliance with established policies, procedures, laws, and regulations. The Monitoring Officer also supports the Standards Committee and is the nominated officer for Whistleblowing. After consulting the Chief Executive and Chief Finance Officer (section 151 Officer), he will report to the Council, under Section 5 of the Local Government and Housing Act 1989, if he considers that any proposal, decision, or omission would give rise to unlawfulness or maladministration. Such a report will have the effect of stopping the proposal or decision being implemented until the report has been considered.

The Council has a Standards Committee which is responsible for: -

- Ensuring Councillors and other representatives are trained to carry out their duties effectively;
- Advising on the Members' Code of Conduct and helping Councillors and other representatives to understand what their duties are in relation to the Code;
- Investigating complaints received about elected Borough and Parish Council Members;
- Monitoring the operation of the Code;
- Conducting local hearings and determination of sanctions should a breach of the Code of Conduct be found;
- Granting dispensations to Councillors, co-opted members from requirements relating to interests set out in the Members' Code of Conduct;
- Advising the Council on other Codes and Protocols forming the authority's ethical framework;
- Considering arrangements for the appointment of Independent Members to the Committee;
- Ensuring the authority operates within a robust corporate governance framework; and
- Considering any report referred to it by the Cabinet or any other Committee where there are implications for ethical standards and report back as appropriate.

## Codes and Protocols

The council has adopted a number of codes and protocols that govern both Member and officer activities. These are mainly reviewed annually:

- Members Code of Conduct
- Members Register of Interests
- Officers Code of Conduct
- Officers Register of Interests
- Protocol for Members and officers regarding probity planning
- Protocol on Member/Employee relations
- Register of Gifts and hospitality – Members and Officers
- Counter Fraud
- Whistleblowing policy
- RIPA Policy
- Complaints and compliments procedures

The financial management of the Authority is conducted in accordance with the financial rules set out at Article 13 and in the Financial Regulations section within the Constitution. The Council has appointed and has a designated Chief Finance Officer in accordance with Section 151 (S151) of the Local Government Act 1972. The Strategic Finance Business Partners are Deputy S151 officers. The Section 151 and Deputy 151 Officers are LGSS employees and their function is provided to the Council through the LGSS Partnership Agreement. This arrangement has been reviewed against CIPFA's Statement on the Role of the Chief Finance Officer 2010, and successfully complies with all of the criteria. As stated above, the Chief Finance Officer is a member of Management Board and reports directly to the Chief Executive.

The Council maintains an Internal Audit service provided through a contract with PricewaterhouseCoopers, who operate to the standards set out in the 'Code of Practice for Internal Audit in Local Government in the UK'. Individual services produce annual service plans. These Service Plans are updated each year so as to incorporate the Corporate Plan requirements into service activities, so that services know what they are required to do to achieve the Council's priorities and ambitions. These plans also identify any governance impact.

The Council's external audit services have been provided by KPMG since November 2012. They audit the Statement of Accounts; grant returns, whole of government accounts and national fraud initiative.

### **5.5 Managing risks and performance through robust internal control and strong public financial management.**

The Council has a comprehensive and robust performance management framework. The framework is reviewed annually to ensure that learning and improvement is captured and changes made where necessary. The Council monitors delivery of its priorities and objectives through the performance management framework. A service plan is in place for each of the Council's service areas and the objectives set out in the Corporate Plan are embedded in these plans. The service plans represent the key plan for each service and clearly set out targets and actions for each service and how each service area contributes to corporate objectives and targets. The service plans address service level improvements, including value for money objectives. Service plans also set out how each service will contribute to a range of corporate performance and improvement imperatives.

A Management Board Data Set of performance statistics is reported on a monthly basis to Management Board and performance data is reported on a quarterly basis to Cabinet. Service plans are reviewed at Departmental Management Teams, ensuring that plans remain current, that targets remain relevant and appropriately challenging, and that the service is delivering the actions necessary to achieve the corporate objectives.

The Council has several committees, which carry out regulatory or scrutiny functions, and ensure that decisions and financial performance can be scrutinised:

#### 5.5.1 Cabinet

Cabinet makes executive decisions which can be called in by Scrutiny using formal call-in powers in the constitution.

#### 5.5.2 Planning Committee

Planning Committee determines planning applications and related matters.

#### 5.5.3 Standards Committee

Standards Committee promotes monitors and helps to maintain high ethical standards amongst the Council's Members, and this extends to having the same responsibility for all town and parish councils within the Borough.

