7 APPRAISAL

7.1 The issues to consider are the impact on visual amenity and on the amenities of adjoining residential occupiers, as a result of the proposed bin store.

Visual Amenity and Street Scene

7.2 The proposed bin store would be functional in appearance to accommodate 3 Euro Bins and have been proposed to be finished in brickwork to match the existing flats. The proposed bin enclosures would be approximately 2m in height and 5m in width and 1.25m wide. Owing to the scale and siting of the bin enclosures, it is considered that it would not appear unduly prominent or be an

incongruous feature in the streetscene and would be in keeping with the overall character of the area. As such, it is not considered that the bin enclosures and the crossover would be detrimental to visual amenity and would have any adverse impact on the streetscene. The proposed development would comply with guidelines in the NPPF and saved policy E20 of the Northampton Local Plan.

Impact on adjoining occupiers

- 7.3 The proposed bin store with a crossover would be located adjoining the block of flats, it would serve the local residents. The bin enclosures would be located at some distance and given the small scale of the proposed structure, it would not unduly affect the occupiers of these flats.

8 CONCLUSION

- 8.1 The proposed bin enclosures with a crossover would have no undue adverse impact on the street scene or on the amenities of adjoining and nearby occupiers. The proposal would comply with the guidelines outlined in the NPPF, policy S10 of the West Northamptonshire Joint Core Strategy and saved policy E20 of the Northampton Local Plan.