On behalf of Standards Committee the Council's Monitoring Officer has provided briefings and guidance to Members, Parish Councillors and relevant officers on matters in relation to Standards generally and to also remind Members of their obligations under the Code of Conduct, the Register of Interests, Gifts and Hospitality.

#### 5.5.4 Audit Committee

Audit Committee provides assurance about the adequacy of internal controls, financial accounting and performance reporting arrangements, and that effective risk management is in place. Its work is intended to enhance public trust in the corporate and financial governance of the council. It also reviews areas of concern to the committee, particularly around risk, fraud and failure of systems of control.

The Audit Committee has continued to be effective during 2016/17. Audit Committee has the opportunity to question and challenge on any reports brought before it. This supports a good internal control framework. Action plans around changes to the governance framework and responding to external audit recommendations have both been regularly reported to Audit Committee. The Committee have continued to review financial performance including debt management, treasury management and the use of interim/agency staff.

The Committee also considered the 2015/16 Annual Governance Statement (AGS) and Statement of Accounts, and will be considering the final signed AGS for 2016/17. The committee receives annual training from internal and external audit, as well as officer training relating to the Statement of Accounts. It is planned to undertake a skills audit of audit committee members during 2017/18 to identify further potential training needs. It is also planned to have a non political audit committee chair to strengthen the independence of audit committee as a regulatory committee, and will need approval from the audit committee and council.

#### 5.5.5 Licensing Committee

Licensing Committee monitors and reviews the effectiveness of the Council's licensing policy and procedures and make individual licensing decisions as required. Committee Members receive initial training to enable them to sit on the Committee, and ad-hoc training on any legislation changes as required.

#### 5.5.6 General Purposes Committee

General Purposes Committee, which is a sub-committee of full Council, makes decisions that are not the responsibility of the Executive or other committees.

#### 5.5.7 Appointments and Appeals Committee

Appointments and Appeals Committee has responsibility for appraising senior officers and dealing with certain disciplinary and grievance matters.

## 5.5.8 The Overview and Scrutiny Committee

Since May 2010 the Council has had one Overview and Scrutiny Committee which sets up time-limited Scrutiny Panels to carry out in-depth Reviews. The Overview and Scrutiny Committee comprises fifteen Members. The Scrutiny Panels now hold their meetings in public and individuals are encouraged to attend.

Some of the Overview and Scrutiny Committee responsibilities are:

- **Co-ordinating Work Programme** – to co-ordinate the work plan to avoid duplication and ensure joint working, or other suitable arrangements.
- **Allocation of Resources** – to consider the overall work loads of Scrutiny Panels and to agree the allocation of resources to each Panel according to need on an equal basis.
- **Involvement of other People in the Overview and Scrutiny Process** – to review arrangements for involving Councillors or people outside the Council, in the Overview and Scrutiny process, such as by co-option, or setting up working parties which include outside representatives and be responsible for agreeing appointments of external parties to relevant Scrutiny Panel.
- **Training and Development** – to review training needs of Overview and Scrutiny Committee Members and of Councillors and Council employees generally in relation to the Overview and Scrutiny process; and to consider the development of operational styles and techniques to aid the usefulness and effectiveness of the Overview and Scrutiny process.
- **Appoint three Overview and Scrutiny Panels**
- **Policy Development and Review** – The Overview and Scrutiny Committee may assist the Council and Cabinet in the development of its Budget and Policy Framework by in-depth analysis of policy issues by a variety of methods.
- **Support Needs** – To consider any general issues which arise with regard to the levels of co-operation and support which the Overview and Scrutiny Committee and Scrutiny Panels receive from other parts of the Council.

Overview and Scrutiny is a key part of the modernised arrangements for governance in local councils and also an important mechanism for driving forward performances in services. The four key legislative roles are: -

- Holding the Executive to account
- Policy development and review
- Best Value Reviews
- External Scrutiny

Overview and Scrutiny provides the opportunity for Councillors that are not members of Cabinet to examine various functions of the Council, to question how key decisions have been made and to champion issues of local concern to residents.

Overview and Scrutiny is charged with finding ways of ensuring that the issues that matter to the public are the focus of their attention, and with finding new ways of getting citizens involved in the things that affect them. Overview and Scrutiny has considerable powers:

- Holding decision makers to account
- Challenging and improving performance
- Supporting the achievement of value for money
- Challenging the ways things are done
- Influencing decision makers with evidence based recommendations
- Bringing the evidence and views of stakeholders, users and citizens

Overview and Scrutiny is Councillor led. As well as Councillors leading on the review of topics, where they research issues and develop recommendations, they are also involved in setting the Overview and Scrutiny Committee agenda, bringing forward topics and issues, identifying who

they want to hear from to help their work and what they want to know and how they want it presented to them.

The O&S Committees can “call-in” a decision that has been made by the Executive but not yet implemented, to enable it to consider whether the decision is appropriate. Call in can be referred to O&S by at least two Councillors.

Overview and Scrutiny becomes involved with decisions at an appropriate early stage to apply real influence and therefore play the important role of ‘critical friend’ to Cabinet.

The Council’s Overview and Scrutiny (O&S) Committee is a very effective model, both for pre-decision investigations, and for a call-in process to scrutinize decisions of the executive.

## **5.6 Ensuring openness and comprehensive stakeholder engagement**

The Council is committed to the importance of openness and transparency in local government. The Constitution contains Access to Information Procedure Rules and Guidelines for Open Government, which are managed on a day to day basis by the Council’s Democratic Services Department to ensure that the public are able to easily access Council meetings and information in accordance with legislative requirements.

The Council recognises the diversity of our communities, the importance of community empowerment and the need to provide appropriate opportunities for customers and communities to participate at whatever level they wish to influence service delivery, decision making and policy development.

The Council adopts a strategy of community engagement activities through a number of routes including the following:

- Six community forums held bi-monthly covering equality characteristics including; the women’s forum; disabled peoples’ forum; pensioners’ forum; youth forum; LGBTQ forum and diverse communities forum
- Parish council forum
- Park Management Committees
- Residents Association forum
- Community Centre forum

The key principles of our engagement are that:

- Communities should be involved in the decisions that affect them
- Communities deserve high quality public services, shaped around their needs
- Council policies and strategies should reflect local priorities, requirements and aspirations.

The Council’s Corporate Plan embraces, among other priorities, the ambition to have a vibrant town, to provide value for money to protect local services, to create empowered communities and to respond to people’s needs when providing and delivering services. A robust performance framework is in place to monitor progress and success.

## **5.7 Implementing good practices in transparency, reporting and audit to deliver effective accountability**

The Council as part of its governance action plan has included the following actions to improve transparency in decision making and reporting:

- Gateway reviews for all major projects to ensure progress on track and within scope
- Project and board meetings to be properly minuted and where appropriate declarations of interests obtained
- The requirement for full and comprehensive project files and records

- Extensive risk management and reporting processes.
- Regular reporting back to Cabinet on key projects
- A review of the decision 'call over' process
- Guidance on standards around cabinet report writing, including evidence and options expected, and enhanced procedures around clearance of reports

The Audit Committee has a key role to play in ensuring effective accountability. The committee receives regular reports around financial and performance management, as well as developments in corporate governance. During 2016/17 the committee has requested additional information and scrutiny over a number of different areas. Both external and internal auditors attend to provide assurance and challenge to the committee on aspects of council delivery.

Partnership working is an important way in which Local Government can deliver more efficient and effective services to local residents. The Council is a member of a number of partnerships with organisations across the local area, and in some cases is also the lead authority with responsibility for establishing and leading some of these partnerships.

The Council has adopted a Partnerships Protocol. The protocol establishes minimum standards of governance and management to be followed by partnerships in order to satisfy the Council that the partnerships are being well run and are delivering benefit to the Council and the residents of the Borough. The protocol outlines key requirements for initiating, approving, setting up, operating, reviewing, and exiting partnership arrangements including the Governance Arrangements to be adopted.

The Council maintains a database of all partnerships it is involved in. This contains details of the Council's representatives in the partnership, the Council's contribution, the name of the lead organisation, the resources committed by the Council and the risk register. The Council evaluates each partnership to assess the risks and rewards to the Council and local communities, including legal issues, insurance, implications arising from the Council's Constitution, the Council's own processes and applicable protocols, financial regulations, issues of partnership procurement and whether the benefits from the partnership are likely to justify the costs involved in membership. The viability and validity of continuing with any partnership is reviewed on a regular basis as part of the ongoing service planning process.

## **6 Review of Effectiveness**

The Council has responsibility for conducting, at least annually, a review of its governance framework including the system of internal control. The process adopted during 2016/17 for a review is below.

- PwC Internal Audit reports as part of the audit plan
- Development of a Governance Action Plan
- Review and approval by Management Board
- Review and approval by the Audit Committee

The review of effectiveness is informed by the work of the managers within the Council who have responsibility for the development and maintenance of the governance environment, the Internal Auditor's annual report and also by comments made by the external auditors and other review agencies and inspectorates.

Internal Audit, under the terms of engagement, is required to provide those charged with governance with an opinion on the overall adequacy and effectiveness of the council's:

- Risk management
- Control and;
- Governance processes.

Collectively this is referred to as "the system of internal control".

An internal audit plan is prepared each year and is agreed at the Audit Committee. For 2016/17 the audit plan was considered by Audit Committee on June 27 2016.

As part of the changes with the implementation of the LGSS project, certain internal audits were transferred to LGSS to provide assurance where the relevant services had been transferred to LGSS. The Internal Audit Outturn is therefore reported in 2 parts below – PWC findings and LGSS.

The reporting process for Internal Audit requires a report of each audit to be submitted to the relevant service manager and/or chief officer. The report includes recommendations for improvements that are included within an action plan and requires agreement or rejection by service manager and/or chief officers. The process includes follow-up reviews of recommendations to ensure that they are acted upon, usually within six months. All Internal Audit reports include a report on the quality and effectiveness of internal control within the Council's systems, and an assessment in accordance with quantification and classification of internal control level definitions. These definitions are summarised below.

### PWC Internal Audit Outturn

The below table sets out the Internal Audit opinions that can be given:

<i>Type of opinion</i>	<i>Indication of when this type of opinion may be given</i>
<b>Satisfactory</b>	<ul style="list-style-type: none"> <li>A limited number of medium risk rated weaknesses may have been identified, but generally only low risk rated weaknesses have been found in individual assignments; and</li> <li>None of the individual assignment reports have an overall report classification of either high or critical risk.</li> </ul>
<b>Generally satisfactory with some improvements required</b>	<ul style="list-style-type: none"> <li>Medium risk rated weaknesses identified in individual assignments that are <i>not significant in aggregate</i> to the system of internal control; and/or</li> <li>High risk rated weaknesses identified in individual assignments that are <i>isolated</i> to specific systems or processes; and</li> <li>None of the individual assignment reports have an overall classification of critical risk.</li> </ul>
<b>Major improvement required</b>	<ul style="list-style-type: none"> <li>Medium risk rated weaknesses identified in individual assignments that are <i>significant in aggregate but discrete parts</i> of the system of internal control remain unaffected; and/or</li> <li>High risk rated weaknesses identified in individual assignments that are <i>significant in aggregate but discrete parts</i> of the system of internal control remain unaffected; and/or</li> <li>Critical risk rated weaknesses identified in individual assignments that are <i>not pervasive</i> to the system of internal control; and</li> <li>A <i>minority</i> of the individual assignment reports may have an overall report classification of either high or critical risk.</li> </ul>
<b>Unsatisfactory</b>	<ul style="list-style-type: none"> <li>High risk rated weaknesses identified in individual assignments that <i>in aggregate are pervasive</i> to the system of internal control; and/or</li> <li>Critical risk rated weaknesses identified in individual assignments that are <i>pervasive</i> to the system of internal control; and/or</li> <li><i>More than a minority</i> of the individual assignment reports have an overall report classification of either high or critical risk.</li> </ul>
<b>Disclaimer opinion</b>	<ul style="list-style-type: none"> <li>An opinion cannot be issued because insufficient internal audit work has been completed. This may be due to either: <ul style="list-style-type: none"> <li>Restrictions in the audit programme agreed with the Audit Committee, which meant that our planned work would not allow us to gather sufficient evidence to conclude on the adequacy and effectiveness of governance, risk management and control; or</li> <li>We were unable to complete enough reviews and gather sufficient information to conclude on the adequacy and effectiveness of arrangements for governance, risk management and control.</li> </ul> </li> </ul>

Based on the work completed, internal audit have issued the following opinion:

Satisfactory	Generally satisfactory with some improvements required	<b>Major improvement required</b>	Unsatisfactory
--------------	--	-----------------------------------	----------------

There are significant weaknesses and non-compliance in the framework of governance, risk management and control which put the achievement of organisational objectives at risk.

Major improvements are required to improve the adequacy and effectiveness of governance, risk management and control. Please see our Summary of Findings in Section 2.

The significant change in opinion from 'generally satisfactory with some improvements required' has followed the issuing of their final report on the Northampton Town Football Club loan. The report highlighted issues around decision making, governance, risk management and project management. Internal Audit recognised in their annual report that the Council were taking significant steps to address these issues, which commenced with the implementation of a far reaching governance action plan in December 2016. Progress against the governance action plan is being monitored by Audit Committee, and a number of actions have already been completed.

The other internal audit reports during 2016/17 identified limited findings, with most findings being rated generally medium or low risk.

There were significant changes made in year to the Internal Audit Plan to enable the Football Club Loan Report to be concluded which has limited the amount of internal audit work undertaken in other planned areas. These changes were agreed jointly by the Council in order to respond to key risks and amended priorities. However, PwC were satisfied that sufficient internal audit work had been undertaken to allow an opinion to be given as to the adequacy and effectiveness of governance, risk management and control, but have noted this opinion is based solely on the audit reviews completed in the year and interactions with management and the Audit Committee.

The changes in the audit plan can be summarised as follows:

- Resource was diverted to complete a report on the loan granted to Northampton Town Football Club and in particular to consider the relevant policies and procedures that are applicable to a transaction of this nature.
- The original internal audit plan included work to review the resources in place within LGSS to compare the level of charges with the service being received. This did not take place as the Council gave notice on a number of elements of the LGSS contract.
- The following reviews were not undertaken with resource being diverted to the loan report; partnerships and communities, private sector housing, customers and cultural services, borough secretary directorate governance, business continuity and corporate policy.
- The planned review of performance management was deferred until the Council had completed building new outturn reports, resetting KPIs, and new processes around performance management were fully embedded.

During the year PwC completed reviews in the following areas:

- Environmental Health and Licensing
- Economic development and regeneration
- Planning: Building Control **241**
- Housing options

- Key financial system controls

The reviews identified 18 findings in total of which 13 are classified as a low rating and 5 medium.

**Risk Management Support** – in November and December 2016 PwC provided advice on governance, including supporting development of a new risk management strategy and policy, input into the job description for a new Governance and Risk Manager role.

### LGSS Internal Audit

It was agreed by the S151 Officer and the council's internal auditors (PwC) that where LGSS have the responsibility to undertake the primary functions, LGSS Internal Audit would complete the assurance work relating to these LGSS functions, and PwC would continue to audit those aspects which remain in the direct control of the council. LGSS has worked with PwC to plan and undertake their work to ensure the full coverage required to provide the assurance opinions, whilst minimising duplication of work.

Individual Findings and the overall level of control are rated by LGSS Internal Audit using the guidelines shown in the following table.

Assurance	Definition
Substantial	There are minimal control weaknesses that present very low risk to the control environmental.
Good	There are minor control weaknesses that present low risk to the control environment. .
Moderate	There are some control weaknesses that present a medium risk to the control environment.
Limited	There are significant control weaknesses that present a high risk to the control environment.
No Assurance	There are fundamental control weaknesses that present an unacceptable level of risk to the control environment.

The areas reviewed by LGSS in 2016/17 were Accounts Receivable (Debtors), Accounts Payable (Creditors), Payroll and Bank Reconciliation (Cash), General Ledger, Revenues and Benefits, System Access to ICON and IBS, and Treasury Management.

LGSS is pleased to report that they were able to give an overall "**substantial**" or "**good**" assurance on all the systems that have been reviewed.

Auditable Area	Control Environment Assurance	Compliance Assurance
Accounts Payable*	Substantial	N/A
Accounts Payable*	Substantial	N/A
General Ledger*	Substantial	N/A
Revenue and Benefits*	Substantial	N/A
Bank Reconciliations	Substantial	Substantial
ICON System Access	Substantial	Good
IBS System Access**	Substantial	Substantial
Treasury Management**	Substantial	Substantial

*\*Reviews focus on assessing control environment with limited compliance testing (i.e. walkthrough) meaning that it is impractical to assess compliance assurance.*

*\*\*Audit at draft report stage at the time of writing this report but the emerging opinions are included*

For each process area where the assurance is less than “Substantial” either at an overall opinion level or for specific areas within the process, an action plan of improvements for implementation by LGSS has been agreed between the relevant LGSS Service Manager and LGSS Internal Audit. These actions will be monitored and followed up.

## 7 Northampton Partnership Homes (NPH)

On 5 January 2015 NPH began trading. NPH is an Arm’s Length Management Organisation, wholly owned by the Council. NPH is a subsidiary of the Council for accounting purposes and their accounts have been consolidated into the Council’s Group Accounts. The governance structure of NPH is detailed at section 2 above.

### 7.1 Statement on Internal Controls

As part of their Annual Report, NPH are required to make a formal statement on Internal Controls, covering:

- Corporate Governance
- Business Planning
- Executive Management Team
- Risk Assessment and Management
- Audit
- Performance Management
- Financial Control and Budget Management
- Budgetary Control and Reporting
- Service Level Agreements
- Policies and Procedures

## 7.2 NPH - Review of Effectiveness

Internal Audit, under the terms of engagement, is required to provide the Board with an opinion on the overall adequacy and effectiveness of the council's:

- Risk management
- Control and;
- Governance processes.

Collectively this is referred to as "the system of internal control".

An audit plan is prepared each year and is agreed at NPH's Audit Committee. For 2016/17 the audit plan was agreed by their Audit Committee on 8 March 2016 and ratified by their main Board on 30 March 2016.

### RSM 2016/17 Annual Internal Audit Opinion

#### Head of internal audit opinion 2016/17

The organisation has an adequate and effective framework for risk management, governance and internal control.

However, our work has identified further enhancements to the framework of risk management, governance and internal control to ensure that it remains adequate and effective.

---

RSM stated that their work had not identified any issues that should be included within the Annual Governance Statement for 2016/17

### LGSS Internal Audit

NPH also receive the same back office support functions as The Council from LGSS. Therefore, please see section 6 for the review of effectiveness by LGSS Internal Audit.

## 8 Significant Governance Issues

### 8.1 Review of the current and previous year's Significant Governance Issues

The key issue raised by both the internal and external auditors related to governance and value for money surrounding the Northampton Town Football Club Loan. The Council has developed a Governance Action Plan to address the issues raised. Implementation of the plan started in autumn 2016, and will continue through 2017/18.

The focus is around governance of decision making, both at officer and member level including early review of key decisions, and increasing the capacity and capability of risk and financial management both corporately and across the organisation.

## 9 Conclusion

The Council and its wholly-owned subsidiary NPH, proposes to address the matters arising to further enhance governance arrangements. The Council is satisfied that these steps will address the need for improvements that were identified in the review of effectiveness and the progress of these will be monitored during the year and their implementation and operation will be reported on as part of our next annual review. There are a total of 48 recommendations, of which 22 have been implemented and the total number of actions have been reduced from 68 to 47 through merging some of the actions that relate to the same process.

## 10 Approval of the Annual Governance Statement

*To be signed post-audit, before Audit Committee on 11<sup>th</sup> September 2017*

*In accordance with the appropriate regulations, the Annual Governance Statement was considered by the Audit Committee on 11th September 2017 at the same time as the Statement of Accounts for 2016/17 was approved.*

**Councillor Jonathan Nunn**

Leader of the Council

Date: 18/8/17

**Francis Fernandes**

Borough Secretary

Date: 18th August 2017

**1) Addition made to the table on page 144**

**Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty**

Note 4

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment - Council Dwellings use of Beacon Properties	Council dwellings are valued by reference to representative properties across the housing estate known as 'beacons'. 20% of these beacons are subject to a full valuation each year on a rolling basis in line with the relevant accounting code and valuation guidance for resource accounting. The beacons valued each year are assessed for their appropriateness, and if the professional valuers deem it necessary are substituted for more appropriate beacons.	This estimation process which is in line with relevant codes and guidance does introduce some uncertainty as only 20% of the representative beacons are valued each year. The selection of alternative beacons in the 20% used for the 2016/17 valuation is estimated to have reduced the total value as at 1st April 2016 of the estate linked to these beacons by 2.2% or £1.98m and this effect has been reflected in the values as at 31 March 2017 included in the balance sheet. However if this trend continued across the remaining 80% of beacons then the impact could be a reduction of £9.3m on the total estimated value of council dwellings.

2016

**2) Updated text on page 40**

c) Revaluations

The Authority carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued at least every five years. All Valuations have been carried out by internal and external valuers were carried out internally. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture, and equipment are based on current prices where there is an active second-hand market or latest list prices adjusted for the condition of the asset.

Red text replaced by Green

The main Housing stock was initially valued by the Beacon Method at April 2000. A rolling programme of revaluation exists whereby approximately 20% of the Housing Stock is revalued each year and the average percentage change established on the revalued properties is then applied to the remaining stock. The 20% of the beacons valued each year are reviewed to see if more appropriate beacons are available, the potential uncertainties around this methodology are set out in Appendix J2 General Information – Section 4 Assumptions made about the future and other major sources of estimation uncertainty.

Green text is new
